It provides a fresh treatment to the source material and highlights vivid accounts of the historical events of the time. Imagining Afghanistan Alla Ivanchikova, 2019-09-15. *Imagining Afghanistan* examines how Afghanistan has been imagined in literary and visual texts that were published after the 9/11 attacks and the subsequent U.S.-led invasion, the era that propelled Afghanistan into the center of global media visibility. Through an analysis of fiction, graphic novels, memoirs, drama, and film, the book demonstrates that writing and screening Afghanistan has become a conduit for understanding our shared post-9/11 condition. Afghanistan serves as a lens through which contemporary cultural producers contend with the moral ambiguities of twenty-first-century humanitarianism, interpret the legacy of the Cold War, debate the role of the U.S. in the rise of transnational terror, and grapple with the long-term impact of war on both human and nonhuman ecologies. Post-9/11 global Afghanistan literary production remains largely NATO-centric insofar as it is marked by an uncritical investment in humanitarianism as an approach to Third World suffering and in anti-communism as an unquestioned premise. The book's first half exposes how persisting anti-socialist biases, including anti-statist bias, not only shaped recent literary and visual texts on Afghanistan, resulting in a distorted portrayal of its tragic history, but also informed these texts' reception by critics. In the book's second half, the author examines cultural texts that challenge this limited horizon and forge alternative ways of representing traumatic histories. Captured by the author through the concepts of deep time, nonhuman witness, and war as a multispecies ecology, these new aesthetics bring readers a sophisticated portrait of Afghanistan as a rich multispecies habitat affected in dramatic ways by decades of war but not annihilated.

Area Handbook for Afghanistan Harvey Henry Smith, 1969. **An Afghan Prince in Victorian England** Robert D. McChesney, 2024-07-25. In 1894 Great Britain invited Abd al Rahman Khan, the amir of Afghanistan, to England for a state visit. Then, at the height of its imperial might, Britain sought to strengthen ties with the strategically important Afghanistan, which shared a long frontier, not yet a border, with British India. The amir's aim for the visit was to secure permission for an Afghan legation embassy in London, while the British, unaware of this goal, hoped to overawe the amir with displays of military and industrial might, as well as performances to show the strength and unity of British civil society. The amir, citing illness, ultimately declined the invitation, but in a calculated snub sent his second son, Prince Nasr Allah Khan, in his place. This book narrates the events of the prince's mission in a number of revealing ways. Using both British and Afghan sources, including the journal of a senior

member of the Afghan contingent McChesney places the visit in its international and historical context and analyzes the internal dynamics of the prince's delegation the seventy members of whom represented Afghanistan but included two Englishmen and two English women A further twenty members representing the Government of British India were as multi ethnic and multilingual as the members of the Afghan delegation This bilateral and complex mission left India in April 1895 and remained together for the next six months From the beginning it was riven by incidents of misogyny racism and class conflict that affected its ability to perform its diplomatic functions The reader gains insights into the goals and tactics of two asymmetrical yet competing powers as well as a rare look at the human element in this cross cultural diplomatic encounter

On Afghanistan's Plains Jules Stewart, 2011-06-30 Britain's military involvement in Afghanistan is a contentious subject yet it is often forgotten that the current conflict is in fact the fourth in a string of such wars dating back as far as the early nineteenth century Aiming to protect the British territories in India from the expanding Russian empire the British fought a series of conflicts on Afghan territory between 1838 and 1919 The Anglo Afghan wars of the 19th and early 20th centuries were ill conceived and led to some of the worst military disasters ever sustained by British forces in this part

of the world with poor strategy in the First Afghan War resulting in the annihilation of 16 000 soldiers and civilians in a single week In his new book Jules Stewart explores the potential danger of replaying Britain s military catastrophes and considers what can be learnt from revisiting the story of these earlier Afghan wars
