a whole anything approaching a complete or comprehensive list of our Colonial Coins and Tokens And so it has come to pass whilst every other branch of Numismatic lore has been written upon over and over again this large and important section of the coins of our own Empire has been almost entirely neglected About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
