Field, 2013-12-15 Louis IX of France reigned as king from 1226 to 1270 and was widely considered an exemplary Christian ruler renowned for his piety justice and charity toward the poor After his death on crusade he was proclaimed a saint in 1297 and today Saint Louis is regarded as one of the central figures of early French history and the High Middle Ages In *The Sanctity of Louis IX* Larry F Field offers the first English language translations of two of the earliest and most important accounts of the king's life one composed by Geoffrey of Beaulieu the king's long time Dominican confessor and the other by William of Chartres a secular clerk in Louis's household who eventually joined the Dominican Order himself Written shortly after Louis's death these accounts are rich with details and firsthand observations absent from other works most notably Jean de Joinville's well known narrative The introduction by M Cecilia Gaposchkin and Sean L Field provides background information on Louis IX and his two biographers analysis of the historical context of the 1270s and a thematic introduction to the texts An appendix traces their manuscript and early printing histories *The Sanctity of Louis IX* also features translations of Boniface VIII's bull canonizing Louis and of three shorter letters associated with the earliest push for his canonization It also contains the most detailed analysis of these texts their authors and their manuscript traditions currently available

**The Making of Saint Louis** Marianne Cecilia Gaposchkin, 2008 Canonized in 1297 as Saint Louis King Louis IX of France r 1226-1270 was one of the most important kings of medieval history and also one of the foremost saints of the later Middle Ages As a saint Louis became the centerpiece of an ideological program that buttressed the ongoing political consolidation of France and underscored Capetian claims of sacred kingship M Cecilia Gaposchkin reconstructs and analyzes the process that led to the monarch's canonization and the consolidation and spread of his cult Differing political and religious ideals produced competing images of the sanctity of Louis in late thirteenth and early fourteenth century France Drawing on hagiography sermons and liturgical evidence the latter a rich but little explored historical source Gaposchkin shows how various groups including Dominicans Cistercians and Franciscans and individuals such as Philip the Fair and Joinville used commemoration of the saint king to sanctify their own politics and notions of identity and religious virtue Louis cult was disseminated to a wider nonelite public through sermons in the fourteenth and fifteenth centuries and then revived by the Bourbon kings in the seventeenth century In deepening our knowledge of this royal saint this elegantly written book opens the curtain on the religious sensibilities and secular politics of a transitional period in European history      *The Queen Mary Psalter* Anne Rudloff Stanton, 2001 Illuminated manuscripts are among the more intimate works of art surviving from the medieval period *The Queen Mary Psalter* c 1316-21 has long been recognized as one of the most outstanding English Gothic manuscripts Its devotional texts are framed by an encyclopedic series of narrative images painted in a delicate and courtly style The psalms are introduced by an Old Testament preface in which tinted drawings are explained by French

captions The psalm decoration incorp a combination of framed illuminations of the life of Christ at the beginnings of important psalms and tinted drawings in the bottom margin of every page that tell stories ranging from the bestiary to the lives of the saints Winner of the 2000 Millennium Award 100 illus Medieval Conduct Literature Kathleen M. Ashley,2009-01-01 Conduct literature is a term used to identify writings that address how one should conduct oneself in social situations In the medieval period conduct literature was essential reading for nearly all literate children and adolescents to educate them in the expected social behaviours for their culture gender and status Using a comparative approach this anthology pairs together pieces of male directed and female directed medieval conduct literature many being translated into English for the first time to present an illuminating picture of medieval gender norms parenting literary style and pedagogy Containing texts written in six vernacular languages each section is also accompanied by textual notes an introduction and an English translation A fascinating examination of a diverse range of regions and cultures Medieval Conduct Literature is a remarkable window into medieval life customs behaviour and social expectations Book Jacket

**Anne of France : Lessons for My Daughter** Anne (de France.),Sharon L. Jansen,2004 Anne of France 1461 1522 daughter of Louis XI and sister of Charles VIII was one of the most powerful women of the fifteenth century She was referred to by her contemporaries as Madame la Grande and remained an active and influential figure in France throughout her life As the fifteenth century drew to a close Anne composed a series of enseignements lessons for her daughter Suzanne of Bourbon These instructions represent a distillation of a lifetime s experience and are presented through the portrait of an ideal princess thus preparing her daughter to act both circumspectly and politically Having steered her own course successfully Anne offers her daughter advice intended to help her negotiate the difficult passage of a woman in the world of politics This is the first translation into English of Anne of France s Lessons *The Sense of Sound* Emma Dillon,2012-04-12 The Sense of Sound is a radical recontextualization of French song 1260 1330 Situating musical sound against sonorities of the city madness charivari and prayer it argues that the effect of verbal confusion popular in music abounds with audible associations and that there was meaning in what is often heard as nonsensical **Before Church and State: A Study of Social Order in the Sacramental Kingdom of St. Louis IX** Andrew Willard Jones,2017-05-01 **Childhood in the Middle Ages and the Renaissance** Albrecht Classen,2011-12-22 Earlier theses on the history of childhood can now be laid to rest and a fundamental paradigm shift initiated as there is an overwhelming body of evidence to show that in medieval and early modern times too there were close emotional relations between parents and children The contributors to this volume demonstrate conclusively on the one hand how intensively parents concerned themselves with their children in the pre modern era and on the other which social political and religious conditions shaped these relationships These studies in emotional history demonstrate how easy it is for a subjective choice of sources coupled with faulty interpretations caused mainly by modern prejudices toward the Middle Ages in particular to lead to the view that in the past children were regarded

as small adults The contributors demonstrate convincingly that intense feelings admittedly often different in nature shaped the relationship between adults and children Louis IX and the Challenge of the Crusade William Chester Jordan, 2015-03-08 Louis IX has long been known both as a saintly crusader and as the founder of effective royal administration in France But in spite of a vast amount of research the details of what happened under his rule and why it happened have been little understood Synthesizing this research from a thematic perspective William Chester Jordan integrates the various facets of the king's reign from 1226 to 1270 to show how the monarch's reforms were inextricably connected with his crusades Originally published in 1979 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Conduct Becoming Glenn Burger, 2018 Glenn D Burger argues that over the course of the long fourteenth century the invention of the good wife in discourses of sacramental marriage private devotion and personal conduct reconfigures how female embodiment is understood *New Catholic Encyclopedia*, 2003 **The Publishers' Trade List Annual**, 1884 **Anne de France and Her Family (1325-1522)** Zita Eva Rohr, 2025-08-24 This book demonstrates that premodern elite and royal women were critical to the geopolitical success of late medieval territorial monarchies the progenitors of early modern states It aims to communicate the unexceptionality of female political influence in medieval and early modern Europe Manifesting sophisticated and informed leadership in times of challenge and transformation women such as Anne de France her matrilineal line and the elite women and girls in her orbit were key to early modern government politics and diplomacy Through a longue durée case study this book examines generations of a premodern matriline culminating in Anne beginning with Elisabetta di Carinzia and her daughter Elionor de Sicilia continuing with Elionor's daughters in law moving into the territories of the insular and peninsular kingdoms of Naples into France with Elionor's granddaughter Yolande d'Aragon and into England with Yolande's granddaughter Marguerite d'Anjou to influence and underwrite powerful and influential territorial monarchies Together these women and the others discussed in this study form an important part of Anne de France's matrilineal heritage providing her with a historical template of lived political experience on which to construct her own gendered political theory and practice **Königskinder** Carola Föller, 2018-10-01 Ein ungebildeter König ist wie ein gekrümmter Esel Mit diesem Zitat brachte es Johannes von Salisbury um 1170 auf den Punkt In einer Welt mit Universitäten und rationalisierter Verwaltung war Regieren eine intellektuelle Tätigkeit Wie aber machte man aus einem Prinzen einen gebildeten König Dieser Frage geht Carola Föller am Beispiel der Kinder König Ludwigs IX des Heiligen von Frankreich 1214-1270 nach Anhand dreier Texte eines Erziehungsleitfadens des dominikanischen Enzyklopedisten Vinzenz von Beauvais eines
