**New Society** ,1978      **Social Class in the 21st Century** Mike Savage,2015-11-05 A fresh take on social class from the experts behind the BBC s Great British Class Survey Why does social class matter more than ever in Britain today How has the meaning of class changed What does this mean for social mobility and inequality In this book Mike Savage and the team of sociologists responsible for the Great British Class Survey look beyond the labels to explore how and why our society is changing and what this means for the people who find themselves in the margins as well as in the centre Their new conceptualization of class is based on the distribution of three kinds of capital economic inequalities in income and wealth social the different kinds of people we know and cultural the ways in which our leisure and cultural preferences are exclusive and provides incontrovertible evidence that class is as powerful and relevant today as it s ever been      **Contributions to Indian Sociology** ,1988      *British Book News* ,1979      **Sociological Abstracts** Leo P. Edinburgh **Resources in Education** ,1989-07 *Religion in Context* I. M. Lewis,1996-04-18 Religious power assumes many strikingly different forms which are often regarded as unique unrelated and even mutually exclusive Religion in Context however adopts a holistic approach and argues that these apparently contradictory mystical experiences are in fact part of a web of mutually defining and sustaining elements Stressing the importance of rigorous social contextualisation I M Lewis analyses phenomena such as spirit possession witchcraft cannibalism and shamanism revealing connections between them and with the world religions This expanded and updated edition illuminates critical aspects of religious power and demonstrates the value of a comparative approach to formulating anthropological theory It will be of value to students of anthropology religion and to anyone concerned with the nature of religion in the modern world [Proceedings of the British Psychological Society](#) British Psychological Society,1993 **Douglas Sirk, Aesthetic Modernism and the Culture of Modernity** Victoria L. Evans,2017-05-24 The first truly interdisciplinary analysis to link Douglas Sirk s striking visual aesthetic to key movements in twentieth century art and architecture this book reveals how the exaggerated artifice of Sirk s formal style emerged from his detailed understanding of the artistic debates that raged in 1920s Europe and the post war United States With detailed case studies of *Final Chord* and *All That Heaven Allows* Victoria Evans demonstrates how Sirk attempted to dissolve the boundaries of cinema by assimilating elements of avant garde art architecture and design into the colour composition and setting of many of his most well known films Treating Sirk s oeuvre as a continuum between his German and American periods Evans argues that his mise en scene was the result of an interdisciplinary transnational dialogue and illuminates the broader cultural context in which his films appeared by establishing links between archival documents Modernist manifestos and the philosophical writings of his peers [TŃLŃS, the Times Literary Supplement](#) ,1978 *British Books in Print* ,1979 **Yearbook of International Organizations** ,1989 **Index to Theses with Abstracts Accepted for Higher Degrees by the Universities of Great Britain and Ireland and the Council for National Academic Awards** ,2008 **The Scottish Farmer** ,1924 **Tracks on the Ocean** Sara Caputo,2024-08-29 Longlisted for the 2025 BSHS Hughes Prize Enthralling Philip Ball Ingenious Sujit Sivasundaram In *Tracks on the Ocean* Sara Caputo tells how our journeys around the globe became fixed lines on maps and how journey lines themselves reshaped maps and the way that we view the world From Captain Cook s route across the South Seas to the disorientating power of digital technology the tracks we ve left on the oceans trading exploring and conquering are a hidden record of humanity s impact on the planet Revealing their histories Caputo uncovers a fascinating new history of maritime travel and modernity Weaving human history cartography literature and climate science *Tracks on the Ocean* reveals how on the path to discovery we have changed the world
