The Emerging New Science Noel Huntley, 2013-01-22 It is not unusual today to hear references to the New Science Scientists in many disciplines recognise the need for a new paradigm a science encompassing all facets of knowledge current mainstream science metaphysics the paranormal religions philosophy New Age ancient knowledge *The Emerging New Science* presents the big picture and can accommodate all fields of knowledge embracing life mind the universe and consciousness well beyond the narrow field of current science which only handles the surface of the universe and in fact is essentially limited to non harmonic laws and principles with subsequent non harmonic technologies resulting in pollution harmful energies to life extreme inefficiencies of energy generation and

deficiencies in energy supplies The multiverse is a holographic fractal system of ordered dimensional levels for the evolution of consciousness There is no dualism infinite regression once the subjectivity objectivity illusion is understood The purposes of life and the universe are known today though not realised by the general public and the scientific community However one must firstly know what life itself is Is it merely matter mechanisms or is there something else Science in pushing its boundaries into more advanced regions of knowledge such as in particular the origin of life and the universe without a shift or expansion of its existing paradigm must either utterly admit failure or arrogantly grossly alter truth by forcing the miracles of creation to fit into its hugely limited framework Leading visionary physicist Richard Feynman states it succinctly What we need is imagination we have to find a new view of the world *The Amazing Travels of Cerrjin Dy* Appleton Schneider, 2010 Male and female symbolic of yin and yang two parts of a whole The whole of combined mind emotions may be required to truly grasp the origin and outcome of existence Along the way the two who travel tour reality of our sphere universe and earth yet soar out on tangents into the imaginary of image and recombinant of intellectual process Publisher's website *The Infinite Contact* Ernest L. Norman, 1960 In this book Dr Norman brings through transmissions from his higher self explaining not only the enigma of religion but also several other paradoxes in our present day society
