The Imagination Of Reference li Perceiving Indicating Naming:

Constructs of "home" in Gloria Naylor's Quartet Claudia Drieling, 2011 *Semioethics as Existential Dialogue* Susan Petrilli, Susan Mancino, 2024-10-28 This collection brings together perspectives on the interplay of communication dialogue and responsibility exploring communicative acts of disruption toward a social environment attuned to short sighted individualism Semioethics highlights the condition of inevitable entanglement with the other at the origin of sociality which demands a response to the other based on listening and accountability The volume introduces readers to the theoretical foundations of semioethics an emergent direction within sign and language studies which relies upon a commitment to otherness unindifference and dialogue Building on the dialogic approaches of Mikhail Bakhtin and Emmanuel Levinas chapters grouped into five sections are all guided by the notion of responsibility toward the other outside do ut des logic and greedy exchange This collection highlights the ways in which semioethics considers the ethical implications of the signs that mediate dialogue among persons in the social sphere public and private sacred and profane It presupposes the notion that signs are only meaningful in their relation to other signs and the intersubjectivity among persons in dialogue Chapters also variously examine how the interplay of semioethics and dialogue underpins public life and the existential gifts that sustain a healthy polis This book will be of interest to scholars in semiotics dialogue research communication ethics and philosophy of communication

Dialogic Ethics Ronald C. Arnett, François Cooren, 2018-06-14 Dialogic Ethics offers an impressionistic picture of the diversity of perspectives on this topic Daily we witness local regional national and international disputes each propelled by contention over what is and should be the good propelling communicative direction and action Communication ethics understood as an answer to problems often creates them If we understand communication ethics as a good protected and promoted by a given set of communicators we can understand how acts of colonialism and totalitarianism could move forward legitimized by the assumption that I am right This volume eschews such a presupposition recognizing that we live in a time of narrative and virtue contention We dwell in an era where the one answer is more often dangerous than correct
