Reeves,2022-09-16 From the beginning God created men and women in his own image as the objects of his love His intention has been to father mankind raising us as his children While the intimacy of this relationship was broken through the fall our Father has never stopped loving us His faithful lovingkindness is unchanged And through Jesus we not only see the intimate relationship of Father and Son as the divine pattern but we find ourselves restored as children in his household Through Jesus we can

experientially live in relationship with our Father and through the working of the Holy Spirit within affectionately call him our Abba The greatest opportunity is now afforded to us to walk in loving intimacy with our Father as he raises us teaches us his ways and matures within us his divine nature of other centered love Our Father Our Teacher is a biblical exploration of how God is drawing men and women to himself in an experiential relationship of love and learning *Strong Hearts and Healing Hands* Clifford E. Trafzer,2021-04-06 In 1924 the United States began a bold program in public health The Indian Service of the United States hired its first nurses to work among Indians living on reservations This corps of white women were dedicated to improving Indian health In 1928 the first field nurses arrived in the Mission Indian Agency of Southern California These nurses visited homes and schools providing public health and sanitation information regarding disease causation and prevention Over time field nurses and Native people formed a positive working relationship that resulted in the decline of mortality from infectious diseases Many Native Americans accepted and used Western medicine to fight pathogens while also continuing Indigenous medicine ways Nurses helped control tuberculosis measles influenza pneumonia and a host of gastrointestinal sicknesses In partnership with the community nurses quarantined people with contagious diseases tested for infections and tracked patients and contacts Indians turned to nurses and learned about disease prevention With strong hearts Indians eagerly participated in the tuberculosis campaign of 1939 40 to x ray tribal members living on twenty nine reservations Through their cooperative efforts Indians and health care providers decreased deaths cases and misery among the tribes of Southern California Resources in education ,1983-07 **War and Peace with the Beasts** Brian Griffith,2020-09-01 The animals that one culture likes are often hated in the next and it seems that the animals themselves know it well Basically one culture s animal partner is often another culture s nightmare from hell Naturally I wonder how relations between people and animals got to be so different around the world How did it happen that some cultures treat bats snakes wolves or ravens as embodiments of evil while other people treat the same animals with affection or even reverence Our wars with the animals go way back Beyond the light cast by our prehistoric campfires the eyes glowing in the night seemed to represent a great hostile force As we began to cultivate crops and husband a few favoured animals we generally regarded other creatures as threats to our chosen few Using the logic of war we sought to maximize the populations of certain creatures and the destruction of others In the past that war effort was our great crusade for the advancement of civilization as we knew it The war had a frontier a front line and an ongoing battle on the home front Expanding outward from our various cradles of civilization we progressively tamed the forests and grasslands converting them to monocrop plantations or pastures Then we had to defend our monocrops from encroaching weeds insects and wild animals In this immediately engaging story and fact filled page turner of a book Brian Griffith looks at the range of ways we relate to animals and the stories we tell about them He asks how we choose whether buddyhood fearful respect businesslike predation or genocidal war is the most appropriate response to each species we meet He watches how our treatment of inferior beings

affects our treatment of inferior people and traces some of the chain reactions we unleash when we try to weed out species we don't like Without much hope of making animals fit my personal preferences he writes I wonder how good our relations can get
