Postnationalism in Chicana/o Literature and Culture Ellie D. Hernández, 2010-01-01 In recent decades Chicana o literary and cultural productions have dramatically shifted from a nationalist movement that emphasized unity to one that openly celebrates diverse experiences Charting this transformation *Postnationalism in Chicana o Literature and Culture* looks to the late 1970s during a resurgence of global culture as a crucial turning point whose reverberations in twenty first century late capitalism have been profound Arguing for a postnationalism that documents the radical politics and aesthetic processes of the past while embracing contemporary cultural and sociopolitical expressions among Chicana o peoples Hernández links the multiple forces at play in these interactions Reconfiguring text based analysis she looks at the comparative development of movements within women s rights and LGBTQI activist circles Incorporating economic influences this unique trajectory leads to a new conception of border studies as well rethinking the effects of a restructured masculinity as a symbol of national cultural transformation Ultimately positing that globalization has enhanced the emergence of new Chicana o identities Hernández cultivates important new understandings of borderlands identities and postnationalism itself

S Secretary of Education Betsy DeVos Current debates about immigration and Dreamers new statistics on immigrant education discussion of education proposals to accommodate the languages cultures and religions of newly arrived immigrants New education statistics on school enrollments dropouts education and income school segregation charter schools and home languages The purposes of education as presented in the 2016 platforms of the Republican Democratic Green and Libertarian parties Discussions around transgender students U.S. Latino Literature Margarite Fernández Olmos, Harold Augenbraum, 2000-09-30 In the past ten years literature by U S Latinos has gained an extraordinary public currency and has engendered a great deal of interest among educators Because of the increase in numbers of Latinos in their classrooms teachers have recognized the benefits of including works by such important writers as Sandra Cisneros Julia Alvarez and Rudolfo Anaya in the curriculum Without a guide introducing courses on U S Latino literature or integrating individual works into the general courses on American Literature can be difficult for the uninitiated While some critical sources for students and teachers are available none are dedicated exclusively to this important body of writing To fill the gap the editors of this volume commissioned prominent scholars in the field to write 18 essays that focus on using U S Latino literature in the classroom The selection of the subject texts was developed in conjunction with secondary school teachers who took part in the editors course This resultant volume focuses on major works that are appropriate for high school and undergraduate study including Judith Ortiz Cofer's *The Latin Deli* Piri Thomas *Down These Mean Streets* and Cisneros *The House on Mango Street* Each chapter in this Critical Guide provides pertinent biographical background on the author as well as contextual information that aids in understanding the literary and cultural significance of the work The most valuable component of the critical essays the Analysis of Themes and Forms helps the reader understand the thematic concerns raised by the work particularly the recurring issues of language expression and cultural identity assimilation and intergenerational conflicts Each essay is followed by specific suggestions for teaching the work with topics for classroom discussion Further enhancing the value of this work as a teaching tool are the selected bibliographies of criticism further reading and other related sources that complete each chapter Teachers will also find a Sample Course Outline of U S Latino Literature which serves as guide for developing a course on this important subject *Upward Mobility and the Common Good* Bruce Robbins, 2009-12-21 We think we know what upward mobility stories are about virtuous striving justly rewarded or unprincipled social climbing regrettably unpunished Either way these stories seem obviously concerned with the self making of self reliant individuals rather than with any collective interest In *Upward Mobility and the Common Good* Bruce Robbins completely overturns these assumptions to expose a hidden tradition of erotic social interdependence at the heart of the literary canon Reinterpreting novels by figures such as Balzac Stendhal Charlotte Bront Dickens Dreiser Wells Doctorow and Ishiguro along with a number of films Robbins shows how deeply the material and erotic desires of upwardly mobile characters are intertwined with the aid they receive from some sort of benefactor or mentor In his view Hannibal Lecter of

The Silence of the Lambs becomes a key figure of social mobility in our time Robbins argues that passionate and ambiguous relationships like that between Lecter and Clarice Starling carry the upward mobility story far from anyone's simple self interest whether the protagonist's or the mentor's Robbins concludes that upward mobility stories have paradoxically helped American and European society make the transition from an ethic of individual responsibility to one of collective accountability a shift that made the welfare state possible but that also helps account for society's fascination with cases of sexual abuse and harassment by figures of authority

Narratives of Resistance Ana María Manzanás Calvo, Jesús Benito Sánchez, 1999 The articles included in this collection cover a wide range of literatures and topics but most of them address the ways in which ethnic writers create themselves in opposition and resistance to the mainstream These narratives of opposition and resistance do not equate protest narratives but represent a consciously subversive effort There is agency and creativity in the confrontation for the majority of these narratives are not only demystifying an old world and order but creating a new one there narratives are not reproducing as much as producing and forging culture and literature The articles we present resist not only the politics of traditional canon formation but the politics of cultural nationalism as well they challenge the margins as well as the center With this revisionist agenda the aim of this collection is to invite readers to further their rethinking of American and Caribbean literatures
