The Seduction of Brazil Antonio Pedro Tota,2010-05-20 Following completion of the U S air base in Natal Brazil in 1942 U S airmen departing for North Africa during World War II communicated with Brazilian mechanics with a thumbs up before starting their engines This sign soon replaced the Brazilian tradition of touching the earlobe to indicate agreement friendship and all that was positive and good yet another indication of the Americanization of Brazil under way during this period In this translation of O Imperialismo Sedutor Antonio Pedro Tota considers both the Good Neighbor Policy and broader cultural influences to argue against simplistic theories of U S cultural imperialism and exploitation He shows that Brazilians actively interpreted negotiated and reconfigured U S culture in a process of cultural recombination The market he argues was far more important in determining the nature of this cultural exchange than state directed propaganda efforts because Brazil already was primed to adopt and disseminate American culture within the framework of its own rapidly expanding market for mass culture By examining the motives and strategies behind rising U S influence and its relationship to a simultaneous process of cultural and political centralization in Brazil Tota shows that these processes were not contradictory but rather mutually reinforcing The Seduction of Brazil brings greater sophistication to both Brazilian and American understanding of the forces at play during this period and should appeal to historians as well as

The Opinions of Mankind Richard Lentz, Karla K. Gower, 2011-02-14 During the Cold War the Soviets were quick to publicize any incident of racial hostility in the United States Since violence by white Americans against minorities was the perfect foil to America's claim to be defenders of freedom news of these occurrences was exploited to full advantage by the Russians But how did the Soviets gain primary knowledge of race riots in small American towns Certainly the Soviets had reporters stationed stateside in big cities like New York but research reveals that the majority of their information came directly from U S media sources Throughout this period the American press provided the foreign media with information about racially charged events in the United States Such news coverage sometimes put Washington at a disadvantage making it difficult for government officials to assuage foreign reactions to the injustices occurring on U S soil Yet in other instances the domestic press helped to promote favorable opinions abroad by articulating themes of racial progress While still acknowledging racial abuses these press spokesmen asserted that the situation in America was improving Such paradoxical messages both aiding and thwarting the efforts of the U S government are the subject of *The Opinions of Mankind* *Racial Issues Press and Propaganda in the Cold War* The study by scholars Richard Lentz and Karla K Gower describes and analyzes the news discourse regarding U S racial issues from 1946 to 1965 *The Opinions of Mankind* not only delves into the dissemination of race related news to foreign outlets but also explores the impact foreign perceptions of domestic racism had on the U S government and its handling of foreign relations during the period What emerges is an original insightful contribution to Cold War studies While other books examine race and foreign affairs during this period of American history *The Opinions of Mankind* is the first to approach the subject from the standpoint of press coverage and its impact on world public opinion This exhaustively researched and compellingly written volume will appeal to media scholars political historians and general readers alike By taking a unique approach to the study of this period *The Opinions of Mankind* presents the workings behind the battles for public opinion that took place between 1946 and 1965

Ideology and Libraries Michael K. Buckland, 2020-11-13 In 1950 Robert L Gitler went to Japan to found the first college level school of library science in that country His mission an improbable success was documented in an assisted autobiography as Robert Gitler and the Japan Library School Scarecrow Press 1999 Subsequent research into initiatives to improve library services during the Allied occupation has revealed surprising discoveries and human interest of the lives of very diverse individuals A central role was played by a librarian Philip Keeney who later became well known as an alleged communist spy A national plan designed for Japan s libraries was based directly on the county library system developed by progressive thinkers in California itself a dramatic story The School of Librarianship at the University of California and its founding director Sydney Mitchell was found to have deeply influenced key figures The story also requires an appreciation of the deployment of American libraries abroad as tools of foreign policy as cultural diplomacy Meanwhile library services in Japan were seriously underdeveloped despite Japan s extraordinarily high literacy rate very well developed publishing and book retail industries and librarians who were far from backward The difference in library development lay in the huge divergence between the ethos of the American public library dominated by support for individual self development and Western liberal democracy and the evolving political ideology of Japanese governments after the Meiji Restoration 1868 After absorbing authoritarian French and German administrative practices Japan became a militarist dictatorship from the 1920s onwards until surrender in 1945 The literature on the Allied Occupation of Japan is vast but library services have received very little attention beyond the creation of the National Diet Library in 1948 The story of initiatives to improve library services in occupied Japan the role of libraries as cultural diplomacy the dramatic development of free public library services in California have remained unknown or little known until now
