Bernstein, 2004-12-13 Most new psychology instructors enter their first undergraduate classrooms with little or no formal preparation for their role as a teacher The goal of this book is to review the body of teaching research that is available as well as some of the well accepted lore so as to make the first foray into teaching psychology a positive experience Teaching Psychology outlines the major problems and issues confronting psychology teachers It presents an overview of the nuts and bolts of teaching psychology including dealing with troubled and troubling students choosing and using technology developing evaluation instruments and selecting methods for self evaluation Written by two award winning psychology professors with over 50 years of combined teaching experience the book offers a wide range of down to earth suggestions and immediately usable materials intended to help psychology teachers teach better and help students learn more The chapters are organized to roughly parallel the sequence of tasks that new psychology teachers face beginning with goal setting and ending with evaluation of one's teaching Each chapter is chockfull of helpful tools including checklists sample lecture notes writing assignments and grading criteria To make it easier to customize this material these tools are available on an accompanying CD along with a rating sheet for choosing a textbook a student grade record sheet a sample statement on academic integrity and a pool of less than perfect test items to hone item writing skills This book offers guidelines for teaching such as setting goals in line with 10 basic principles of effective teaching planning the basics including choosing a text writing a syllabus and creating a grading system setting a positive tone in the classroom providing tips on asking and answering questions promoting critical thinking and evaluating student performance Intended for psychology graduate students who are learning to teach faculty who train psychology instructors and new psychology faculty at institutions ranging from high schools to universities as well as experienced faculty wishing to hone their teaching skills     *Item Banking: Interactive Testing and Self-Assessment* Dieudonne A. Leclercq, James E. Bruno, 2012-12-06 Assessment has long been recognized as a key feature in learning efficacy especially through formative evaluation Item banking the storage and classification of test items is an essential part of systematic assessment This volume is based on a NATO Advanced Research Workshop held as part of the Special Programme on Advanced Educational Technology The workshop brought together scholars from around the world to discuss and critically analyze the issues and problems associated with Subjective

Probability Measurement SPM or the more generic research area called self assessment Recent advances in computer technology expert systems interactive video disks and hypermedia along with the developing sophistication of self assessment scoring systems based on SPM made this conference particularly important and timely The book is divided into three main parts The input item banking and hypermedia The process subjective probabilities The output teaching and learning feedbacks In summary although SPM is a difficult theoretical concept for most educators to comprehend the sophisticated nature of modern computer systems coupled with comprehensive formative and summative evaluation and self assessment systems make SPM transparent to the user     Aptitudes and Instructional Methods Lee Joseph Cronbach, Richard E. Snow, 1981     *Teaching Communication* Anita L. Vangelisti, John A. Daly, Gustav W. Friedrich, 2013-11-05 The field of communication was founded in part because of a need to make people better communicators That meant teaching them how to communicate more effectively whether it be in public settings or in private Most of that teaching has happened within the classroom and many professionals have spent their lives instructing others on various aspects of communication Inside this second edition the editors have assembled a fully comprehensive and contemporary discussion of topics and issues concerning the teaching of communication The chapters contained herein contributed by key voices throughout the communication discipline address conceptual as well as practical issues related to communication instruction The contents of this new edition reflect the dramatic changes that have occurred in communication education since the publication of the first edition in 1990 This book focuses initially on the goals of communication education then delves into the preparation of specific communication courses It includes assistance for instructors in organizing instructional content and discusses the use of instructional strategies and tools as well as offering ideas on evaluating the processes and products of instruction The volume also covers unique teaching assignments that may be encountered from the basic course to continuing education and addresses 2 year college teaching directing forensic programs distance education and consulting It concludes with important professional issues faced by both new and experienced communication instructors including ethics and political issues within classrooms and departments This volume is a necessity for anyone starting out a career as a communication instructor Veteran educators who know that learning to teach is a continual growth experience will find useful and invaluable information within the book's pages Whatever background and level of experience all communication educators will find this new edition to be an essential resource for their work     **Higher Education** D. Kent Halstead, 1981     **Faculty Development in a Time of Retrenchment** Group for Human Development, 1981-01-01     *Report* ERIC Clearinghouse on Higher Education, 1972     Education and Anthropology Annette Rosenstiel, 2019-07-23 Originally published in 1977 and compiled over a period of 25 years of teaching and research in the fields of education and anthropology this annotated bibliography was designed as a single source reflecting 1 historical influences 2 current trends 3 theoretical concerns and 4 practical methodology at the interfaces of

these disciplines All entries listed alphabetically by author are numbered for ready reference and the material covered spans nearly three centuries from the earliest entry in 1689 to the most recent in 1976 The volume also contains entries for items dealing with the teaching of anthropology and the use of anthropological concepts and data in teaching *Practical Magic* John E. Roueche, Mark D. Milliron, Suanne D. Roueche, 2003-06 What constitutes excellent teaching To answer this question these noted experts went straight to the thousands of teachers who have been recognized for excellence recipients of teaching excellence awards and asked them Their answers which the authors have put into context with history and research make for a book that is as inspiring as it is informative shedding new light on both the definable and the simply magical components of good teaching Publisher description
