Socialism and Education in Britain 1883-1902 Kevin Manton, 2013-05-13 Examines the British socialist movement in the last two decades of the 19th century through its policies on children s education The author reassesses the nature of these policies and comments on the validity of those historiographical models used in analyses of the socialism of this period

Flat Racing and British Society, 1790-1914 Mike Huggins, 2014-06-03 2001 North American Society for Sports History Book of the Year This volume studies the formative period of racing between 1790 and 1914 This was a time when despite the opposition of a respectable minority attendance at horse races betting on horses or reading about racing increasingly became central leisure activities of much of British society

Class, Politics, and the Decline of Deference in England, 1968-2000 Florence Sutcliffe-Braithwaite, 2018-03-01 In late twentieth century England inequality was rocketing yet some have suggested that the politics of class was declining in significance while others argue that class identities lost little power Neither interpretation is satisfactory class remained important to ordinary people s narratives about social change and their own identities throughout the period 1968 2000 but in changing ways Using self narratives drawn from a wide range of sources the raw materials of sociological studies transcripts from oral history projects Mass Observation and autobiography the book examines class identities and narratives of social change between 1968 and 2000 showing that by the end of the period class was often seen as an historical identity related to background and heritage and that many felt strict class boundaries had blurred quite profoundly since 1945 Class snobberies went underground as many people from all backgrounds began to assert that what was important was authenticity individuality and ordinariness In fact Sutcliffe

Braithwaite argues that it is more useful to understand the cultural changes of these years through the lens of the decline of deference which transformed people's attitudes towards class and towards politics. The study also examines the claim that Thatcher and New Labour wrote class out of politics, arguing that this simple and highly political narrative misses important points. Thatcher was driven by political ideology and necessity to try to dismiss the importance of class, while the New Labour project was good at listening to voters, particularly swing voters in marginal seats, and echoing back what they were increasingly saying about the blurring of class lines and the importance of ordinariness. But this did not add up to an abandonment of a majoritarian project as New Labour reoriented their political project to emphasize using the state to empower the individual.

The Longman Companion to Britain in the Era of the Two World Wars 1914-45 Andrew Thorpe, 2014-09-19. In the momentous period barely 30 years covered by this systematic reference guide, the Edwardian world was transformed unrecognisably through war, technological progress and social change into the Nuclear Age. It saw the coming of mass democracy, the apogee of empire, the Depression, the threat of fascism, the development of suburban society, and as yet scarcely understood, the end of Britain's international hegemony. Andrew Thorpe's superb contribution to the Companions series illuminates all this and much else. It will be indispensable to anyone interested in the history and politics of modern Britain.

Charity, Self-Interest And Welfare In Britain Martin Daunton, 2005-10-26. First published in 1996. These essays present a statement on the long-term development of welfare policy in Britain. Relating to current issues such as the cost of pensions, this work examines provisions for the poor, infirm and aged over four centuries of British history.

Radicalism and Revolution in Britain 1775-1848 M. Davis, 1999-12-07. The spectre of revolution and the nature of radicalism in Britain from the late eighteenth century through to the age of the Chartists has for some time engaged the interest of scholars and been the topic of much debate. This book honours one of the subject's most renowned and respected historians, Professor Malcolm I. Thomis. In a collection distinguished by its formidable range of contributors, a series of stimulating essays explores and re-examines the threats and ideas of revolution and the byzantine networks and character of British radical culture in the turbulent and intriguing years between 1775 and 1848.

The British Working Class 1832-1940 Andrew August, 2014-06-11. In this insightful new study, Andrew August examines the British working class in the period when Britain became a mature industrial power, working men and women dominated massive new urban populations, and the extension of suffrage brought them into the political nation for the first time. Framing his subject chronologically but treating it thematically, August gives a vivid account of working class life between the mid-nineteenth and mid-twentieth centuries, examining the issues and concerns central to working class identity. Identifying shared patterns of experience in the lives of workers, he avoids the limitations of both traditional historiography, dominated by economic determinism and party politics, and the revisionism which too readily dismisses the importance of class in British society.

A New England? G. R. Searle, 2005. G. R. Searle's narrative history breaks conventional chronological barriers to carry the reader from England in

A New England? G. R. Searle, 2005-07-29 G R Searle s absorbing narrative history breaks conventional chronological barriers to carry the reader from England in 1886 the apogee of the Victorian era with the nation poised to celebrate the empress queen s golden jubilee to 1918 as the war to end all wars drew to a close leaving England to come to term with its price above all in terms of human life but also in the general sense that things would never be the same again This was an age of extremes a period of imperial pomp and circumstance with a political elite preoccupied with display and ceremony alongside the growing cult of the simple life the zenith of imperialism with its idealization of war on the one hand the start of the Labour Party a socialist renaissance and welfare politics on the other and a radical challenging of traditional gender stereotypes in the face of the prevailing cult of masculinity Under Professor Searle s historical microscope all the details of daily life spring into sharp relief Half forgotten figures such as Edward Carpenter Vesta Tilley and Sir Henry Campbell Bannerman take their place on stage beside Oscar Wilde the Pankhursts and Lloyd George Motoring and aviation to become such an intrinsic part of life within the next decades had their beginnings in this period as pastimes for the rich From the wretched slums of England s great cities to their bustling docks and factories from the grand portals of Westminster to the violent political challenges of the Ulster Unionists and the militant suffrage movement from Blackpool s tower and beach packed with holidaymakers to the trenches of the Western Front the energy creativity and often destructive turmoil of the years 1886 1918 are brought into focus in this magisterial history

THE NEW OXFORD HISTORY OF ENGLAND The aim of the New Oxford History of England is to give an account of the development of the country over time It is hard to treat that development as just the history which unfolds within the precise boundaries of England and a mistake to suggest that this implies a neglect of the histories of the Scots Irish and Welsh Yet the institutional core of the story which runs from Anglo Saxon times to our own is the story of a state structure built round the English monarchy and its effective successor the Crown in Parliament While the emphasis of individual volumes in the series will vary the ultimate outcome is intended to be a set of standard and authoritative histories embodying the scholarship of a generation

Social Mobility in Nineteenth- and Early Twentieth-Century England A. Miles, 1999-04-12 This pioneering book provides the first systematic historical analysis of occupational and social mobility in England Using a collection of over 10 000 marriage certificates to examine inter generational change and almost 500 autobiographical texts and abstracts to explore the dynamics of career mobility it shows how the development of the nineteenth century economy was accompanied by rising rates of mobility which made English society more open while at the same encouraging a distinct process of working class formation

Invincible Green Suburbs, Brave New Towns Mark Clapson, 1998 Explores the phenomenon of the mass movement of people away from town and city centres to live in new estates and towns built since World War II Using sociology town planning materials oral history and other sources this book examines the making of

modern suburbia *The Littlehampton Libels* Christopher Hilliard, 2017 *The Littlehampton Libels* tells the story of a poison pen mystery that led to a miscarriage of justice in the years following the First World War There would be four criminal trials before the real culprit was finally punished with the case challenging the police and the prosecuting lawyers as much any capital crime When a leading Metropolitan Police detective was tasked with solving the case he questioned the residents of the seaside town of Littlehampton about their neighbours vocabularies how often they wrote letters what their handwriting was like whether they swore and how they swore for the letters at the heart of the case were often bizarre in their abuse The archive that the investigation produced shows in extraordinary detail how ordinary people could use the English language in inventive and surprising ways at a time when universal literacy was still a novelty Their personal lives too had surprises The detective's inquiries and the courtroom dramas laid bare their secrets and the intimate details of neighbourhood and family life Drawing on these records *The Littlehampton Libels* traces the tangles of devotion and resentment desire and manipulation in a working class community We are used to emotional complexity in books about the privileged but history is seldom able to recover the inner lives of ordinary people in this way **Culture, Philanthropy and the Poor in**

Late-Victorian London Geoffrey A. C. Ginn, 2017-04-21 In refreshing our understanding of this obscure but eloquent activism Ginn approaches cultural philanthropy not simply as a project of class self interest nor as fanciful missionary aestheticism Rather he shows how liberal aspirations towards adult education and civic community can be traced in a number of centres of moralising voluntary effort Concentrating on Toynbee Hall in Whitechapel the People's Palace in Mile End Red Cross Hall in Southwark and the Bermondsey Settlement the discussion identifies the common impulses animating practical reformers across these settings Ginn shows how these were shaped by a distinctive diagnosis of urban deprivation and anomie **Popular Politics in Nineteenth Century England** Rohan McWilliam, 2012-11-12 Popular Politics in

Nineteenth Century England provides an accessible introduction to the culture of English popular politics between 1815 and 1900 the period from Luddism to the New Liberalism This is an area that has attracted great historical interest and has undergone fundamental revision in the last two decades Did the industrial revolution create the working class movement or was liberalism which transcended class divisions the key mode of political argument Rohan McWilliam brings this central debate up to date for students of Nineteenth Century British History He assesses popular ideology in relation to the state the nation gender and the nature of party formation and reveals a much richer social history emerging in the light of recent historiographical developments Political Change and the Rise of Labour in Comparative Perspective Mary

Hilson, 2006-01-07 A comparative analysis of social change democratization and the development of modern party politics in Britain and Sweden during the period 1880-1930 this book presents the similarities of political changes in these two countries at this time and also in the wider European context with particular reference to the emergence of social democracy as a political current The Lancashire Giant Ross Murdoch Martin, 2000-01-01 *The Lancashire Giant* tells the story of a

nine year old cotton weaver who went on to carve out two extraordinary careers for himself In the first David Shackleton became a truly dominating presence in the Edwardian trade union movement was the third MP to be elected under the banner of the Labor party and played a critical role in the infancy of the party His second career begun at Winston Churchill s prompting in 1910 took him to the summit of the British civil service and to active participation in the deliberations of Lloyd George s War Cabinet Prominent union officials have frequently become government ministers but none has repeated Shackleton s achievement in becoming the permanent secretary of a ministry This distinctive career is presented and analysed in meticulous detail by Ross Martin The result is a thorough and rounded portrait strengthened by some suggestive analysis of Shackleton as a private individual Labor History An accessible detailed analytic and sympathetic study English Historical Review *Women, Social Leadership, and the Second World War* James Hinton, 2002-11-21 The associational life of middle class women in twentieth century England has been largely ignored by historians During the Second World War women s clubs guilds and institutes provided a basis for the mobilization of up to a million women mainly housewives into unpaid part time work Women s Voluntary Service which was set up by the Government in 1938 to organize this work generated a rich archive of reports and correspondence which provide the social historian with a unique window into the female public sphere Questioning the view that the Second World War served to democratize English society James Hinton shows how the war enabled middle class social leaders to reinforce their claims to authority Displaying character through their voluntary work the leisured women at the centre of this study made themselves indispensable to the war effort James Hinton delineates these continuities of class reconstructing intimate portraits of local female social leadership in contrasting settings across provincial England towns large and small shire counties the Durham coalfield tracing complex and often acerbic rivalries within the voluntary sector and uncovering gulfs of mutual distrust and incomprehension dividing publicly active women along gendered frontiers of class and party This study reminds us how much Britain s wartime mobilization relied on a Victorian ethos of public service to cope with the profoundly un Victorian problems of total war The women s associations so evocatively explored here reached the apex of their effectiveness during the Second World War sustaining an uneasy balance between voluntarism and the expanding power of the state In the longer term female social leaders found themselves marginalized by bureaucracy and professionalization The stories told here demonstrate that the Second World War changed English society far less than is often assumed It was not until the 1950s and 1960s that practices and attitudes laid down in the nineteenth century finally lost their purchase
