Large Print Janet Dailey, 1986 **The Curse of the Indy 500** Stan Sutton, 2021-12-22 A rich history built around the 1958 tragedy that claimed one of the Indy 500 s most beloved drivers evokes a unique and unforgettable era Dan Carpenter freelance writer former Indianapolis Star columnist On May 30 1958 thousands of racing fans poured into the infield at dawn to claim the best seats of the Indianapolis 500 unaware that they were going to witness one of the most notorious wrecks in racing history Seconds after the green flag a game of chicken spiraled out of control into a fiery 16 car pile up that claimed the life of 29 year old Indiana native and rising star Pat O Connor The other drivers escaped death but the tragic 1958 Indy 500 seemed to leave its mark on them the surviving drivers were hounded by accidents and terrible crashes and most would die at tracks around the country But the tragedy also prompted new regulations and safety precautions like roll bars that would ultimately save hundreds of lives In *The Curse of Indy 500* 1958 s Tragic Legacy veteran sportswriter Stan Sutton profiles the ill fated race and the careers of the drivers involved highlighting their lives in the dangerous world of auto racing In all the book offers an exciting story of the 1958 Indy 500 and a thought provoking discussion of its aftermath Daily Journal A meticulous contextual account of events leading into what possibly triggered the starting tension what follows in the wake of the fiery first lap death of Pat O Conner and what other Indy 500 tragedies have failed to get the notice generated on and following May 30 1958 NUVO **Indy 500** Ron Dorson, 2005-01-04 This book is not so much about racing as it is about race people These are the people who do the racing or run the races or go to races or hang around racing or make money from racing They are generally lively people sharp edged with it This is a book about the Indianapolis style of auto racing and the story is told from the participant s point of view **Festivals and**

the City Andrew Smith, Guy Osborn, Bernadette Quinn, 2022-08-23 This book explores how festivals and events affect urban places and public spaces with a particular focus on their role in fostering inclusion The festivalisation of culture politics and space in cities is often regarded as problematic but this book examines the positive and negative ways that festivals affect cities by examining festive spaces as contested spaces The book focuses on Western European cities a particularly interesting context given the social and cultural pressures associated with high levels of immigration and concerns over the commercialisation and privatisation of public spaces The key themes of this book are the quest for more inclusive urban spaces and the contested geographies of festival spaces and places Festivals are often used by municipal authorities to break down symbolic barriers that restrict who uses public spaces and what those spaces are used for However the rise of commercial festivals and ticketed events means that they are also responsible for imposing physical and financial obstacles that reduce the accessibility of city parks streets and squares Alongside addressing the contested effects of urban festivals on the character and inclusivity of public spaces the book addresses more general themes including the role of festivals in culture led regeneration Several chapters analyse festivals and events as economic development tools and the book also covers contested representations of festival cities and the ways related images and stories are used in place marketing A range of cases from Western Europe are used to explore these issues including chapters on some of the world's most significant and contested festival cities Venice Edinburgh London and Barcelona The book covers a wide range of festivals including those dedicated to music and the arts but also events celebrating particular histories identities and pastimes A series of fascinating cases are discussed from the Venice Biennale and Dublin Festival of History to Rotterdam's music festivals and craft beer festivals in Manchester The diverse and innovative qualities of the book are also evident in the range of urban spaces covered obvious examples of public spaces such as parks streets squares and piazzas are addressed but the book includes chapters on enclosed public spaces e.g. libraries and urban blue spaces waterways too This reflects the interpretation of public spaces as socio-material entities they are produced informally through their use including for festivals and events as well as through their formal design and management
