## **The Hunters Are Coming:**

**Home Is the Hunter** Hans M. Carlson, 2009-05-01 The James Bay Cree lived in relative isolation until 1970 when Northern Quebec was swept up in the political and cultural changes of the Quiet Revolution. The ensuing years have brought immense change for the Cree who now live with the consequences of Quebec's massive development of hydroelectricity, timber and mineral resources in the North. *Home Is the Hunter* presents the historical environmental and cultural context from which this recent story grows. Hans Carlson shows how the Cree view their lands as their home, their garden, and their memory of themselves as a people. By investigating the Cree's relationship with the land and their three hundred years of contact with outsiders, the author illuminates the process of cultural negotiation at the foundation of ongoing political and environmental debates. This book is more than a story of dam building and industrial logging in northern Quebec. It offers a way of thinking about indigenous peoples' struggles for rights and environmental justice in Canada and elsewhere.

**Becoming Inummarik** Peter Collings, 2014-04-01 What does it mean to become a man in the Arctic today? *Becoming Inummarik* focuses on the lives of the first generation of men born and raised primarily in permanent settlements. Forced to balance the difficulties of schooling, jobs, and money that are a part of village life with the conflicting demands of older generations and subsistence hunting, these men struggle to chart their life course and become inummarik, genuine people. Peter Collings presents an accessible, intelligent, humorous, and sensitive account of Inuit men who are no longer youths but not yet elders. Based on over twenty years of research conducted in Ulukhaktok, Northwest Territories, *Becoming Inummarik* is a profound and nuanced look at contemporary Inuit life that shows not just what Inuit men do but who they are. Collings recounts experiences from his immersion in the daily lives of Ulukhaktok's men, from hunting and sharing meals to playing cards and grocery shopping, to demonstrate how seemingly mundane activities provide revelations about complex issues such as social relationships, status, and maturity. He also reflects on the ethics of immersive anthropological research, the difficulties of balancing professional and personal relationships with informants, and the nature of knowledge in Inuit culture. *Becoming Inummarik* shows that while Inuit born into a modern society see themselves as different from their parents' generation, their adherence to traditional ideas about life ensures that they remain fully Inuit, even as their community has witnessed drastic upheaval.

**Hendricks the Hunter: The Border Farm, a Tale of Zululand** William Henry Giles Kingston, 2020-09-28 Zululand is a wild region of mountain ranges, deep valleys, and gorges, roaring torrents, rapidly flowing rivers, plains covered with mimosa bushes, meadows where cattle pasture and grow fat, and level plateaux extending for many miles across it, several hundred feet above the level of the ocean, while scattered here and there, in some parts pretty thickly, are to be seen the kraals or villages and the mealy grounds of the natives. Wild as is the country, and although roads, properly speaking, there are none, it is sufficiently practicable for waggons in various directions. Some few years back, one of these vehicles, drawn by a span of twelve oxen, was seen slowly wending its way to the south-west in the direction of Natal. It was a

loosely yet strongly built machine on four wheels fourteen feet long and four wide formed of well seasoned stink wood the joints and bolts working all ways so that as occasionally happened as it slowly rumbled and bumped onward when the front wheel sank into a deep hole the others remained perfectly upright It was tilted over with thick canvas impervious to rain the goods or passengers inside being thus well sheltered from the hardest showers and even from the hot rays of the sun The oxen pulled steadily together as became animals long accustomed to work in company On a board in front stood a Hottentot driver his black visage surmounted by a broad brimmed straw hat ornamented by a few ostrich feathers twined round the crown while his hand held a whip of Brobdignagian proportions the stock being fully fourteen feet and the lash upwards of twenty four feet in length with which he occasionally urged on the leaders or drew blood from the animals beneath his feet as well as from those intermediate in the span whenever a rise in the ground or its unusual roughness required an additional exertion of their strength **Twenty-Five Years among the Indians and Buffalo** William D.
