## **The Impact Of World Recession On Children:**

**The Impact of World Recession on Children** UNICEF.,1984      *Children in the International Political Economy* G. Kent,1995-09-13 The first line of responsibility for children lies with their parents but what if the parents fail to look after their children Who else is involved and what should they do Children in the International Political Economy examines the moral responsibilities of different individuals and agencies towards children and argues that some responsibilities should be codified as concrete legal duties If all else fails children must look to the international community for help Thus international agencies should recognize specific obligations to look after the well being of children around the world      **Troubling**

**Children** Joel Best,2017-09-08 Increasingly sociologists have turned their attention to the social problems of children in particular of younger children This collection reflects those recent interest While most researchers have focused on social problems involving adolescents this volume offers instead original case studies of problems concerning preadolescent children The papers that Best has gathered here represent different theoretical and methodological approaches They report on social issues in Albania Kenya and Japan as well as in the United States The range of social problems they address is a wide one from broad societal crises to decision making within families Topics include the effects of economic and social crises in Africa and Eastern Europe concerns about crack use and other forms of fetal endangerment parental decisions about spanking toy choices and letting children listen to rock music schooling in day care and elementary and junior high schools and children s perceptions of environmental crises Troubling Children adds a new dimension to courses in social problems It also offers a different set of perspectives for those concerned with sociology of preadolescent children and their discontents      **The Multilateral Development Banks and Health** United States. Congress. House. Committee on

Banking, Finance, and Urban Affairs. Subcommittee on International Development Institutions and Finance,1984

UNICEF (United Nations Children's Fund) Richard Jolly,2014-04-03 This book provides an in depth analysis of UNICEF s development and operations whilst exploring the significance of UNICEF s achievements and the reasons behind them UNICEF is one of the best known organizations of the United Nations system and the oldest of the UN s development funds It is also the part of the UN which consistently receives support from all countries round the world including the United States This book brings out the wider reasons for UNICEF s success and popularity setting them in the context of UNICEF s evolution since 1946 and drawing lessons for other international organizations The book argues that despite its problems international action for children built substantially on non economic foundations is not only possible but can be highly successful in mobilizing support producing results and making a difference to the lives of millions of children This will be of great interest to all scholars of international organisations development human rights and the United Nations system      **The Impact of World Recession on Children** ,1984      *Handbook on Child Poverty and Inequality* Alberto Minujin,Enrique Delamonica,2025-07-15 This Handbook provides a comprehensive overview of the conceptualisation and the latest

developments in research about child poverty and inequality Adopting a child rights framework it demonstrates the importance of a multi dimensional understanding of poverty specific to children for both research and policy making

**Human Rights Fifty Years On** Tony Evans,1998-11-15 This book offers a critical reappraisal of the project for universal human rights The twentieth thirtieth and fortieth anniversaries of the Universal Declaration of Human Rights were all marked by the publication of volumes that celebrated achievements in the field of human rights Many of these took a self congratulatory line that emphasized progress on the protection of human rights ignoring the facts of torture genocide structural deprivation and the routine exclusion of some groups from political economic and social participation This book brings together some of the leading critics of the current project for universal human rights including Noam Chomsky and Johan Galtung as a counterweight to triumphalist approaches on the fiftieth anniversary of the Declaration *Facilitating Pathways* Helmut Remschmidt,Myron Belfer,Paul Goodyer,2012-12-06 Multidisciplinary and trans cultural This book provides an up to date review of the current state of care treatment and prevention in child and adolescent mental health from multidisciplinary and trans cultural perspectives Systems of care services and interventions in selected parts of the world are described by leading experts with a focus on the current status of services in the respective parts of the world the major needs and deficits in identifying mental health problems in children and adolescents awareness and diagnosis the major needs in treatment care and prevention realistic proposals on how to improve the situation of children and adolescents who suffer from or are at risk for mental health problems In addition the major principles and strategies of treatment and intervention are described on an empirical basis using a selected number of treatment approaches and treatment settings as examples Finally the possibilities strategies and limitations of early detection and prevention are reviewed with the aim of improving the living conditions of children and families in need of mental health support a valuable resource for mental health workers all over the world *Alleviating Hunger* United States. Congress. House. Select Committee on Hunger,1984

**Hunger and Public Action** Jean Drèze,Amartya Sen,1989 This book analyses the role of public action in solving the problem of hunger in the modern world and is divided into four parts Hunger in the modern world Famines Undernutrition and deprivation and Hunger and public action **The Deadly Ideas of Neoliberalism** Rick Rowden,2013-07-04 The Deadly Ideas of Neoliberalism explores the history of and current collision between two of the major global phenomena that have characterized the last 30 years the spread of HIV AIDS and other diseases of poverty and the ascendancy of neoliberal economic ideas The book explains not only how IMF policies of restrictive spending have exacerbated public health problems in developing countries in particular the HIV AIDS crisis but also how such issues cannot be resolved under these economic policies It also suggests how mounting global frustration about this inability to adequately address HIV AIDS will ultimately lead to challenges to the dominant neoliberal ideas as other more effective economic ideas for increasing public spending are sought In stark powerful terms Rowden offers a unique and in depth critique of development economics the political economy

dynamics of global foreign aid and health institutions and how these seemingly abstract factors play out in the real world from the highest levels of global institutions to African finance and health ministries to rural health outposts in the countryside of developing nations and back again

**Child Poverty and Deprivation in the Industrialized Countries, 1945-1995** Giovanni Andrea Cornia, Sheldon Danziger, 1997 The authors in this volume utilize a common analytical framework to evaluate how economic family structure and public policy changes affected the well being of children in the industrialized countries in the West and the East from the end of the Second World War to the mid 1990s Throughout the industrialized world the living standards and social well being of children improved remarkably over these five decades But the quarter century golden age that followed the Second World War gave way to a period of stagnation after the early 1970s Many of the negative developments of the past two decades could not have been easily prevented because of the profound structural changes that have affected all industrialised economies and the profound political changes that have affected the former Soviet Bloc Nonetheless adverse or neglectful social policies share some of the blame for the recent unfavourable changes in child well being The evidence presented suggests that given current economic prospects and family structures further weakening of social policies targeted at children could erode much of the progress of the past fifty years *Sir Hans Singer* D. Shaw, 2002-06-25 This is the first biography of a world famous pioneering development economist Sir Hans W Singer who is better known throughout the developing world than any other economist living or dead It gives a detailed account of the way in which the twists of fate led him to becoming a leading development economist It contains a thematic synthesis of all his major theoretical and conceptual work and of the many initiatives in which he has been involved to solve the problems of developing countries

UN Contributions to Development Thinking and Practice Richard Jolly, 2004-06-18 The authors argue that the UN Charter is infused with the human values human concerns that are at the centre of the UN s thinking on economic human development today They show how the UN s approach to development has evolved to include a broad range of social issues from poverty reduction to equality
