The Colossus Conspiracy Ron Delpit, 2002-06 Participatory Culture Wars Simone Driessen, Bethan Jones, Benjamin Litherland, 2025-06-03 From writing fan fiction to campaigning for better media representation fandom and participatory culture have long been seen as tools to resist dominant narratives and fight for a better future But participatory culture is not always socially and politically progressive rather as Participatory Culture Wars demonstrates it can be politically regressive and socially reactive Communities coalesce around the exclusionary and the misinformed Fans fandoms and fan practices are no longer the realm of media and popular culture they have been adopted and co-opted across the contemporary political terrain This volume offers specific examples and suggests approaches that can help make sense of the constantly shifting interaction between fandom and politics Contributors Alfred Archer Renee Barnes Simone Driessen Xing Fan Monica Flegel Zoe Hurley Bethan Jones Sklaerenn Le Gallo Judith Leggatt Georgina Mills Peng Qiao James Rendell Mel Stanfill Michelle Stewart Rebecca Williams Christina Wurst *Commission Statement on Assassination* United States. National Commission on the Causes and Prevention of Violence, 1969 **JFK and the End of America** Tim Fleming, 2018-01-29 JFK and the End of America is the culmination of Tim Fleming's 50 years of research into the Kennedy assassination The book makes the case that Lee Harvey Oswald did not kill the president Rather an elaborate plot concocted and executed by a sinister covert cabal took Kennedy's life The plotters who stood to gain the most from JFK's death Lyndon Johnson and Allen Dulles were abetted by powerful interests in government business and the military Kennedy was moving America toward a permanent peace state threatening the national security military establishment whose existence is dependent on a permanent war state Since 1963 we have been at war or under a threat of war spending nearly six of every ten tax dollars on defense It is vital to expose the truth of who killed Kennedy and why if we are to understand the real history of America since 1963 Fleming draws a straight line from Dallas to the political and cultural divide that afflicts us today The Life of Napoleon Bonaparte Louis Antoine Fauvelet de Bourrienne, 1831 , *Reconsidering Social Constructionism* Gale Miller, 2017-09-29 With the impact of social interactionist and ethnographic methodology twenty five years ago the research agenda in social problems began to shift its focus giving rise to the Social Constructionism movement The present volume and the related shorter text Constructionist Controversies review the substantial contributions made by social constructionist theorists over that period as well as recent debates about the future of the perspective These contributions redefine the purpose and central questions of social problems theory and articulate a research program for analyzing social problems as social constructions A generation of theorists has been trained in the constructionist perspective and has extended it through numerous analyses of diverse aspects of contemporary social life The debates in this volume pose fundamental questions about the major assumptions of the perspective the ways in which it is practiced and the purposes of social problems theory Their point of departure is Ibarra and Kitsuse's essay cutting new theoretical ground in calling for investigating vernacular resources

especially rhetorical forms in the social problems process Contributors are forceful proponents both within and outside of the social constructionist community who take a broad array of positions on the current state of social problems theory and on the rhetorical forms that need exploring They also lay down the general lines for diverse and often competing programs for the future development of the constructionist agenda

Abiding Influence Giuseppe Paparella,2025-11-04 How do nationalist beliefs shape and influence American foreign policy What are the contemporary implications of America's long standing engagement in the Asia Pacific This book unearths the varied processes underpinning the relationship between nationalism and the formulation of foreign policy highlighting the central function of leaders' nationalist beliefs in the history of America's international behavior By developing a novel theoretical framework and drawing on original archival research and methods of process tracing Paparella shows how presidents' nationalist beliefs can influence distinct foreign policy attitudes that have underpinned important foreign policy decisions and turning points in the Asia Pacific By putting nationalism back on center stage Paparella makes a strong case for looking at this history as a complex succession of interactions between states but also between leaders that are highly contingent and shaped by the nationalist views of the leading US decision makers over time This thoughtful study provides scholars and students with an interpretative key to understand the multifaceted role of the United States in the Asia Pacific as well as policy recommendations to overcome the security and the credibility challenges posed by the rise of China in the region today

His background as a former schoolmate of Napoleon and later as a trusted aide informs the authenticity and depth of his writing. This memoir emerged from Bourrienne's desire to document his experiences at a time of significant societal transformation in France, a project that required both a skillful pen and a brave heart to navigate the treacherous political landscape post-Napoleon's reign. Readers interested in the intersections of power, ambition, and personal relationships within the context of historic events will find Bourrienne's memoirs indispensable.
