Heesterman, 2012-12-10 In this book J C Heesterman attempts to understand the origins and nature of Vedic sacrifice the complex compound of ritual practices that stood at the center of ancient Indian religion Paying close attention to anomalous elements within both the Vedic ritual texts the brahmanas and the ritual manuals the *śrautasūtras* Heesterman reconstructs the ideal sacrifice as consisting of four moments killing destruction feasting and contest He shows that Vedic sacrifice all but exclusively stressed the offering in the fire the element of destruction at the expense of the other elements Notably the contest was radically eliminated At the same time sacrifice was withdrawn from society to become the sole concern of the individual sacrificer The ritual turns in on the individual as self sacrificer who realizes through the internalized knowledge of the ritual the immortal Self At this point the sacrificial cult of the fire recedes behind doctrine of the *ātman*'s transcendence and unity with the cosmic principle the *brahman* Based on his intensive analysis Heesterman argues that Vedic sacrifice was primarily concerned with the broken world of the warrior and sacrificer This world already broken in itself by the violence of the sacrificial contest was definitively broken up and replaced with the ritualism of the single unopposed sacrificer However the basic problem of sacrifice the riddle of life and death keeps breaking too surface in the form of incongruities contradictions tensions and oppositions that have perplexed both the ancient ritual theorists and the modern scholar      **The**

Eucharistic Sacrifice and Patristic Tradition in the Theology of Martin Bucer, 1534-1546 Nicholas Thompson, 2005-02-01. Luther described the Mass as the greatest and most horrible abomination of the papal church. On this, he argued, nothing could be surrendered. However, during the 1530s and early 1540s, the Strasbourg reformer Martin Bucer (1491-1551) sought rapprochement with the Catholics on precisely this matter. This book looks at Bucer's overtures to Catholic moderates in the era of the religious colloquies. He proposed to circumvent the Reformation impasse by returning to the Eucharistic theology of the church fathers and early scholastics. These efforts culminated in the Eucharistic articles of the Worms Regensburg Book (1541). Bucer's falling out with the same Catholics in the aftermath of the Colloquy of Regensburg reveals the extent to which the agreed articles were based on misunderstanding, as well as the considerable common ground that continued to exist between them. In its examination of this most fraught of Reformation debates, the book also sheds light on Bucer's ecumenical

theology and his aspirations for a reunion of the German and European churches
