the gossip seen by Oscar Lewis as undermining community coherence is really a form of political practice During more than fifteen years of research she observed the metamorphosis of a movement founded as a revolutionary popular struggle into what she terms a politics of loose connections in which temporary alliances flexible identities and shifting rhetoric are adapted to the demands of the moment Martin examines contemporary land struggles with an emphasis on the Comit para la Defensa de Tierra and its attempts to weave together strands of an invented tradition contemporary agrarian reform law and revolutionary ideology She shows how Tepoztecan politics borrows discourses from the Mexican state she then tells how this process shaped local politics in the midst of the contested 1988 national presidential election when local actors elaborated a discourse of democracy as a technique for disciplining gossip and in 1991 when Tepoztecan began to draw on the support of international environmental NGOs Throughout her analysis Martin explores how Tepoztecan politics unfolds in the climate of mistrust first nurtured by the role of the state in local politics and later by the demands of working with U S and Western European environmentalists Martin shows that the politics of loose connections is above all else a style of political participation that has proved adaptive in the contemporary political landscape and that understandings of politics have been dogged by a conception of connections that may well be obsolete in the contemporary world Her study is a balanced re evaluation of Tepoztl n that reveals how politics succeeds through loose connections a strategy that may be instructive for others seeking to survive in either local or global coalitions

Angels in Mourning Roger Bartra, 2018-08-15 Sublime madness ennui and melancholy a condition of imbalance chaotic and desolate and a keystone of modern Western thought Why did this threatening expression of languor and disorder gain such traction at the heart of a European culture supposedly guided by the light of rationalism In *Angels in Mourning* Roger Bartra investigates how three seemingly lucid European thinkers Immanuel Kant Max Weber and Walter Benjamin addressed the irrational and the dolorous in their work Drawing attention to marginal and under explored aspects of their thought Bartra illuminates the disparate ways in which these foundational philosophers gazed into the darkness His surprising and insightful study suggests one explanation for how melancholy found such a prominent space in Western society the blossoming of Romanticism that deep seated protest against the Enlightenment and the capitalist order
