The Coming Convergence Of World Religions:

The Coming Convergence of World Religions Robley Edward Whitson, 1992-01-01 We have says Father Whitson moved across the threshold into a new situation in religion No longer is the quest for unity primarily the concern of historians social theorists and those who generally felt themselves to be outside the commitment to one of the traditions The quest for unity at long last involves those with a specific religious identity and hence enters the very substance of religious experience both individual and communally shared Even though a concern still limited to a very few the explosion in communications and the revolution in education are even now multiplying the effect of these few astronomically The question before us he continues then is not whether the world s religious traditions have a positive significance for one another but rather how we can formulate an understanding of that significance The formulation we seek must arise from within actual religious experience and be capable of speaking to one who listens from within a tradition of sharing specific historic forms of experience It must not presume that the process towards unity will destroy the various traditions reducing them to some common indeterminate kind of religious experience On the contrary to be authentic it must recognize and prize the very different heritages for we can now see that each at its core is unique Sometimes the differing traditions originating in isolation from each other and so coming to their present maturity separately are to become dimensions of one another complementing each other by their varied uniqueness and making possible an undreamed of breadth and depth of vision for man in an infinite universe

The Coming Convergence of World Religions Robley Edward Whitson, 1971 **The Phenomenon of Teilhard** David H. Lane, 1996 New Age writer of the popular Aquarian Conspiracy Marilyn Ferguson observed that many of the leading lights of the New Age movement claim Teilhard as one of the most influential persons in their lives Other influences acknowledged include C G Jung Aldous Huxley Swami Muktananda Thomas Merton Werner Erhard and Maharishi Yogi Indeed of the 185 New Age leaders surveyed Teilhard was the most frequently mentioned of any person who had most influenced their thinking If this is the case then if we are to understand the New Age movement properly it behooves us to take a careful and critical look at Teilhard de Chardin David Lane has done precisely this in a clear well documented and penetrating way In this crucial book David Lane lays bare the philosophical theological and scientific failures of Teilhard s New Age enterprise In a highly documented and insightful scrutiny of Teilhard s cosmic evolution Lane unveils the apostate Christian roots of one of the most important forerunners of the New Age movement This is one of the most significant and serious treatments of the modern roots of the New Age in print **World Faiths** S.A.

Nigosian, 2015-12-30 **World Faiths** is a brief introduction to the major world religions The book provides detailed coverage of the historical development of different religious traditions and for each religion presents issues of faith from the perspective of the believer [Teilhard De Chardin and Eastern Religions](#) U. M. King, 1977 **Teilhard de Chardin and Eastern**

Religions Ursula King, 2011 Teilhard de Chardin and Eastern Religions is in part an update of the 1980 classic Toward a

New Mysticism Author Ursula King has extensively revised this work adding new material as she traces Teilhard's encounter with Eastern thought It includes an extensive bibliography and annotated study guide Book jacket *A Third Collection* Bernard Lonergan, 2017-02-11 The papers deal with scientific mathematical theological and philosophical questions including discussions of such topics as the proper foundation of metaphysics the form of inference the nature of love and marriage and the role of the university in the modern world *A Third Collection* Bernard Lonergan, Lonergan Research Institute, 2017-03-17 *A Third Collection* prepared for the Collected Works of Bernard Lonergan by editors Robert M Doran and John D Damosky is a helpful companion to volumes four and thirteen in the series The volume contains fifteen papers written between 1974 and 1982 and includes some of his most important shorter writings such as *Prolegomena to the Study of the Emerging Religious Consciousness of Our Time* and *Natural Right and Historical Mindedness* The relevant archival entries are specified so that readers can consult them The papers in this volume rehearse in a new key the themes of a lifetime Without in any way going back on the major emphases of Lonergan's early work cognitional theory and then the exploration of a fourth existential level of consciousness they are focused more on love and on the movement from above downwards in consciousness Community is emphasized as the context and the fruit of the emergence of authentic subjects

The Trinity in History Robert M. Doran, 2012-01-01 *The Trinity in History* is the first volume in a new series by Robert M Doran that uses the thought of Bernard Lonergan to develop a unified field structure for systematic work in theology Building on his successful and thought provoking *Theology and the Dialectics of History* and *What Is Systematic Theology* Doran works out a starting point for a contemporary theology of history and proposes a new application of the psychological analogy for understanding the Christian doctrine of the Trinity Advancing the work of Lonergan Augustine and Thomas Aquinas *The Trinity in History* also enters into conversation with contemporary philosophical emphases especially with the mimetic theory of noted anthropological philosopher Ren Girard Doran suggests several refinements of Lonergan's notion of functional specialization developing a perspective for including the data of various religious traditions in theological construction and establishing this theory's relevance for contemporary interreligious dialogue *The Attentive Voice* William Skudlarek, 2011 For three and a half decades Monastic Interreligious Dialogue MID has been bringing individuals from faiths with a monastic tradition Christianity Buddhism and Hinduism to discuss the deeper rhythms and structures of their traditions the practices disciplines and struggles and joys of a vocation In these essays gathered from twenty five years of the MID Bulletin the authors describe the ways dialogue with other religious traditions has enhanced their spiritual life explain why interreligious relations have become such an important element of modern Catholic life and reflect on the meaning of interreligious dialogue vis vis the Catholic Church's teaching on revelation and salvation in and through Jesus Christ In so doing they show that interreligious dialogue is an engaging enlightening and spiritually enriching way to respond to religious plurality **Philosophical and Theological Papers, 1965-1980** Bernard J. F. Lonergan, 2004-01-01 This

anthology contains Lonergan's lectures on philosophy and theology given during the later period of his life 1965-1980 and document his development in the discipline during the years leading up to the publication of *Method in Theology* and beyond to 1980

Hermeneutics and Method Ivo Coelho, 2001-01-01 Using the Thomist notion of wisdom as a key for interpretation Coelho traces the flowering of the universal viewpoint into a mature theological method one that holds out the hope of an effective transcultural mediation of meanings and values

The Allure of the Compelling Genius of History Philip McShane, 2015-12-11 This book intimates the movement of theology into respectable companionship with the general explanatory drive of the mature sciences At the same time it is an invitation to seed a strange effective Han Dynasty of the well of loneliness The first brief Han Dynasty in China 206 BCE-220 CE spanned the Galilean time of Jesus The new permanent Han Dynasty of global care is to be slowly and patiently weaved round the minding of the Wholly Frail that is the Unknown Real Jesus of the symphony of history

The Future: Core Precepts in Supramolecular Method and Nanochemistry Philip McShane, 2019-10-12 The book is an invitation to a chemical revolution one that lifts us towards the positive Anthropocene leaving behind the sick killing and dying days of the negative Anthropocene so neatly identified in 1940 by Charlie Chaplin at the conclusion of *The Great Dictator* Greed has poisoned men's souls has barricaded the world with hate has goose stepped us into misery and bloodshed We have developed speed but we have shut ourselves in Machinery that gives abundance has left us in want For those familiar with Lonergan's book *Method in Theology* The Future aims at a new creative reading The author's central message is to focus on theology ASAF ACT to come to our senses and ASsemble our AFFirmed ACTing to change history Assembly includes self assembly an assembly of a piece of a lonely cosmic chemistry a supermolecule whose reality in history is weaved round a complex W enzyme

Philosophical and Theological Papers, 1965-1980 Bernard Lonergan, 2004-06-02 A companion to *Philosophical and Theological Papers 1958-1964* Volume 6 in the *Collected Works of Bernard Lonergan* series this anthology contains Lonergan's lectures on philosophy and theology given during the later period of his life 1965-1980 These papers document his development in the discipline during the years leading up to the publication of *Method in Theology* and beyond to 1980 when he was more engaged in his writings and seminars on macroeconomics *Philosophical and Theological Papers 1965-1980* is divided into five sections forming units on the basis of dates The three central sections are each a set of lectures respectively given at the Massachusetts Institute of Technology Gonzaga University in Spokane and Trinity College University of Toronto Although there is some repetition amongst the lecture sets and in relation to other more familiar works this repetition displays occasional new turns of phrase that the careful reader will note In at least one instance familiar material suddenly opens out onto expressions not to be found anywhere else in Lonergan's work Other very interesting developments regard the movement from speaking of the immutability of dogmas to their permanence of meaning and the permutations among real self transcendence performative self transcendence and moral self transcendence
