Project Sanctuary, 1999-11 Project Sanctuary is a training manual to allow the user to begin understanding and using Quantum Logic and to repair the conscious/unconscious divide For most if not all endeavours at the far edge of human knowledge an innate understanding of Quantum Logic is essential This is systemic organic thinking which may involve computations of n complexity and this cannot be achieved with ordinary thinking the hard way Human beings are structurally designed to think in Quantum Logic but have been entrained to a much slower harder and highly limited logic of four dimensional symbols and language thus causing a break between what we now call the conscious and the unconscious mind For anyone involved in learning about people psychology healing mathematics art creativity physics etc it is of the essence to firstly bridge the gap and allow insights derived from the Quantum Logic processes of the unconscious mind to be made available to the conscious mind once more and secondly to re-train the conscious mind to be able to compute in Quantum logic also thereby reuniting dream and real This leads even at the beginning stages to a powerful increase in intuition ESP creativity and effectiveness in learning and understanding the complex systems of relationships of people and of their ecology Project Sanctuary achieves this reunification process by a simple and joyful communication within one person's mind in a stepped off reality dimension which gave the training process and the book its name Project Sanctuary the third edition contains both the original training process as well as a reaching addendum of practical and powerful patterns which were derived directly by using the Project Sanctuary process itself in order to generate these

Biblical Porn Jessica Johnson, 2018-04-19 Between 1996 and 2014 Mark Driscoll's Mars Hill Church multiplied from its base in Seattle into fifteen facilities spread across five states with 13 000 attendees When it closed the church was beset by scandal with former attendees testifying to spiritual abuse emotional manipulation and financial

exploitation In Biblical Porn Jessica Johnson examines how Mars Hill's congregants became entangled in processes of religious conviction Johnson shows how they were affectively recruited into sexualized and militarized dynamics of power through the mobilization of what she calls biblical porn the affective labor of communicating promoting and embodying Driscoll's teaching on biblical masculinity femininity and sexuality which simultaneously worked as a marketing strategy social imaginary and biopolitical instrument Johnson theorizes religious conviction as a social process through which Mars Hill's congregants circulated and amplified feelings of hope joy shame and paranoia as affective value that the church capitalized on to grow at all costs

Journey of Gujarati Women Writers: from Regionalism to Globalism Dr. Pratixa Parekh, 2024-08-28 For my research I have conducted a comparative study of the select fiction by Gujarati women writers in its original Gujarati and in English translation The primary texts considered for the same consists of some of the famous fiction by well know Gujarati authors Saat Pagla Akashma by Kundanika Kapadia Vaad by Ila Arab Mehta Andhari Galima Safed Tapka by Himanshi Shelat and two anthologies of Gujarati short stories translated in English Speech and Silence by Rita Kothari and New Horizons of Women's Writing by Amina Amin and Manju Verma For this comparative study I have applied Andre Lefevere's 1945 1996 conceptual framework of Translation as a Rewriting of the Original and his concepts of four constraints namely Ideology Poetics Patronage and Universe of Discourse Apart from this another important aim of my research was to examine the representation of female gender and scrutinize any instance of manipulation to create a different and more acceptable image of the women of Gujarat Often it has been observed that the translator's personal prejudices and cultural background affect the meaning of the original text as well as the character portrayal to suit the convenience of the target language culture readers The book also involved a study of the literature of Gujarat with particular focus on the arrival and contributions of women writers to the Gujarati literary spectrum a comparative analysis of the representation of women in fiction by male and female writers of the state Along with mainstream literature folk and tribal literatures too have been considered especially the gender images they portrait I have scrutinised select excerpts from both the original fiction and their translations of the primary texts to examine any instances of misrepresentation or ambiguity at socio cultural linguistic front as well as in the representation of female self with a theoretical background of general translation theory and Lefevere's theory in particular

with fascinating findings at the end of the research endeavour In recent years translation studies has emerged as a major academic discipline along with the rise of translation industry with the availability of multiple foreign language texts available in English as well as Indian languages and vice versa This booming industry also promised ample opportunities to translators assuring not only prestige but also financial security However the point under scrutiny is that does the commercialization of the translation industry promote quality translations In such circumstances it is essential to conduct a survey to analyse the quality of translations produced and to provide a better guideline to the aspiring translators to make them better equipped with translation technique and theory to help them produce good quality translations while overcoming various hurdles at linguistic cultural and stylistic levels which are capable to represent the region culture society writer and literature of the original language This research focuses on this relatively new and less paved area and it is a humble initiative in this direction with an aim to spread awareness towards this much neglected aspect of translation activity **The**
