## **The Inner Sea The Mediterranean Its People:**

*The Inner Sea* Robert Fox, 1993-09-01 Known to the early cartographers as the Inner Sea the Mediterranean is emerging anew today its tastes and styles now almost universal But even as its influence in the form of everything from politics to cookery art design and organized crime continues to grow throughout the rest of the world the sea and its people are now witnessing the most dramatic changes in their history Who are the new Mediterraneans How do they see themselves and their future and how will their world change ours Robert Fox explores these questions in a journey to every country bordering the Inner Sea and the great islands scattered across its waters In the past five years he has seen the mountains of Morocco the deserts of Syria the sylvan wasteland of Albania the monasteries of Athos the slums of Naples Gaza in riot Beirut in civil war Cairo in celebration He presents each people and country from France to Libya from Greece to Malta from Italy to Israel and everyone along the way as they see themselves and he shares the lives and thoughts of poets and politicians popes and peasants bishops brigands and barons In Fox s animated and perceptive chronicles we discover a world in fermentation stirred by irresistible forces of change the growth of populations in the south owing to overwhelming waves of migration from North Africa the ever mounting pressures on a perilously fragile ecosystem the revival of ancient religions in more fanatical form Perhaps most alarming are the political changes The Mediterranean has always been a varied human mosaic in which ties of tribe and custom have been more meaningful than national boundaries But as Fox persuasively shows the new order now emerging after the end of the Cold War calls into question the very survival of the traditional nation state most notably in Yugoslavia where long suppressed ethnic rivalries have been unleashed leading to full blown war and in Italy where regional differences and the ever more powerful grip of organized crime threaten the dissolution of that nation As the promise and menace of this fascinating world increasingly capture our attention Robert Fox s lively and probing book will prove an indispensable guide

*The Inner Sea* Robert Fox, 1993 Recounting a five year journey that encompassed every country and island of the Inner Sea from the mountains of Morocco to the monasteries of Mt Athos the bloodstained streets of Beirut the slums of Naples and beyond Fox offers an astonishingly vivid human mosaic that answers the questions Who are the new Mediterraneans and what is the future of their world

Kaplan, 2023-04-25 An elegantly layered exploration of Europe's past and future a multifaceted masterpiece The Wall Street Journal A lovely personal journey around the Adriatic in which Robert Kaplan revisits places and peoples he first encountered decades ago Peter Frankopan author of The Silk Roads ONE OF THE BEST BOOKS OF THE YEAR The New Yorker In this insightful travelogue Robert D Kaplan geopolitical expert and bestselling author of Balkan Ghosts and The Revenge of Geography turns his perceptive eye to a region that for centuries has been a meeting point of cultures trade and ideas He undertakes a journey around the Adriatic Sea through Italy Slovenia Croatia Montenegro Albania and Greece to reveal that far more is happening in the region than most news stories let on Often overlooked the Adriatic is in fact at the center of the most significant challenges of our time including the rise of populist politics the refugee crisis and battles over the control of energy resources And it is once again becoming a global trading hub that will determine Europe's relationship with the rest of the world as China and Russia compete for dominance in its ports Kaplan explores how the region has changed over his three decades of observing it as a journalist He finds that to understand both the historical and contemporary Adriatic is to gain a window on the future of Europe as a whole and he unearths a stark truth The era of populism is an epiphenomenon a symptom of the age of nationalism coming to an end Instead the continent is returning to alignments of the early modern era as distinctions between East and West meet and break down within the Adriatic countries and ultimately throughout Europe With a brilliant cross pollination of history literature art architecture and current events in Adriatic Kaplan demonstrates that this unique region that exists at the intersection of civilizations holds revelatory truths for the future of global affairs

Europe Norman Davies, 1996 From the Ice Age to the Cold War and beyond from Reykjavik to Riga from Archimedes to Einstein Alexander to Yeltsin here between the covers of a single volume Norman Davies tells the story of Europe East and West from prehistory to the present day The book's absorbing narrative lays down the chronological and geographical grid on which the dramas of European history have been played out It zooms in from the distant focus of Chapter One which explores the first five million years of the continent's evolution to the close focus of the last two chapters which cover the twentieth century at roughly one page per year In between Norman Davies presents a huge and sweeping canvas packed with fascinating detail analysis and anecdote Alongside Europe's better known stories human national and continental he

brings into focus areas often ignored or misunderstood remembering the stateless nation as well as the nation state. Minority communities from heretics and lepers to Jews Romanies and Muslims have not been forgotten. This masterly history reveals not only the rich variety of Europe's past but also the many and rewarding prisms through which it can be viewed. Each chapter contains a selection of telephoto capsules illustrating narrower themes and topics that cut across the chronological flow. Davies then concludes with a wide angle snapshot of the whole continent as seen from one particular vantage point. The overall effect is stunning a kind of historical picture album with panoramic tableaux interspersed by detailed insets and close ups. Never before has such an ambitious history of Europe been attempted. In range and ambition the originality of its structure and glittering style Norman Davies's Europe represents one of the most important and illuminating history books to be published by Oxford.

**Time Capsules** 201 fascinating articles interspersed throughout the narrative focus on incidents or topics as various as The Iceman of the Alps Erotic Graffiti at Pompeii Stradivarius and Psychoanalysing Hitler. Each capsule can be tasted as a separate self contained morsel or can be read in conjunction with the narrative into which it is inserted.

**Snapshots** 12 panoramic overviews across the changing map of Europe freeze the frames of the chronological narrative at moments of symbolic importance such as Knossos 1628 BC Constantinople AD 330 and Nuremberg 1945. A fully illustrated history incorporates over 100 superbly detailed maps and diagrams and 32 pages of black and white plates.
