Contemporary Themes in Humanities Higher Education E.A. Chambers, 2013-03-14 This book is about the teaching and study of the humanities in our universities It addresses humanities educators whose job it is to teach undergraduate students researchers into the processes of teaching and learning involved and higher education policy makers The book aims to stimulate discussion among them of the proper purposes processes and outcomes of this form of education And in the process it aims to help define and develop the new field of Arts and Humanities Higher Education AHHE In the humanities as in other academic domains of higher education a public discourse of teaching and of students learning is presently underdeveloped This may seem surprising given the long history of the university as an institution and the huge resources devoted to higher education in many countries but there are of course reasons for it First until very recently there has been no profession of teacher education focused on the academy Simply academics have needed neither training nor qualification as teachers of their subject so that no one has been required to make teacher education their business or teaching learning in 2 higher education their special field of interest As regards schooling the The label Arts and Humanities Higher Education reflects the fact that the humanities subjects Classics Cultural Studies History Art History European Studies Languages Literature Philosophy Religious Studies etc are usually taught in the Faculty of Arts in UK universities The book does not include discussion of the fine or performing arts except incidentally

The Complete Jewish Guide to France Toni Kamins, 2001-09-22 The Complete Jewish Guide to France is the only resource you need to embark on a trip through Jewish France. Travel writer and journalist Toni L. Kamins catalogs information on well-known sights and little-known treasures such as the Marais district, Paris's celebrated Jewish neighborhood, ancient ghettos, beautiful old synagogues around the country, and many other places. She includes information on transportation and lodging, plus hundreds of places to buy kosher food. Selected photographs and maps fill out the picture. Kamins also recounts the nearly two thousand years of French Jewish history, beginning with evidence that Jews may have lived in France as early as the first century and continuing right up to the present day. The Complete Jewish Guide to France has everything you need to know to make your trip to France a success and to put it into a historical context that will make it even more worthwhile.

Ransom, Revenge, and Heroic Identity in the Iliad Donna F. Wilson, 2002-05-27 From beginning to end of the Iliad, Agamemnon and Achilles are locked in a high-stakes struggle for dominance based on their efforts to impose competing definitions of loss incurred and the nature of compensation thereby owed. This typology of scenes involving apoina or ransom and poine or revenge is the basis of Donna Wilson's detailed anthropology of compensation in Homer, which she locates in the wider context of agonistic exchange. Wilson argues that a struggle over definitions is a central feature of elite competition for status in the zero-sum and fluid ranking system characteristic of Homeric society. This system can be used to explain why Achilles refuses Agamemnon's compensation in Book 9, as well as why and how the embassy tries to mask it. **Ransom, Revenge, and Heroic Identity in the Iliad** thus examines the traditional semantic, cultural, and poetic matrix of which compensation is an integral part.
