Schejter,2009-02-16 In And Communications for All 16 leading communications policy scholars present a comprehensive telecommunications policy agenda for the new federal administration This agenda emphasizes the potential of information technologies to improve democratic discourse social responsibility and the quality of life along with the means by which it can be made available to all Americans Schejter has assembled an analysis of the reasons for the failure of the Telecommunications Act of 1996 and offers an international benchmark for the future of telecommunications Addressing a range of topics including network neutrality rural connectivity media ownership minority ownership spectrum policy universal broadband policy and media for children it articulates a comprehensive vision for the United States as a twenty first century information society that is both internally inclusive and globally competitive Global Civil Society Mary Kaldor,2013-05-28 The terms global and civil society have both become part of the contemporary political lexicon In this important new book Mary Kaldor argues that this is no coincidence and that the reinvention of civil society has to be understood in the context of globalization The concept of civil society is no longer confined to the borders of the territorial state Whether one considers dissidents in repressive regimes landless labourers in Central America campaigners against

land mines or global debt or even religious fundamentalists it is now possible for them to link up with other like minded groups in different parts of the world and to address demands not just to national governments but to global institutions as well This has opened up new opportunities for human emancipation and in particular for going beyond war as a way of managing global affairs But it also entails new risks and insecurities This is a book about a political idea an idea that came out of the 1989 revolutions It is an idea that expresses a real phenomenon even if the boundaries and shape of the phenomenon are contested and subject to constant redefinition The study of past debates as well as the actions and arguments of the present is a way of directly influencing the phenomenon and of contributing to a changing reality if possible for the better The task is all the more urgent in the aftermath of September 11 Global Civil Society will be read by students of politics international relations and sociology as well as activists policy makers journalists and all those engaged in global public debates **Communication Economics and Development** Meheroo Jussawalla,D.M.
