The Instrumental Music Of Carl Philipp Emanuel Bach:

The Instrumental Music of Carl Philipp Emanuel Bach David Schulenberg, 1984 **C.P.E. Bach** David Schulenberg, 2017-07-05 The second son of Johann Sebastian Bach C P E Bach was an important composer in his own right as well as a writer and performer on keyboard instruments He composed roughly a thousand works in all the leading genres of the period with the exception of opera and Haydn Mozart and Beethoven all acknowledged his influence He was also the author of a two volume encyclopedic book about performance on keyboard instrument C P E Bach and his music have always been the subject of significant scholarship and publication but interest has sharply increased over the past two or three decades from performers as well as music historians This volume incorporates important writings not only on the composer and his chief works but also on theoretical issues and performance questions The focus throughout is on relatively recent scholarship otherwise available only in hard to access sources **Fantasy in the Instrumental Music of C.P.E. Bach** Matthew William Head, 1995 **The Music of Carl Philipp Emanuel Bach** David Schulenberg, 2014 Of the four sons of J S Bach who became composers Carl Philipp Emanuel 1714-88 was the most prolific the most original and the most influential both during and after his lifetime This first full length English language study critically surveys his output examining not only the famous keyboard sonatas and concertos but also the songs chamber music and sacred works many of which resurfaced in 1999 and have not previously been evaluated The book also outlines the composer's career from his student days at Leipzig and Frankfurt Oder to his nearly three decades as court musician to Prussian King Frederick the Great and his last twenty years as cantor at Hamburg Focusing on the composer's choices within his social and historical context the book shows how C P E Bach deliberately avoided his father's style while adopting the manner of his Berlin colleagues derived from Italian opera A new perspective on the composer emerges from the demonstration that C P E Bach best known for his virtuoso keyboard works refashioned himself as a writer of vocal music and popular chamber compositions in response to changing cultural and aesthetic trends Supplementary texts and musical examples are included on a companion website David Schulenberg is professor of music at Wagner College and teaches historical performance at the Juilliard School He is the author of *The Music of Wilhelm Friedemann Bach* University of Rochester Press 2010 **The Instrumental Music of Carl Philipp Emanuel Bach** David Schulenberg, 1983 **Carl Philipp Emanuel Bach Studies** Stephen L. Clark, 1988 This collection of essays reflects the growth of interest in and research on Carl Philipp Emanuel Bach 1714-88 over the last twenty years The contributors including Christopher Hogwood Hans G nter Ottenberg Darrell M Berg and Rachel Wade discuss a wide range of topics surrounding Bach including musical innovations relationships with contemporaries aesthetics and influence **Carl Philipp Emanuel Bach** Doris Bosworth Powers, 2002 First Published in 2002 Routledge is an imprint of Taylor Francis an informa company **Carl Philipp Emanuel Bach Studies** Annette Richards, 2006-08-03 C P E Bach Studies collects together nine wide ranging essays by leading scholars of eighteenth century music Offering fresh

perspectives on one of the towering figures of the period the authors explore Bach's music in its cultural contexts and show in diverse and complementary ways the reciprocal relationship between Bach's work and contemporary literary theological and aesthetic debates Topics include Bach's relation to theories of sensibility and the sublime the free fantasy and concepts of self and being and Bach's engagement with music history and the legacy of his predecessors Wider questions of C P E Bach reception also play an important part in the book which explores not only the interpretation of Bach's music in his time but also its reception over the two centuries since his death *C.P.E. Bach* Doris Powers, 2002-04-19 Although he is the son of J S Bach C P E Bach is an important composer in his own right this long awaited annotated bibliography presents a complete listing of the works of C P E Bach This volume in the Routledge Music Bibliographies series includes many different aspects of his work the editing of his father's masterpieces his concert **Bach Perspectives, Volume 1** Russell Stinson, 2025-01-21 Launched in 1995 Bach Perspectives has become the premier English language serial book series dedicated to cutting edge Bach scholarship The University of Illinois Press now offers the first four volumes in open access editions available for free to all interested readers In Volume One Bach scholar Russell Stinson edits essays from Stephen A Crist Michael Marissen David Schulenberg and other experts Topics range from issues of composition and improvisation to works like the Orgelbüchlein and the First Brandenburg Concerto Contributors James A Brokaw II Eric T Chafe Stephen A Crist Michael Marissen David Schulenberg and Russell Stinson **Schenker Studies 2** Hedi Siegel, 1999-04-22 Second volume of studies based on the work of Heinrich Schenker **Mendelssohn, Time and Memory** Benedict Taylor, 2011-10-27 Felix Mendelssohn has long been viewed as one of the most historically minded composers in western music This book explores the conceptions of time memory and history found in his instrumental compositions presenting an intriguing new perspective on his ever popular music Focusing on Mendelssohn's innovative development of cyclic form Taylor investigates how the composer was influenced by the aesthetic and philosophical movements of the period This is of key importance not only for reconsideration of Mendelssohn's work and its position in nineteenth century culture but also more generally concerning the relationship between music time and subjectivity One of very few detailed accounts of Mendelssohn's music the study presents a new and provocative reading of the meaning of the composer's work by connecting it to wider cultural and philosophical ideas Interpreting Historical Keyboard Music Andrew Woolley, John Kitchen, 2016-05-23 Research in the field of keyboard studies especially when intimately connected with issues of performance is often concerned with the immediate working environments and practices of musicians of the past An important pedagogical tool the keyboard has served as the workbench of countless musicians over the centuries In the process it has shaped the ways in which many historical musicians achieved their aspirations and went about meeting creative challenges In recent decades interest has turned towards a contextualized understanding of creative processes in music and keyboard studies appears well placed to contribute to the exploration of this wider concern The nineteen essays

collected here encompass the range of research in the field bringing together contributions from performers organologists and music historians Questions relevant to issues of creative practice in various historical contexts and of interpretative issues faced today form a guiding thread Its scope is wide ranging with contributions covering the mid sixteenth to early twentieth century It is also inclusive encompassing the diverse range of approaches to the field of contemporary keyboard studies Collectively the essays form a survey of the ways in which the study of keyboard performance can enrich our understanding of musical life in a given period

Orientalism, Masquerade and Mozart's Turkish Music Matthew Head, 2018-12-13 Matthew Head explores the cultural meanings of Mozart's Turkish music in the composer's 18th century context in subsequent discourses of Mozart's significance for Western culture and in today's not entirely post colonial world Unpacking the ideological content of Mozart's numerous representations of Turkey and Turkish music Head locates the composer's exoticisms in shifting power relations between the Austrian and Ottoman Empires and in an emerging orientalist project At the same time Head complicates a presentist post colonial critique by exploring commercial stimuli to Mozart's turquerie and by embedding the composer's orientalism in practices of self disguise epitomised by masquerade and carnival In this context Mozart's Turkish music offered fleeting liberation from official and proscribed identities of the bourgeois Enlightenment

Music's Fourth Wall and the Rise of Reflective Listening Cary C Boshamer Distinguished Professor of Music Emeritus Mark Evan Bonds, Mark Evan Bonds, 2025 Music's Fourth Wall and the Rise of Reflective Listening examines fundamental changes in concert hall listening since the Enlightenment with an emphasis on changing assumptions about the very act of listening itself Author Mark Evan Bonds shows how reflective distanced listening previously limited to professional musicians and connoisseurs ousted the earlier ideal of resonant self forgetful listening And for better or worse it is the ideal of reflective listening that has prevailed ever since
