The Book of Changes: A Modern Adaptation and Interpretation Paul G. Fendos, 2018-04-10 The Book of Changes A Modern Adaptation and Interpretation attempts to breathe new life into the Book of Changes by making it relevant to the present time and day It does so by using archaeological evidence to trace the origins of the Book of Changes starting with numeric trigrams and hexagrams making its way up to early divination manuals and ending with the oldest extant version of the Books of Changes usually referred to as the received version It also explains the development of the Book of Changes from a divination manual into a philosophical text dealing with change However its main focus is on delineating sixty four patterns of change in the Book of Changes patterns based on novel metaphorical interpretations of the line texts in the Book of Changes that serve as the foundation for a new handbook on change Each metaphorical interpretation consists of 1 a hexagram and the Chinese

character associated with it 2 a description of the hexagram 3 the Chinese characters for the line texts 4 translations of the line texts 5 a general interpretation of the line texts based on those translations 6 and some explanatory notes that attempt to clarify each interpretation Translations and the interpretations based on those translations reference Traditional and Modernist understandings of the line text materials ancient texts dictionaries lexicons from the period when the Book of Changes was compiled and the ideas of the author as he works to create a new Chinese philosophy of change complete with examples of how it can be adapted in modern day life The clear and concise general introduction to the Book of Changes that is incorporated into this work the many interpretations of the line texts contained in it and a popular philosophical content make this book a welcome addition to the field and will attract interested scholars and teachers engage business people or those looking to better understand Chinese culture and appeal to those focused on spirituality and holistic living

Historical Dictionary of Daoism Ronnie L. Littlejohn, 2019-11-29 Daoism is the oldest indigenous philosophic spiritual tradition of China and one of the most ancient of the world's spiritual structures The name Daoism comes from the term dao which means a way or a road through the field or woods to one's village It is also means the way to do something such as how a master craftsman carves wood makes a bell or even butchers an ox But dao is also a nominative in the history of Daoism referring to the energizing process that permeates and animates all of reality and moves it along However both text and practice in this tradition insist that dao itself cannot be described in words it is not God in the sense of Western philosophy or religion Daoism has no supreme being even if there is an extensive grammar about nominally self-conscious entities and powers for which the Chinese use the word spirit shen For example the highest powers of Daoism are variously called Taishang Laojun the deified Laozi the Celestial Worthy of Primordial Beginning Yuanshi tianzun the Jade Emperor Yuhuang Shangdi or the Perfected Warrior Zhenwu But these are expressions of dao in specific shen they are not identical to Dao except in the most unique case when Laozi the putative founder of Daoism and author of its major work Daodejing is said to be one with the dao Historical Dictionary of Daoism contains a chronology an introduction
