The Image of Progress Melton Alonza McLaurin, Michael Thomason, 1980 The photographs in this volume graphically record the creation of a new post Reconstruction society They portray an urban work force composed of both blacks and whites working Alabama's sawmills mining coal laboring in the infant iron and steel industry and constructing new rail and water transportation systems The Image of Progress is a portrait of daily life in the late nineteenth and early twentieth centuries Bourbon Democracy in Alabama, 1874-1890 Allen Johnston Going, 1951 Chapter Twelve The State and Social Welfare Chapter Thirteen Conclusion Appendix Bibliography Index *Eugene Allen Smith's Alabama* Aileen Kilgore Henderson, 2011-01-01 In 1871 when the University of Alabama reopened after its destruction by Federal troops Eugene Allen Smith returned to his alma mater as professor of geology and mineralogy Until his death in 1927 this gifted man devoted his abundant energy and his stout heart to the welfare of the school and the state After persuading the legislature to appoint him state geologist in 1873 he spent his summers enduring chills fevers and verbal abuse as he searched for industrial raw materials that could bring about better lives for destitute Alabamians Traveling in a mule drawn wagon he recorded detailed observations botanical and geological discoveries and mineral analyses in his journal He loaded the wagon with specimens for the university museum he dreamed of creating some day He inventoried industries that had failed or been destroyed judging whether they were worth salvaging Interspersed with this information were pithy comments on people he met frustrations he dealt with historical notes and poetic descriptions of rocks and creeks and mountains giving a vivid picture of Alabama in transition What he accomplished against monumental odds became the catalyst that transformed Alabama from an aimless and poverty stricken agricultural state to an industrial giant to be reckoned with How he accomplished what he did with very little support and hardly any money gave this diminutive and very human man a stature of mythic proportions in the history of the university and the state The story of Little Doc as told in Eugene Allen Smith's Alabama is drawn from many sources Smith's transcribed field notes countless numbers of letters he received and the carbon copies of his replies his published reports over a period of fifty years wills genealogical records histories of the state The Companion to Southern Literature Joseph M.
