The Column Of Antoninus Pius:

The Column of Antoninus Pius Lise Vogel, 1973 **The Mound Builders** H. C. Shetrone, 1930 **Studies on the Column of Antoninus Pius** Lise Ann Vogel, 1968 Lise Vogel: The Column of Antoninus Pius Georg Daltrop, 1975 *The Beautiful Burial in Roman Egypt* Christina Riggs, 2006-01-06 This important new study looks at the intersection of Greek and Egyptian art forms in the funerary sphere of Roman Egypt A discussion of artistic change cultural identity and religious belief foregrounds the detailed analysis of more than 150 objects and tombs many of which are presented here for the first time In addition to the information it provides about individual works of art supported by catalogue entries the study explores fundamental questions such as how artists combine the iconographies and representational forms of different visual traditions and why two distinct visual traditions were employed in Roman Egypt **Palladio's Rome** Architect Andrea Palladio, Andrea Palladio, Vaughan Hart, Peter Hicks, 2006-01-01 Andrea Palladio 1508 1580 one of the most famous architects of all time published two enormously popular guides to the churches and antiquities of Rome in 1554 Striving to be both scholarly and popular Palladio invited his Renaissance readers to discover the charm of Rome s ancient and medieval wonders and to follow pilgrimage routes leading from one church to the next He also described ancient Roman rituals of birth marriage and death Here translated into English and joined in a single volume for the first time Palladio s guidebooks allow modern visitors to enjoy Rome exactly as their predecessors did 450 years ago Like the originals this new edition is pocket sized and therefore easily read on site Enhanced with illustrations and commentary the book also includes the first full English translation of Raphael s famous letter to Pope Leo X on the monuments of ancient Rome For architectural historians tourists and armchair travelers this book offers fresh and surprising insights into the antiquarian and ecclesiastical preoccupations of one of the greatest of the Renaissance architectural masters Death and the Emperor Penelope J. E. Davies, 2010-06-28 The role of monuments in the Roman imperial cult Davies sets out to ask How did the Romans bury Caesar And with what monuments did they sing his praises The architectural elaboration of these structures their siting in the capital the lines of vision and approaches that exposed them to view the paths their complex outworks formed for visitors to walk are all picked out with skill and presented with care in *Death and the Emperor* Times Literary Supplement This concise and lucidly written book is a very valuable new contribution to the studies of Roman imperial cult political propaganda and topography and has the added benefit of discussing complex scholarly disputes in a manner that the non specialist will probably follow with ease There is material in this volume that will be immensely useful to researchers in many areas archaeology history of architecture iconography history of religion and Roman political propaganda to name just a few I strongly recommend it to scholars interested in any or all of the above topics Bryn Mawr Classical Review Even though its focus is on only seven specimens of architecture the book touches upon a broad array of aspects of Roman imperial culture Elegantly written and generously illustrated this book should be of great interest to the general public as well as to the

Old Rome: A Handbook to the Ruins of the City and the Campagna Robert Burn,2021-04-26 In *Old Rome A Handbook to the Ruins of the City and the Campagna* Robert Burn meticulously captures the essence of ancient Rome through a vivid exploration of its ruins and surrounding landscapes The book employs an engaging blend of literary descriptions and detailed illustrations inviting readers to traverse the physical and historical layers of the Roman past Burn s work stands as a quintessential guide for both scholars and casual visitors interweaving observations on architecture art and archaeology thereby contextualizing the ruins within the socio political fabric of ancient Rome and its enduring legacy on modern civilization Robert Burn a prominent figure in 19th century antiquarian scholarship devoted his life to the study and appreciation of classical antiquities His fascination with Rome s multifaceted history combined with his background in historical cartography propelled him to compile this handbook Burn walked the ancient sites absorbing their grandeur and aimed to share this intimacy with others reflecting his belief that understanding ruins fosters a deeper connection to the past *Old Rome* is a must read for anyone interested in the ancient world architecture or the history of art Its scholarly yet accessible approach bridges the gap between academic rigor and popular appeal making it an invaluable resource for both seasoned historians and those newly captivated by the timeless allure of Rome In this enriched edition we have carefully created added value for your reading experience Hand picked Memorable Quotes shine a spotlight on moments of literary brilliance Interactive footnotes clarify unusual references historical allusions and archaic phrases for an effortless more informed read **The Art of Empire** Lee M. Jefferson,Robin M. Jensen,2015-10-01 In recent years art historians such as

Johannes Deckers *Picturing the Bible* 2009 have argued for a significant transition in fourth and fifth century images of Jesus following the conversion of Constantine Broadly speaking they perceive the image of a peaceful benevolent shepherd transformed into a powerful enthroned Jesus mimicking and mirroring the dominance and authority of the emperor The powers of church and state are thus conveniently synthesized in such a potent image This deeply rooted position assumes that ante pacem images of Jesus were uniformly humble while post Constantinian images exuded the grandeur of power and glory *The Art of Empire* contends that the art and imagery of Late Antiquity merits a more nuanced understanding of the context of the imperial period before and after Constantine The chapters in this collection each treat an aspect of the relationship between early Christian art and the rituals practices or imagery of the Empire and offer a new and fresh perspective on the development of Christian art in its imperial background **Finding Ancient Rome** Paula

Landart,2023-03-06 Second edition updated March 2023 Ancient Rome is still with us more than ever Every year with new metro lines roadworks digs restorations and repairs new discoveries are made and old errors corrected and new questions raised This electronic book is intended as both a walking guide to ancient Rome and a resource for the city and the people who left their mark on history Each of the eight excursions illustrates an aspect of the city from the foundation to the fall and

in passing explains the bits of modern Rome whose roots lie in that distant past These walks are not meant to be a tourist guide of the Rome in 3 days style nor a nutshell guide to the well documented and overrun sites such as the Colosseum and the Forum Instead they lead through the city itself along paths that have been trod for thousands of years *Art in the Lives of Ordinary Romans* John R. Clarke, 2006-04-17 *Art in the Lives of Ordinary Romans* is superbly out of the ordinary John Clarke's significant and intriguing book takes stock of a half century of lively discourse on the art and culture of Rome's non elite patrons and viewers Its compelling case studies on religion work spectacle humor and burial in the monuments of Pompeii and Ostia which attempt to revise the theory of trickle down Roman art effectively refine our understanding of Rome's pluralistic society Ordinary Romans whether defined in imperialistic monuments or narrating their own stories through art in houses shops and tombs come to life in this stimulating work Diana E E Kleiner author of *Roman Sculpture* John R Clarke again addresses the neglected underside of Roman art in this original perceptive analysis of ordinary people as spectators consumers and patrons of art in the public and private spheres of their lives Clarke expands the boundaries of Roman art stressing the defining power of context in establishing Roman ways of seeing art And by challenging the dominance of the Roman elite in image making he demonstrates the constitutive importance of the ordinary viewing public in shaping Roman visual imagery as an instrument of self realization Richard Brilliant author of *Commentaries on Roman Art Visual Narratives and Gesture and Rank in Roman Art* John Clarke reveals compelling details of the tastes beliefs and biases that shaped ordinary Romans encounters with works of art both public monuments and private art they themselves produced or commissioned The author discusses an impressively wide range of material as he uses issues of patronage and archaeological context to reconstruct how workers women and slaves would have experienced works as diverse as the Ara Pacis of Augustus funerary decoration and tavern paintings at Pompeii Clarke's new perspective yields countless valuable insights about even the most familiar material Anthony Corbeill author of *Nature Embodied Gesture in Ancient Rome* How did ordinary Romans view official paintings glorifying emperors What did they intend to convey about themselves when they commissioned art And how did they use imagery in their own tombstones and houses These are among the questions John R Clarke answers in his fascinating new book *Charting a new approach to people's art* Clarke investigates individual images for their functional connections and contexts broadening our understanding of the images themselves and of the life and culture of ordinary Romans This original and vital book will appeal to everyone who is interested in the visual arts moreover specialists will find in it a wealth of stimulating ideas for further study Paul Zanker author of *The Mask of Socrates The Image of the Intellectual in Antiquity* *Walks in Rome Augustus* John Cuthbert Hare, 1909 [Walks in Rome \(including Tivoli, Frascati, and Albano\)](#) Augustus John Cuthbert Hare, 1908 **Old Rome, an epitome of 'Rome and the Campagna'**. Robert Burn, 2016-08-09 This book is intended to serve as a handbook to the actually existing ruins and monuments of ancient Rome and the Campagna It is divided into topographical sections for the convenience of travellers visiting Rome and the monuments which exist in each section have been briefly described and a summary given of their history and archaeological value The introductory section contains general remarks upon the site monumental history and architecture of Rome and in a section prefixed to Chapter IX the nature of the soil and configuration of the hills and valleys of the district surrounding the city are stated In the Appendix to the eighth chapter will be found a list of the chief monumental antiquities in the museums galleries and other public places This has been thought to be useful as these are often difficult to recognise from being mixed with so many other attractive and important objects of more modern art and history All speculative conjectures as to the probable sites or constructions of ancient buildings or places have been avoided Such questions require more space than can be spared in so small a volume and have been fully treated of in my larger work Rome and the Campagna I have confined myself in this handbook to a brief topographical archaeological and historical description of each existing ruin or monument The references given have been restricted to modern treatises and to a few of the more rarely read Greek and Latin authors Full classical authorities are Pg vi given in Rome and the Campagna and are referred to in the foot notes of this handbook The importance of topographical and archaeological knowledge in enabling us to realise the history of ancient life both national and social is fortunately becoming more and more generally recognised The early growth and characteristic features of the Roman commonwealth can be traced in great measure to the conformation of the ground on which the community was first developed
