The Illuminating Icon:

The Illuminating Icon Anthony Ugolnik, 1989 This is a print on demand book and is therefore non returnable In Christ there is no East or West claims a familiar hymn But the truth is that American Christians know little about Russian Orthodox Christians and harbor many misconceptions about them In this revealing book Anthony Ugolnik shows how the thousand year old Russian Orthodox tradition actively shapes the life of contemporary Russian Christians and he points out how Russian Orthodoxy can inform and enrich American Christianity Ugolnik speaks from a unique perspective of Russian descent he is an American Christian who has a strong and genuine personal bond with Russian Christians Ugolnik begins his discussion by exploring the alienation between Russians and Americans a cultural and religious alienation that is still very strong today despite changing rhetoric and glasnost Americans tend to picture Russian Christians as cowed and ragged masses on the contrary says Ugolnik they are a stalwart strong community American Christians also tend to be suspicious about the role of icons in Russian Orthodox worship But Ugolnik points out that icons are not idols rather they are religious objects that image forth the majesty of God This powerful sense of the holy that pervades Russian Orthodoxy could reinvigorate American Christianity Indeed the Russian Orthodox have much to offer American Christians according to Ugolnik They place a much greater emphasis on community in their life and worship an emphasis that could help transform the individualistic faith of many American Christians Similarly the Orthodox emphasis on historical and spiritual continuity in contrast to the imagery of restoration and revival in Reformation Christianity could strengthen the worship and witness of American Christians And the Orthodox sense of the beautiful born of a complex aesthetics that undergirds Russian faith and culture could enrich the foundation as well as the expression of American Christianity In the end American and Russian Christians share the common dilemma of how to relate to the secular world around them and the Russian Orthodox emphasis on dialogue and engagement could vitalize the way American Christians live out their faith In this multifaceted book Ugolnik weaves personal experiences with richly developed explorations of Russian and American belief and incisive observations that draw on the literature philosophy theology and history of both cultures With both passion and compassion Ugolnik urges Russian and American Christians to look to the illuminating icon of our incarnate God for guidance Let that icon draw us deep into the mystery of a shared life in the Spirit

The Icon and the Square Maria Taroutina, 2018-11-26 In The Icon and the Square Maria Taroutina examines how the traditional interests of institutions such as the crown the church and the Imperial Academy of Arts temporarily aligned with the radical leftist and revolutionary avant garde at the turn of the twentieth century through a shared interest in the Byzantine past offering a counternarrative to prevailing notions of Russian modernism Focusing on the works of four different artists Mikhail Vrubel Vasily Kandinsky Kazimir Malevich and Vladimir Tatlin Taroutina shows how engagement with medieval pictorial traditions drove each artist to transform his own practice pushing beyond the established boundaries of his respective artistic and intellectual milieu She also contextualizes and complements her study of

the work of these artists with an examination of the activities of a number of important cultural associations and institutions over the course of several decades As a result The Icon and the Square gives a more complete picture of Russian modernism one that attends to the dialogue between generations of artists curators collectors critics and theorists The Icon and the Square retrieves a neglected but vital history that was deliberately suppressed by the atheist Soviet regime and subsequently ignored in favor of the secular formalism of mainstream modernist criticism Taroutina's timely study which coincides with the centennial reassessments of Russian and Soviet modernism is sure to invigorate conversation among scholars of art history modernism and Russian culture

Holocaust Icons Oren Baruch Stier, 2015-11-01 The Holocaust has bequeathed to contemporary society a cultural lexicon of intensely powerful symbols a vocabulary of remembrance that we draw on to comprehend the otherwise incomprehensible horror of the Shoah Engagingly written and illustrated with more than forty black and white images Holocaust Icons probes the history and memory of four of these symbolic relics left in the Holocaust's wake Jewish studies scholar Oren Stier offers in this volume new insight into symbols and the symbol making process as he traces the lives and afterlives of certain remnants of the Holocaust and their ongoing impact Stier focuses in

particular on four icons the railway cars that carried Jews to their deaths symbolizing the mechanics of murder the Arbeit Macht Frei work makes you free sign over the entrance to Auschwitz pointing to the insidious logic of the camp system the number six million that represents an approximation of the number of Jews killed as well as mass murder more generally and the persona of Anne Frank associated with victimization Stier shows how and why these icons an object a phrase a number and a person have come to stand in for the Holocaust where they came from and how they have been used and reproduced how they are presently at risk from a variety of threats such as commodification and what the future holds for the memory of the Shoah In illuminating these icons of the Holocaust Stier offers valuable new perspective on one of the defining events of the twentieth century He helps readers understand not only the Holocaust but also the profound nature of historical memory itself

Trinitarian Personhood Bill Ury, 2002-02-01 The concept of the person is a crucial yet elusive component in the development of Western thought Few concepts are as replete with definitional difficulty Equally important is the application of a proper definition to all major Christian doctrinal commonplaces This work recognizing the insufficiency of modern theology to offer a cogent concept of person proposes a thorough historical and theological evaluation of Trinitarian personhood presented in three critical paradigm shifts by which one can measure the development of the idea of true personhood presented The three watershed eras of discernment of divine personhood presented are seen here as first the Cappadocian position of the mutual indwelling perichoresis of the divine persons is contrasted with Augustine's view of the place of relations in defining divine persons Second the ideas of Richard of St Victor whose caritas consummata and its relational implications met the nemesis of the Thomistic category of subsistent relations And last as an example of this important discussion in modernity the German Heribert Mhlen's dynamic phenomenological approach to Trinitarian personhood is offered as a means of countering the implicit modalisms of Barth and Rahner If the personhood of God is in essence Being in Another then Christianity must apply that ontology to all sectors of reality to be fully Christian

Practices, Politics, and Performance Michael G. Cartwright, 2006-06-01 Drawing on the hermeneutical reflections of John Howard Yoder Stanley Hauerwas and Mikhail Bakhtin Cartwright challenges the way twentieth century American Protestants have engaged the problem of the use of scripture in Christian ethics and issues a summons for a new debate oriented by a communal approach to hermeneutics By analyzing particular ecclesial practices that stand within living traditions of Christianity the politics of scriptural interpretation can be identified along with the criteria for what a good performance of scripture should be This approach to

the use of scripture in Christian ethics is displayed in historical discussions of two Christian practices through which scripture is read ecclesiologically the Eastern Orthodox liturgical celebration of the Eucharist and the Anabaptist practice of binding and loosing or the rule of Christ When American Protestants consider performances of scripture such as these alongside one another within more ecumenical contexts they begin to confront the ecclesiological problem with their attempts to use the Bible in Christian ethics the relative absence of constitutive ecclesial practices in American Protestant congregations that can provide moral orientation for their interpretations of Christian scripture

For Our Salvation Geoffrey Wainwright, 1997 Central to Christianity is the work of Christ as savior of the world In this book Geoffrey Wainwright presents the classical confession of Christ's incarnation and atoning work in ways that allow the gospel message to engage with contemporary culture Amid social tendencies both to disown our physical nature and to be absorbed in it Wainwright first argues that a comprehensively biblical doctrine of the Word made flesh will help to school our bodily senses as befits earthly creatures with a spiritual destiny The incarnation shows God reaching us through sound sight taste touch and scent and inviting us to a rounded response of intellect affections and action In the second half of the book the traditional description of Christ's saving work in terms of his prophetic priestly and royal offices is brought to bear on current concerns with knowledge and meaning with power and authority and with the pain of alienation and the possibility of redemption Widely known and highly regarded in both the church and the academy Wainwright here draws on his familiarity with doctrinal and liturgical history and his decades of experience in the ecumenical movement to offer two complementary accounts of Christ's saving work that will appeal to all who are committed to the cause of evangelical and catholic Christianity

Worship and the Reality of God John Jefferson Davis, 2010-10-07 Professor John Jefferson Davis shows what's really needed for the renewal of worship in our evangelical churches Moving far beyond the worship wars Davis provides profound theological analysis and fresh recommendations to help us recognize obstacles to worship and learn to rightly respond to the glory and gracious real presence of God among us in our worship

Dostoevsky's Incarnational Realism Paul J. Contino, 2020-08-17 In this book Paul Contino offers a theological study of Dostoevsky's final novel The Brothers Karamazov He argues that incarnational realism animates the vision of the novel and the decisions and actions of its hero Alyosha Fyodorovich Karamazov The book takes a close look at Alyosha's mentor the Elder Zosima and the way his role as a confessor and his vision of responsibility to all for all develops and influences Alyosha The remainder of the study which serves as a kind of reader's guide to the novel follows Alyosha as he takes up the mantle of his elder develops as a monk in the world and at the end of three days ascends in his vision of Cana The study attends also to Alyosha's brothers and his ministry to them Mitya's struggle to become a new man and Ivan's anguished groping toward responsibility Finally Contino traces Alyosha's generative role with the young people he encounters and his final message of hope

Beyond Salvation Edmund J. Rybarczyk, 2006-10-01 Despite their historical and cultural differences Eastern Orthodox Christians and Classical

Pentecostals share some surprising similarities Both incorporate holistic approaches to Christian spirituality Both manifest an organic approach to ecclesiology Both emphasize that Christianity is not just about being saved Most strikingly both traditions embrace the effective and even mystical dimensions of Christian transformation This study locates both traditions within their cultural and philosophical meta contexts and suggests avenues of mutual understanding No longer can these two groups representing ancient and recent Christian expressions afford to be strangers

Eastern Orthodox Christianity

Daniel B. Clendenin, 2003-10-01 In this reliable and engaging survey Daniel Clendenin introduces Protestants to Eastern Orthodox history and theology with the hope that the two groups will come to see their traditions as complementary and learn to approach one another with a hermeneutic of love that fosters mutual respect toleration and even support This revised edition includes a new preface a new chapter and an updated bibliography In addition to updated demographic information Clendenin examines at length a particular aspect of Orthodoxy's intersection with Protestantism its growing exchange with evangelicalism

The Cambridge Companion to Jesus Markus Bockmuehl, 2001-11-08

This Companion takes as its starting point the realization that Jesus of Nazareth cannot be studied purely as a subject of ancient history a man like any other man History literature theology and the dynamic of a living worldwide religious reality all appropriately impinge on the study of Jesus The two parts of the book roughly correspond to the interdependent tasks of historical description and critical and theological reflection It incorporates the most up to date historical work on Jesus the Jew with the bigger issues of critical method the story of Christian faith and study and Jesus in a global church and in the encounter with Judaism and Islam Written by seventeen leading international scholars the book encourages students of the historical Jesus to discover the vital contribution of theology and students of doctrine to engage the Christ of faith as Jesus the first century Jew
