more In turn soccer organizations have leveraged their power over membership and tournament decisions to play a role in international relations In Soccer Diplomacy an international group of experts analyzes the relationship between soccer and diplomacy Together they investigate topics such as the use of soccer as a tool of nation state based diplomacy soccer as a non state actor and the relationship between soccer and diplomatic actors in subnational national and transnational contexts They also examine the sport as a conduit for representation communication and negotiation Drawing on a wealth of historical examples the contributors demonstrate that governments must frequently address soccer as part of their diplomatic affairs They argue that this single sport more than the Olympics other regional multisport competitions or even any other sport reveals much about international relations how states attempt to influence foreign views and regional power dynamics
