Field Hospital Catechesis Nick Wagner,2018-01-30 If as Pope Francis says the church is a field hospital then what does it mean to care for the wounded and heal the wounds What would we do first Indeed God sends all of us especially catechists and teachers to heal the world And the first thing we have to do is this proclaim that Jesus Christ saves us This first proclamation heals the wounds of unbelievers seekers and believers alike Field Hospital Catechesis The Core Content for RCIA Formation explores the nine core teachings of the church that make up this first proclamation Readers will become catechists and evangelists equipped to bring healing to those around them by learning how to shift from making name only Catholics to making Catholic disciples

the first thing we have to say to seekers a thoroughly Catholic understanding of evangelization how what we teach and the way we teach heals the suffering of the world and the wounds of the seekers Pope Francis's solution to what he sees as an urgent crisis in the world the true vocation of a catechist and how to live it out why only nine core teachings of the church should be the consistent focus of our catechesis how the nine core teachings of the church tell the great story of our salvation This book will radically change the way you think about RCIA formation and the task of evangelization The Bible and the Anointing of the Sick (A Catholic Biblical Theology of the Sacraments) Michael Patrick Barber, 2025-07-22 The Catholic Biblical Theology of the Sacraments series provides readers with a deeper appreciation of God's gifts and call in the sacraments through a renewed encounter with God's Word In this addition to the series Michael Barber offers a biblical approach to anointing of the sick drawing from both the Old and New Testaments This book unpacks the riches of the Scriptures to explain what true healing in Christ involves In addition Barber demonstrates how an exegetical approach to the sacrament can advance our understanding of it Topics include the biblical significance of oil the relationship of physical healing and spiritual healing including the forgiveness of sins sin and death Christ as the New Adam the continuation of Jesus's ministry in the church the power of sacral anointing Christ's fulfillment of messianic hopes and participation in Christ's royal priestly and prophetic mission The book is suitable for classroom use and parish ministry Series editors Timothy C Gray and John Sehorn teach at the Augustine Institute Graduate School of Theology and Gray is also president of the Augustine Institute Representing Infirmary John Henderson, Fredrika Jacobs, Jonathan K. Nelson, 2020-11-17 This volume is the first in depth analysis of how infirm bodies were represented in Italy from c 1400 to 1650 Through original contributions and methodologies it addresses the fundamental yet undiscussed relationship between images and representations in medical religious and literary texts Looking beyond the modern category of disease and viewing infirmity in Galenic humoral terms each chapter explores which infirmities were depicted in visual culture in what context why and when By exploring the works of artists such as Caravaggio Leonardo and Michelangelo this study considers the idealized body altered by diseases including leprosy plague goitre and cancer In doing so the relationship between medical treatment and the depiction of infirmities through miracle cures is also revealed The broad chronological approach demonstrates how and why such representations change both over time and across different forms of media Collectively the chapters explain how the development of knowledge of the workings and structure of the body was reflected in changed ideas and representations of the metaphorical allegorical and symbolic meanings of infirmity and disease The interdisciplinary approach makes this study the perfect resource for both students and specialists of the history of art medicine and religion and social and intellectual history across Renaissance Europe Reflections on the Epistles of st. Publisher: Reflections on the Meaning of Mental Integrity Marcia A. Murphy, 2021-12-07. How is mental integrity, the state of being complete whole, achieved in light of serious mental illness? The author's intent is that this work will be a source of insight and healing for many and that it will equip the church, conjoined with the medical/scientific field of psychiatry, to do a better job of enabling people living with mental illness to access the resources they need for becoming whole. The author shares some of her personal story of experience with serious mental illness, i.e. its genesis and her subsequent recovery process, which included involvement in a Christian community and her ministry work as an advocate for the mentally ill. *The Christian Science Journal*, 1927.

The Cambridge Companion to Christian Doctrine Colin E. Gunton, 1997-06-19. What is Christian doctrine? The fourteen specially commissioned essays in this book serve to give an answer to many aspects of that question. Written by leading theologians from America and Britain, the essays place doctrine in its setting, what it has been historically, and how it relates to other forms of culture, and outline central features of its content. They attempt to answer questions such as: what has and does Christian doctrine teach about God, the creation, the human condition, and human behaviour, and what is the part played in Christian doctrine by the Trinity, Jesus Christ, and the Holy Spirit? New readers will find this an accessible and stimulating introduction to the main themes of Christian doctrine, while advanced students will find a useful summary of recent developments which demonstrates the variety, coherence, and intellectual vitality of contemporary Christian thought.

The Option for the Poor in Christian Theology Daniel G. Groody, 2007-04-01. Since the publication of Gustavo Gutierrez's 1973 groundbreaking work *A Theology of Liberation*, much has been written on liberation theology and its central premise of the preferential option for the poor. Arguably, this has been one of the most important yet controversial theological themes of the twentieth century. As globalization creates greater gaps between the rich and the poor, and as the situation for many of the world's poor worsens,

there is an ever greater need to understand the gift and challenge of Christian faith from the context of the poor and marginalized of our society This volume draws on the thought of leading international scholars and explores how the Christian tradition can help us understand the theological foundations for the option for the poor The central focus of the book revolves around the question How can one live a Christian life in a world of destitution The contributors are concerned not only with a social economic or political understanding of poverty but above all with the option for the poor as a theological concept While these essays are rooted in a solid grounding of our present reality they look to the past to understand some of the central truths of Christian faith and to the future as a source of Christian hope Following Gustavo Guti rrez s essay on the multidimensionality of poverty Elsa Tamez Hugh Page Jr Brian Daley and Jon Sobrino identify a central theological premise poverty is contrary to the will of God Drawing on scripture the writings of the early fathers the witness of Christian martyrs and contemporary theological reflection they argue that poverty represents the greatest challenge to Christian faith and discipleship David Tracy and J Matthew Ashley carry their reflection forward by examining the option for the poor in light of apocalyptic thought Virgilio Elizondo Patrick Kalilombe Mar a Pilar Aquino M Shawn Copeland and Mary Catherine Hilkert examine the challenges of poverty with respect to culture Africa race and gender Casiano Florist n and Luis Maldonado explore the relationship between poverty sacramentality and popular religiosity The final two essays by Aloysius Pieris and Michael Signer consider the option for the poor in relationship to other major world religions particularly an Asian theology of religions and the meaning of care for the poor within Judaism

Thorns in the Flesh Andrew Crislip, 2012-09-06 The literature of late ancient Christianity is rich both in saints who lead lives of almost Edenic health and in saints who court and endure horrifying diseases In such narratives health and illness might signify the sanctity of the ascetic or invite consideration of a broader theology of illness In *Thorns in the Flesh* Andrew Crislip draws on a wide range of texts from the fourth through sixth centuries that reflect persistent and contentious attempts to make sense of the illness of the ostensibly holy These sources include Lives of Antony Paul Pachomius and others theological treatises by Basil of Caesarea and Evagrius of Pontus and collections of correspondence from the period such as the Letters of Barsanuphius and John Through close readings of these texts Crislip shows how late ancient Christians complicated and critiqued hagiographical commonplaces and radically reinterpreted illness as a valuable mode for spiritual and ascetic practice Illness need not point to sin or failure he demonstrates but might serve in itself as a potent form of spiritual practice that surpasses even the most strenuous of ascetic labors and opens up the sufferer to a more direct knowledge of the self and the divine Crislip provides a fresh and nuanced look at the contentious and dynamic theology of illness that emerged in and around the ascetic and monastic cultures of the later Roman world
