The Collected Poems Of George F Butterick:

The Collected Poems of George F. Butterick George F Butterick,1988-09-01 **Collected Prose** Charles Olson,1997-12-19 The prose writings of Charles Olson 1910 1970 have had a far reaching and continuing impact on post World War II American poetics Olson s theories which made explicit the principles of his own poetics and those of the Black Mountain poets were instrumental in defining the sense of the postmodern in poetry and form the basis of most postwar free verse The Collected Prose brings together in one volume the works published for the most part between 1946 and 1969 many of which are now out of print A valuable companion to editions of Olson s poetry the book backgrounds the poetics preoccupations and fascinations that underpin his great poems Included are Call Me Ishmael a classic of American literary criticism the influential essays Projective Verse and Human Universe and essays book reviews and Olson s notes on his studies In these pieces one can trace the development of his new science of man called muthologos a radical mix of myth and phenomenology that Olson offered in opposition to the mechanistic discourse and rationalizing policy he associated with America s recent wars in Europe and Asia Editors Donald Allen and Benjamin Friedlander offer helpful annotations throughout and poet Robert Creeley who enjoyed a long and mutually influential relationship with Olson provides the book s introduction **Handbook of American Poetry** Sabine Sielke,2025-01-27 This handbook offers scholars an overview of the state of research and students a sense of how American poetry from its first forms evolving in the 17th century settler colonies to its current digital modes has addressed issues and experiences central to human consciousness and to political life over five centuries of cultural practice At the same time it aims to show how poetry philosophy and theory have always been involved in productive dialogues **Ghostlier Demarcations** Michael Davidson,2023-11-10 Why do modern poets quote from dictionaries in their poems How has the tape recorder changed the poet s voice What has shopping to do with Gertrude Stein s aesthetics These and other questions form the core of Ghostlier Demarcations a study of modern poetry as a material medium One of today s most respected critics of twentieth century poetry and poetics Michael Davidson argues that literary materiality has been dominated by an ideology of modernism based on the ideal of the autonomous work of art which has hindered our ability to read poetry as a socially critical medium By focusing on writing as a palimpsest involving numerous layers of materiality from the holograph manuscript to the printed book Davidson exposes modern poetry s engagement with larger historical forces The palimpsest that results is less a poem than an arrested stage of writing in whose layers can be discerned ghostly traces of other texts This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1997 Reading the Modernist Long Poem Brendan C. Gillott,2020-12-10 How do readers approach the enigmatic and unnavigable modernist

long poem Taking as the form s exemplars the highly influential but critically contentious poetries of John Cage and Charles Olson this book considers indeterminacy the fundamental feature of the long poem by way of its analogues in musicology mycology cybernetics and philosophy It addresses features of these works that figure broadly in the long poem tradition such as listing typography archives mediation and mereology while articulating how both poets broke with the longform poetic traditions of the early 1900s Brendan C Gillott argues for Cage s and Olson s centrality to these traditions in developing critiquing and innovating on the longform poetics of the past their work revolutionized the longform poetry of the 20th and 21st centuries

Selected Letters Charles Olson,2001-02-21 For Charles Olson letters were not only a daily means of communication with friends but were at the same time a vehicle for exploratory thought In fact many of Olson s finest works including Projective Verse and the Maximus Poems were formulated as letters Olson s letters are important to an understanding of his definition of the postmodern and through the play of mind exhibited here we recognize him as one of the vital thinkers of the twentieth century In this volume edited and annotated by Ralph Maud we see Olson at the height of his powers and also at his most human Nearly 200 letters selected from a known 3 000 demonstrate the wide range of Olson s interests and the depth of his concern for the future Maud includes letters to friends and loved ones job and grant applications letters of recommendation and Black Mountain College business letters as well as correspondence illuminating Olson s poetics As we read through the letters which span the years from 1931 when Olson was an undergraduate to his death in 1970 a fascinating portrait of this complex poet and thinker emerges

The Science Fiction of Poetics and the Avant-Garde Imagination Michael Golston,2023-11-19 How the tropes of science fiction infuse and inform avant garde poetics and many other kindred arts This insightful playful monograph from Golston does exactly what it advertises modeling poetics based on how poetry and some parallel artistic endeavors has filtered through a century plus of science fiction This is not a book about science fiction in and of itself but it is a book about the resonances of science fiction tropes and ideas in poetic language The germ of Golston s project is a throwaway line in Robert Smithson s Entropy and the New Monuments about how cinema supplanted nature as inspiration for many of his fellow artists The movies give a ritual pattern to the lives of many artists and this induces a kind of low budget mysticism which keeps them in a perpetual trance Golston charts how the demotic appeal of sci fi much like that of the B movie cross pollinated into poetry and other branches of the avant garde Golston creates what he calls a regular Rube Goldberg machine of a critical apparatus drawing on Walter Benjamin Roman Jakobson and Gilles Deleuze He starts by acknowledging that per the important work of Darko Suvin to situate science fiction critically the genre is premised on cognitive estrangement But he is not interested in the specific nuts and bolts of science fiction as it exists but rather how science fiction has created a model not only for other poets but also for musicians and landscape artists Golston s critical lens moves around quite a bit but he begins with familiar enough subjects Edgar Rice Burroughs Mina Loy William S Burroughs From there he moves into more alien terrain Ed Dorn s long poem Gunslinger the

discombobulated work of Clark Coolidge Sun Ra Ornette Coleman and Jimi Hendrix all come under consideration The result of Golston's restless rich scholarship is the first substantial monograph on science fiction and avant garde poetics using Russian Formalism Frankfurt School dialectics and Deleuzian theory to show how the avant garde inherently follows the parameters of sci fi in both theme and form Selected Poems of Robert Creeley, 1945-2005 Robert Creeley, 2008 Here is Creeley at his skillfully selected best full of the melodies of plain speech concise yet resonant with emotion Juliana Spahr author of *This Connection of Everyone with Lungs* So fantastically simple and so satisfyingly complicated these poems band together like the days in *One Day* One day after another perfect They all fit John Ashbery Beautifully edited by Ben Friedlander with tenderness intelligence and care A superb selection well introduced *Selected Poems* provides a great sense of the range of Creeley's accomplishment these poems among the most important of our time a way of writing with the hesitations and grace of a new found line thinking informed by sources from Emily Dickinson to Charlie Parker *Selected Poems* is at once a tribute to Creeley a perfect introduction for new readers and a valuable distillation for those who have already acquired a taste for Creeley's poetry The perfect assembly to and for one so fond of saying onward We can now go onward with these selected poems onward with these well chosen words with thanks to Robert Creeley and to Ben Friedlander Hank Lazer author of *The New Spirit* Benjamin Friedlander himself a fine poet critic and a great connoisseur of Creeley's poetry has put together a superb selection Marjorie Perloff An excellent selection and introduction It is an edition that acknowledges work that has defined the poet's career while offering a new narrative for the entire oeuvre It will join UC Press's distinguished and definitive editions of postwar poetry and will provide us all with a summary guide to Creeley's best work Michael Davidson In a quiet moment I hear Bob pause where I never would have expected it Such resolve Such heart And an ear to reckon with No truly further American poem without his Clark Coolidge author of *Counting on Planet Zero*

Frank O'Hara and the Poetics of Saying 'I' Micah Mattix, 2011-03-03 While recent works of criticism on Frank O'Hara have focused on the technical similarities between his poetry and painting or between his use of language and poststructuralism Frank O'Hara and the Poetics of Saying I argues that what is most significant in O'Hara's work is not such much his borrowing from painters or his proto Derridean use of language but his preoccupation with self exploration and the temporal effects of his work as artifacts Following Pasternak's understanding of artistic inspiration as an act of love for the material world O'Hara explores moments of experience in an effort to both complicate and enrich our experience of the material world On the one hand in poems such as *Second Avenue* for example O'Hara works to muddy language through which experience is in part mediated with the use of parataxis allusions and absurd metaphors and similes On the other in his *I do this I do that* poems he names the events of his lunch hour in an effort among other things to experience time as a moment of fullness rather than as a moment of loss The book argues furthermore that O'Hara's view of the self as both an expression of the creative force at work in the world and as the temporal aggregate of finite experiences places him between

so called Romantic and postmodern theories of the lyric While it is often argued that O Hara is a forerunner of a new critically informed materialist poetics this study concludes that O Hara s work is somewhat less radical in its understanding of poetic meaning than is often claimed Moreover while O Hara is preoccupied with his experience in his poems the book argues that he espouses in some respects a rather traditional view of love In addition to being a metaphor for the creative act love for O Hara is the chance coming together of two entities Yet one of the ironies of this is that while love is for O Hara a feeling that is the result of movement or the unexpected coming together of two otherwise separ

Expressivity in Modern Poetry Donald Wellman,2019-02-26 Expressivity in Modern Poetry explores three interrelated subjects The first is a general exposition of the radical or deeply realistic aspects of the poetry and visual arts of the modern period The focus is on the works of Ezra Pound as understood through a prism of postmodern thought The second subject is the poetry and poetics of Charles Olson a pivotal figure during the transition from modernism to postmodernism The third subject is contemporary innovative poetry with special attention to transcultural neobarroco and language centered aspects of composition The grounding for this section is found in the works of William Carlos Williams Aime Cesaire and Jose Lezama Lima A reversal of the relation between the center and periphery decentering the New York to Paris vector is crucial for understanding the Caribbean as a seedbed for both innovative and identity based poetics Wellman s purpose is to amplify the cultural importance of expressivity in a field where critical discussion is often dominated by constructivism and conceptualism Expressivity in Modern Poetry offers a new reading of the relation between twentieth century modernism and contemporary poetic practice

The Image

and Influence of America in German Poetry Since 1945 Gregory Divers, 2002 Examines the image of the US in German poetry and the reception and influence of American poetry in Germany since 1945 This book focuses on the image of the US in German poetry and the reception of American poetry in Germany since 1945 Gregory Divers examines poems by major figures in 20th century German literature Benn Brecht Bachmann Jandl and Grass among others and by other poets who shaped America's postwar image in Germany Divers traces America's postwar status in Germany from the prisoner of war poems of G nter Eich to the pop poetry of Rolf Dieter Brinkmann and Peter Handke Continuing he finds that although the 1960s protest poems of Erich Fried and others reflect the tarnishing of America's image due to Vietnam 1970s travel poems by Brinkmann Kunert and Kunze confirm the resiliency of that image Finally Divers looks at poems by Hartung Delius and Kling to illustrate the new heights reached by America's image within German literary circles during the 1980s and the status of America in Germany after reunification In charting these developments in postwar German poetry Divers also shows how American influences are crucial to its understanding not only surveying postwar German reception of Whitman Eliot Pound and William Carlos Williams but also examining the influence of such figures as Charles Olson and Robert Creeley Allen Ginsberg and the Beats Frank O Hara and John Ashbery and Robert Lowell and Sylvia Plath Gregory Divers is Assistant Professor of German at Saint Louis University

Rethinking Place through Literary Form Rupsa Banerjee,Nathaniel Cadle,2022-05-30 Rethinking Place Through Literary Form regards the relationship between place and linguistic form as challenging real and perceived configurations of place and renegotiating geopolitically determined categories of the centre

and periphery The volume argues that the rise of scattered communities displaced physically and psychologically by urban and alienated geographies necessitates linguistic negotiations of one's locatedness in place as the chief means of uncovering and re building identity By looking at narrative re imaginings of forgotten and interrupted intimacies between habitation and place from diverse parts of the world the twelve chapters address the growing need to expand and alter approaches to literary representations of modernity and modes of self location
