The Hidden History of Crime, Corruption, and States Renate Bridenthal, 2017-06 Renowned historical sociologist Charles Tilly wrote many years ago that banditry piracy gangland rivalry policing and war making all belong on the same continuum This volume pursues the idea by revealing how lawbreakers and lawmakers have related to one another on the shadowy terrains of power over wide stretches of time and space Illicit activities and forces have been more important in state building and state maintenance than conventional histories have acknowledged Covering vast chronological and global terrain this book traces the contested and often overlapping boundaries between these practices in such very different polities as the pre modern city states of Europe the modern nation states of France and Japan the imperial power of Britain in India and North America Africa's and Southeast Asia's postcolonial states and the emerging postmodern regional entity of the Mediterranean Sea Indeed the

contemporary explosion of transnational crime raises the question of whether or not the relationship of illicit to licit practices may be mutating once more leading to new political forms beyond the nation state Chinese Business in the Making of a Malay State, 1882-1941 Wu Xiao An, 2003-12-08 An examination of how Chinese family and business networks have been closely interlocked with economic and social structures around which government and states developed **The**

administrative files court transcripts and oral interviews to periodicals and material culture Professor Lees explores the nature and development of colonial governance and the ways in which Malayan residents experienced British rule in towns and plantations This is an innovative study demonstrating how empire brought with it both oppression and economic opportunity shedding new light on the shifting nature of colonial subjecthood and identity as well as the memory and afterlife of empire

*Secret Societies in Singapore* Irene Lim,1999 **Penang Chinese Commerce in the 19th Century** Wong Yee Tuan,2016-04-29 The story of Penang would be incomplete without the Big Five Hokkien families the Khoo the Cheah the Yeoh the Lim and the Tan It was the Big Five who played a preponderant role not only in transforming Penang into a regional entrepot and a business and financial base but also in reconfiguring maritime trading patterns and the business orientation of the region in the nineteenth century Departing from the colonial vantage point this book examines a web of transnational hybrid and fluid networks of the Big Five comprising of family relationship sworn brotherhood political alliance and business partnerships which linked Penang and its surrounding states western Malay states southwestern Siam southern Burma and the north and eastern coasts of Sumatra together to form one economically unified geographical region having inextricable links to China and India With these intertwining networks the Big Five succeeded in establishing their dominance in all the major enterprises trade shipping cash crop planting tin mining opium revenue farms which constituted

the linchpin of Penang's and its region's economy. By disentangling and dissecting this intricate web of networks, this book reveals the rise and decline of the Hokkien mercantile families' nearly century-long economic ascendancy in Penang and its region. e Wong Yee Tuan's study of the five clans of Penang represents a major breakthrough in the study of the Malayan Chinese. He documents an extremely important aspect of the nineteenth-century Asian diaspora, exposing the intricate links between families, businesses, secret societies, revenue farms, and public life of some of the key groups of Chinese in Penang and northern Malaya. The book weaves together the various strands of overseas Chinese life, not only in Malaya but also in the Netherlands, India, Siam, and China. Most importantly, it shows the process by which the Chinese leaders gained political, economic, and social power, as well as the way by which these powers were lost. e Carl A. Trocki, Emeritus Professor, Asian Studies, Queensland University of Technology, Australia. This volume can be situated within a growing historiographical current whereby regional studies of connections, networks, and interactions are gradually transcending national histories. Incorporating commercial, ethnic, and social elements, the history presented can be concurrently seen as a business case study, a sociological exploration, a political economy treatise, and an inquiry into Hokkien networking. Wong Yee Tuan is to be congratulated on this signal study in how local, national, and broader regional histories can be integrated. e Geoffrey Wade, ANU College of Asia and the Pacific, Australian National University. By aligning family, socio-political, and business interests, the leading Penang Hokkien clans centralized their home port as a hub of regional commercial networks, thus successfully extending the trading colonies of Chinese diaspora westward to the edge of the Indian Ocean. Wong has fastidiously researched and compellingly proven this with a clear eye for relevant cross-cultural collaborations with indigenous and international actors. The important legacy of the Big Five clanhouses is now firmly embedded in the George Town World Heritage Site, inciting further inquiry into the cultural formation of collective entrepreneurship in Southeast Asia. e Khoo Salma Nasution, Heritage Advocate and Local Historian, Penang. *Singapore* Carl A. Trocki, 2006-03-23. This volume examines Singapore's culture of control, exploring the city-state's colonial heritage as well as the forces that have helped to mould its current social landscape. Taking a comparative approach, Trocki demonstrates the links between Singapore's colonial past and independent present, focusing on the development of indigenous social and political movements. In particular, the book examines the efforts of Lee Yew Kuan, leader of the People's Action Party from 1959 until 1990, to produce major economic and social transformation. Trocki discusses how Singapore became a workers' paradise but what the city gained in material advancement it paid for in intellectual and cultural sterility. Based on the latest research, Singapore addresses the question of control in one of the most prosperous and dynamic economies in the world, providing a compelling history of post-colonial Singapore.
