Beastly London Hannah Velten,2013-08-15 Horse drawn cabs rattling down muddy roads cattle herded through the streets to the Smithfield meat market for slaughter roosters crowing at the break of dawn London was once filled with a cacophony of animal noises and smells But over the last thirty years the city seems to have banished animals from its streets In *Beastly London* Hannah Velten uses a wide range of primary sources to explore the complex and changing relationship between Londoners of all classes and their animal neighbors Velten travels back in history to describe a time when Londoners shared their homes with pets and livestock along with a variety of other pests vermin and bedbugs Londoners imported beasts from all corners of the globe for display in their homes zoos and parks and ponies flying in hot air balloons and dancing fleas were considered entertainment As she shows London transformed from a city with a mainly exploitative relationship with animals to the birthplace of animal welfare societies and animal rights campaigns Packed with over one hundred illustrations *Beastly London* is a revealing look at how animals have been central to the city s success **Madness in the Making** David Lindsay,2005-05 A fascinating history of the unexpected intersection of science technology and show business John Steele Gordon author of *Hamilton s Blessing* Once upon a time American know how flourished through show how spectacular demonstrations by ever resourceful technological entrepreneurs David Lindsay brings back these glorious and sometimes infamous theatricals in a delightful witty narrative with a serious point the American inventor now relegated

to endless rehearsals needs to resume a rightful place on the national center stage For admirers and critics of technology and for veteran and inspiring inventors *Madness in the Making* will give pleasure and inspire debate Edward Tenner Author of *Why Things Bite Back* **The Annual American Catalog, 1909** ,1910 *Circus Bodies* Peta Tait,2005-11-16 This pioneering study is one of the major publications in the increasingly popular and largely undocumented area of circus studies Through photographs and illustrations Peta Tait presents an extraordinary survey of 140 years of trapeze acts and the socially changing ideas of muscular action in relation to our understanding of gender and sexuality She questions how spectators see and enjoy aerial actions and what cultural identities are presented by bodies in fast physical aerial movement Adeptly locating aerial performance within the wider cultural history of bodies and their identities *Circus Bodies* explores this subject through a range of films such as *Trapeze* 1956 and *Wings of Desire* 1987 and Tait also examines live performances including the first trapeze performers L otard and the Hanlon Brothers female celebrities Azella Sanyeah black French aerialist LaLa the infamous Leona Dare and the female human cannonballs twentieth century gender benders Barbette and Luisita Leers the Codonas Concellos Gaonas Vazquez and Pages troupes imaginative aerial acts in *Cirque de Soleil* and *Circus Oz* productions This book will prove an invaluable resource for all students and scholars interested in this fascinating field The Amusements in the Thirties and Forties Amy Elizabeth Davies,1925 **Burnt Cork** Stephen Burge Johnson,2012 Beginning in the 1830s and continuing for more than a century blackface minstrelsy stage performances that claimed to represent the culture of black Americans remained arguably the most popular entertainment in North America A renewed scholarly interest in this contentious form of entertainment has produced studies treating a range of issues its contradictory depictions of class race and gender its role in the development of racial stereotyping and its legacy in humor dance and music and in live performance film and television The style and substance of minstrelsy persist in popular music tap and hip hop dance the language of the standup comic and everyday rituals of contemporary culture The blackface makeup all but disappeared for a time though its influence never diminished and recently even the makeup has been making a comeback This collection of original essays brings together a group of prominent scholars of blackface performance to reflect on this complex and troublesome tradition Essays consider the early relationship of the blackface performer with American politics and the antislavery movement the relationship of minstrels to the commonplace compromises of the touring show business and to the mechanization of the industrial revolution the exploration and exploitation of blackface in the mass media by D W Griffith and Spike Lee in early sound animation and in reality television and the recent reappropriation of the form at home and abroad In addition to the editor contributors include Dale Cockrell Catherine Cole Louis Chude Sokei W T Lhamon Alice Maurice Nicholas Sammond and Linda Williams Library Books Los Angeles Public Library,1918
