Immigration Raids United States. Congress. House. Committee on the Judiciary. Subcommittee on Immigration, Citizenship, Refugees, Border Security, and International Law, 2009 *ICE Workplace Raids* United States. Congress. House. Committee on Education and Labor. Subcommittee on Workforce Protections, 2008 **Carceral Logics** Lori Gruen, Justin Marceau, 2022-04-14 Carceral logics permeate our thinking about humans and nonhumans We imagine that greater punishment will reduce crime and make society safer We hope that more convictions and policing for animal crimes will keep animals safe and elevate their social status The dominant approach to human animal relations is governed by an unjust imbalance of power that subordinates or ignores the interest nonhumans have in freedom In this volume Lori Gruen and Justin Marceau invite experts to provide insights into the complicated intersection of issues that arise in thinking about animal law violence mass incarceration and social change Advocates for enhancing the legal status of animals could learn a great deal from the history and successes and failures of other social movements Likewise social change lawyers as well as animal advocates might learn lessons from each other about the interconnections of oppression as they work to achieve liberation for all This title is also available as Open Access on Cambridge Core [The Cambridge Handbook of Labor and Democracy](#) Angela B. Cornell, Mark Barenberg, 2022-01-20 We are currently witnessing some of the greatest challenges to democratic regimes since the 1930s with democratic institutions losing ground in numerous countries throughout the world At the same time organized labor has been under assault worldwide with steep declines in union density rates In this timely handbook scholars in law political science history and sociology explore the role of organized labor and the working class in the historical construction of democracy They analyze recent patterns of democratic erosion examining its relationship to the political weakening of organized labor and in several cases the political alliances forged by workers in contexts of nationalist or populist political mobilization The volume breaks new ground in providing cross regional perspectives on labor and democracy in the United States Europe Latin America Africa and Asia Beyond academia this volume is essential reading for policymakers and practitioners concerned with the relationship between labor and democracy [Just Immigration in the Americas](#) Allison B. Wolf, 2020-09-22 This book proposes a pioneering interdisciplinary feminist approach to immigration justice which defines immigration justice as being about identifying and resisting global oppression in immigration structures policies practices and norms In contrast to most philosophical work on immigration which begins with abstract ideas and philosophical debates and then makes claims based on them this book begins with concrete cases and immigration policies from throughout the United States Mexico Central America and Colombia to assess the nature of immigration injustice and set us up to address it Every chapter of the book begins with specific immigration policies practices or sets of immigrant experiences in the U S and Latin America and then explores them through the lens of global oppression to better identify what makes it unjust and to put us in a better position to respond to that injustice and improve immigrants lives It is one of

the first sustained studies of immigration justice that focuses on Central and South America in addition to the U S and Mexico **Ethical Borders** Bill Ong Hing,2010-04-16 In his topical new book Ethical Borders Bill Ong Hing asks why do undocumented immigrants from Mexico continue to enter the United States and what would discourage this surreptitious traffic An expert on immigration law and policy Hing examines the relationship between NAFTA globalization and undocumented migration and he considers the policy options for controlling immigration He develops an ethical rationale for opening up the U S Mexican border as well as improving conditions in Mexico so that its citizens would have little incentive to migrate In Ethical Borders Hing insists that reforming NAFTA is vital to ameliorating much of the poverty that drives undocumented immigration and he points to the European Union s immigration and economic development policies as a model for North America Hing considers the world wide economic crisis and the social problems that attend labor migration into homogenous countries arguing for a spectrum of changes including stricter border enforcement and more effective barriers a path to citizenship for undocumented migrants or a guest worker program Hing also situates NAFTA and its effects in the larger and rapidly shifting context of globalization particularly the recent rise of China as the world s economic giant Showing how NAFTA s unforeseen consequences have been detrimental to Mexico Hing passionately argues that the United States is ethically bound to address the problems in a way that puts prosperity within the grasp of all North Americans

US Immigration Reform and Its Global Impact E. Camayd-Freixas,2013-08-20 An insider s account of the Postville case this book gauges the raid s human social and economic impact based on interaction with the main participants and interviews with local citizens and arrestees in the US and Guatemala **Immigration** Lila Perl,2010 Helps readers use critical thinking to create informed opinions on where they stand on the issue of immigration **ICE Worksite Enforcement** United States. The Undocumented Everyday Rebecca M. Schreiber,2018-03-13 Examining how undocumented migrants are using film

video and other documentary media to challenge surveillance detention and deportation As debates over immigration increasingly become flashpoints of political contention in the United States a variety of advocacy groups social service organizations filmmakers and artists have provided undocumented migrants with the tools and training to document their experiences In *The Undocumented Everyday* Rebecca M Schreiber examines the significance of self representation by undocumented Mexican and Central American migrants arguing that by centering their own subjectivity and presence through their use of documentary media these migrants are effectively challenging intensified regimes of state surveillance and liberal strategies that emphasize visibility as a form of empowerment and inclusion Schreiber explores documentation as both an aesthetic practice based on the visual conventions of social realism and a state administered means of identification and control As Schreiber shows by visualizing new ways of belonging not necessarily defined by citizenship these migrants are remaking documentary media combining formal visual strategies with those of amateur photography and performative elements to create a mixed genre aesthetic In doing so they make political claims and create new forms of protection for migrant communities experiencing increased surveillance detention and deportation **Aftermath** Dan

known manufacturer of machinery for the paper industry Despite the best efforts of highly skilled and productive workers to save their plant it was abruptly closed and they were abandoned after their CEO recklessly became involved in a shaky foreign investment Juravich argues that workers face a series of paradoxes in the contemporary American workplace They can no longer assume that large established firms create good jobs The new working conditions often resemble what was traditionally associated with marginal and low wage employers He concludes that we must bring a discussion about the quality of jobs back into the public discourse and that a good jobs strategy is a fundamental building block to economic recovery Workers voices are front and center in this highly readable book It includes striking photographs by Paul Shoul and a CD that presents a series of audio documentaries with excerpts from the interviews as well as four original songs written and performed by Juravich
