The hunting peoples ... Maps and
drawings by Aldren A. Watson Carleton Stevens Coon, 1971 The Peoples of Northeast Asia through Time Richard
Zgusta, 2015-06-29 The focus of Richard Zgusta's *The Peoples of Northeast Asia through Time* is the formation of indigenous
and cultural groups of coastal northeast Asia including the Ainu the Paleoasiatic peoples and the Asiatic Eskimo Most
chapters begin with a summary of each culture at the beginning of the colonial era which is followed by an interdisciplinary
reconstruction of prehistoric cultures that have direct ancestor descendant relationships with the modern ones An additional
chapter presents a comparative discussion of the ethnographic data including subsistence patterns material culture social
organization and religious beliefs from a diachronic viewpoint Each chapter includes maps and extensive references A
History of the Original Peoples of Northern Canada Keith J. Crowe, 1991 For more than fifteen years Keith Crowe's *A History*
of the Original Peoples of Northern Canada has informed a multitude of residents in and visitors to the Canadian North and
has served as a standard text Now in a new epilogue Crowe describes and analyses the changes in the North which have
come about since the book's first publication The success of this book over the years is due in large part to Crowe's approach
While the majority of works on Canadian history are essentially European in perspective Crowe has endeavoured to interpret
the history of the original peoples of northern Canada from a native standpoint He has attempted to provide a work that
native Canadians can use to learn the broad outlines of their cultural and historical development as well as details about their
people places and events while giving non native people a more accurate version of northern Canadian history and ethnology
Crowe begins with the emergence in prehistoric times of the three great groups of hunting people the Algonkian Athapaskan
and Inuit describing their contribution to the cultural heritage of native peoples today He devotes particular attention to the
various native tribes and some of their outstanding leaders to the fur trade its effects and the emergence of the Métis people
to the devastating consequences of trading and whaling for the Arctic and the Inuit who lived there to the Yukon Indians and
the Gold Rush to the coming of Christianity and to the impact of governmental and economic encroachment on the North and
the native peoples response to this moving into the boardroom and elected office In his new epilogue Crowe surveys the
major land claims since 1974 some settled most still under negotiation and some like the James Bay hydro electric project
being challenged Crowe also explains the complexities of the land claims process and points out the irony inherent in native
peoples having to help create numerous foreign laws and institutions in order to protect an essentially simple way of life He
describes the native peoples movement into and up the ranks of government at all levels and emphasizes the important role
played by regional and national native associations such as the Assembly of First Nations He outlines the changes and
developments in education in the North and provides a detailed assessment of the still very difficult economic situation

stressing the native peoples concern that economic development in the North not be divorced from environmental considerations Keith J Crowe who served for many years in the Department of Indian and Northern Affairs is now retired but remains privately active in northern and native issues *The Dakota Peoples* Jessica Dawn Palmer,2010-03-22 The Dakota people alternatively referred to as Sioux Native Americans or Oceti Sakowin The People of the Seven Council Fires have a storied history that extends to a time well before the arrival of European settlers This work offers a comprehensive history of the Dakota people and is largely based on eyewitness accounts from the Dakota themselves including legends traditions and winter counts Included are detailed analyses of the various divisions tribes and bands of the Dakota people including the Lakota and Nakota tribes Topics explored include the Dakotas early government the role of women within the Dakota tribes the rituals and rites of the Dakota people and the influence of the white man in destroying Dakotan culture *The Apache Peoples* Jessica Dawn Palmer,2013-07-30 This book presents a comprehensive history of the seven Apache tribes tracing them from their genetic origins in Asia and their migration through the continent to the Southwest The work covers their social history verbal traditions and mores The final section delineates the recorded history starting with the Spanish expedition of 1541 through the Civil War *The Culture of Hunting in Canada* Jean L. Manore,Dale Miner,2011-11-01 The Culture of Hunting in Canada is about a pivotal but little studied aspect of Canadian history culture and society It covers elements of the history of hunting from the pre colonial period until the present in all parts of Canada featuring essays by practitioners and scholars of hunting and by pro and anti hunting lobbyists The result crosses the boundaries between scholarship and personal reflection and between academia and advocacy The essays collected here address important historical and contemporary issues regarding the culture and practice of hunting Topics include hunting identities conservation and its relationship to hunting tensions between hunters and non hunters and between Aboriginal and non Aboriginal hunting groups hunting ethics debates over hunting practices and regulations animal rights and gun control The discussion involves consideration of the social political and economic context as well as class and racial tensions between sport hunters and subsistence hunters The Culture of Hunting in Canada makes an unprecedented contribution to the study of hunting in Canada and its role in our culture It will appeal to sociologists anthropologists and historians of hunting culture wildlife biologists natural resource managers and environmentalists and not least hunters and anyone interested in the culture of hunting *The Hunting Apes* Craig B. Stanford,2001-02-25 Stanford examines great ape behavior and hunter gatherer societies to support his hypothesis that the hunting eating and sharing of meat drove human evolution **Peoples on the Move** David J.
