Thompson,2013-06-03 In the first major examination of the diverse European efforts to colonize the Delaware Valley Mark L Thompson offers a bold new interpretation of ethnic and national identities in colonial America For most of the seventeenth century the lower Delaware Valley remained a marginal area under no state s complete control English Dutch and Swedish colonizers all staked claims to the territory but none could exclude their rivals for long in part because Native Americans in the region encouraged the competition Officials and settlers alike struggled to determine which European nation would possess the territory and what liberties settlers would keep after their own colonies had surrendered The resulting struggle for power resonated on both sides of the Atlantic Ocean While the rivalry promoted patriots who trumpeted loyalties to their sovereigns and nations it also rewarded cosmopolitans who struck deals across imperial colonial and ethnic boundaries Just as often it produced men such as Henry Hudson Willem Usselincx Peter Minuit and William Penn who did both Ultimately The Contest for the Delaware Valley shows how colonists officials and Native Americans acted and reacted in inventive surprising ways Thompson demonstrates that even as colonial spokesmen debated claims and asserted fixed national identities their allegiances along with the settlers often shifted and changed Yet colonial competition imposed limits on this fluidity forcing officials and settlers to choose a side Offering their allegiances in return for security and freedom colonial subjects turned loyalty into liberty Their stories reveal what it meant to belong to a nation in the early modern Atlantic world The American Almanac and Repository of Useful Knowledge for the Year ... ,1833 Vol 1 has title The American almanac and repository of useful knowledge comprising a calendar for the year astronomical information miscellaneous directions hints and statistical and other particulars **The Long 2020** Subhas Ranjan Chakraborty,Paula Banerjee,Kaustubh Mani Sengupta,2024-03-11 This book looks at the current crises of life and livelihood following the global epidemiological crisis and various strategies to manage them as a long unfolding of past trends and future possibilities of epidemiological governance restructuring of global economy public health systems of

Diaspora in the Countryside Royden Loewen, 2006-12-15 From the 1930s to the 1980s the North American countryside faced a profound cultural transformation in which a once unified rural society became fragmented and dispersed Families wishing to remain on the farm were required to accept new levels of automation while others unwilling or unable to make the change migrated to nearby towns or regional cities The cultural reformulation that resulted saw the emergence of a genuine rural diaspora The growing cultural and physical separation was especially true for close knit ethno religious communities Mennonites in particular Forced into regional cities the kaleidoscopic urban culture further fragmented the Mennonites into disparate social entities In *Diaspora in the Countryside* the phenomena of rural fragmentation is examined by comparing and contrasting two closely related but distinctive Dutch Russian Mennonite communities located in different parts of the continent Kansas and Manitoba respectively By systematically comparing these communities two distinctive responses to the mid twentieth century Great Disjuncture are made apparent Royden Loewen also contrasts the cultural changes of these farm families to the cultures their kin adopted in nearby towns and cities Loewen charts not only the dispersion of two rural communities but follows their former residents as they reformulate their lives in new settings
