*The Gift of Love* Vladimir Berzonsky, 1985 Love is a gift from God a sacred grace that invites us indeed challenges us to respond with whatever capability we have within us to love God one another and his creation With these words Fr Vladimir Berzonsky penetrates the sublime yet mysterious passages from the Song of Songs I Corinthians and other books of the Bible which speaks of love Much has been written in recent years about the difference between erotic love called agape which i both Christ like and Christian but it is the former type of love according to Berzonsky that conditions us for the latter The Gift of Love suggests that we learn to love in stages developing an ever greater power to become godlike in our affections increasing our capacity to care less fo self and becoming filled with concern for God and all he made The fifty seven reflections in this book are written and intended to read separately yet all

deal with the underlying theme of love as expressed in the Bible      *The Life Beyond the Veil* George Vale Owen,1921  
The Evangelical Herald ,1914      The English Bible as Literature Charles Allen Dinsmore,2015-07-24 The religious associations surrounding the Bible make it difficult for the general reader to appreciate in its full purity the value which the Scriptures bear as literature and as an epic in no way inferior in cultural worth to the greatest works of Greece and Rome Dealing as it does with elementary passions and principles the English Bible is in the author s view the greatest book of all the ages This book first published in 1931 will be of interest to students of literature and religious studies      *Woman's Home Missions of the Methodist Episcopal Church* ,1928      Light ,1897      **Sharpe's London magazine, a journal of entertainment and instruction. Hall** Anna Maria Hall,      *The University Record* University of Chicago,1902      *From Mud House to the House of God* Phillip Mathai,2005-06      *The Vital Message* Arthur Conan Doyle,2025-06-17 The Vital Message by Arthur Conan Doyle traverses the ethereal realms of thought and belief delving into profound questions about existence spirituality and the nature of consciousness In this intriguing work Doyle already renowned for his literary creations embarks on an exploration of spiritualism and the mysteries that lie beyond the physical world Written during a time when the New Thought movement gained popularity this book reflects the growing fascination with life after death and the quest for understanding our place in the universe From the outset Doyle presents an impassioned argument for the existence of a greater reality that extends beyond earthly bounds He shares from his personal experiences and mystical encounters making the case that humanity is more than mere corporeal beings but rather participants in a grand cosmic design As readers accompany Doyle on his intellectual journey they find themselves pondering the very essence of existence and the interconnectedness of all beings The narratives he weaves are filled with philosophical discussion inviting readers to reflect on their own beliefs regarding life death and the vast unknown that lies in between In a series of compelling chapters Doyle touches upon psychic phenomena and metaphysical concepts blending anecdotal evidence with rigorous inquiry Through personal anecdotes and testimonials from those who have also communicated with the spirit world he constructs a base for the argument that consciousness transcends the physical form In doing so he challenges the reader to acknowledge the possibility that mortality is not the end but rather a transition into another sphere of existence This theme resonates throughout the text as Doyle emphasizes the power of spiritual awakening and the profound implications of a life unbound by traditional understandings Notably Doyle navigates a landscape rife with existential questions skillfully addressing the fears and uncertainties many harbor about life beyond the grave With compassion and insight he explores the significance of self discovery in unlocking the potential that lies within each individual He encourages readers to seek knowledge to embrace their human experience and to recognize the beauty in connection be it with themselves others or something greater than themselves Doyle s reflections on consciousness and the journey of the soul ascend to an inspiring plane that emphasizes

hope and enlightenment He posits that the sharing of knowledge and experiences can catalyze profound growth and understanding nurturing a deeper appreciation for both the seen and unseen aspects of life Through the lens of theosophy and the teachings of spiritualism he concludes that exploring the interplay between the mind and body can reveal therapeutic wisdom and insights that can be applied to our daily lives The Vital Message not only contributes significantly to the broader discourse surrounding spirituality but also serves as a beacon of hope for those seeking answers and reassurance amid the chaos of modern existence Arthur Conan Doyle invites readers to engage with his thoughts with an open heart and soul ushering them into a realm where humanity and spirituality intertwine creating a tapestry that celebrates life death and everything that lies beyond
