

# Crime, Deviance and Social Control

## Definitions

**Crime:** An illegal act for which someone can be punished by the government.

**Deviance:** Social behaviour that diverges (differs) from usual or accepted standards within a society.

**Social control:** A certain set of rules and standards in society that keep individuals bound to conventional standards and control people's behaviour.

## Socialisation

Through socialisation we learn to adapt to the values and norms of a particular society. As we grow older, we become increasingly more self-disciplined and we learn to control our behaviour so that we may fit in with the rest of society. This idea of discipline taught by society can be seen as a form of social control since it regulates our behaviour.

Can you think of some reasons why social control is important for society?

## **Social Control In Europe History Of Crime And Criminal Justice Series:**

**Social Control in Europe: 1500-1800** Herman Roodenburg, 2004 This first volume of a two volume collection of essays provides a comprehensive examination of the idea of social control in the history of Europe The uniqueness of these volumes lies in two main areas First the contributors compare methods of social control on many levels from police to shaming church to guilds Second they look at these formal and informal institutions as two way processes Unlike many studies of social control in the past the scholars here examine how individuals and groups that are being controlled necessarily participate in and shape the manner in which they are regulated Hardly passive victims of discipline and control these folks instead claimed agency in that process accepting and resisting and thus molding the controls under which they functioned The essays in this volume focus on the interplay of ecclesiastical institutions and the emerging states examining discipline from a bottom up perspective Book jacket

**Social Control in Europe** Herman Roodenburg, 2004 This two volume collection of essays provides a comprehensive examination of the idea of social control in the history of Europe The uniqueness of these volumes lies in two main areas First the contributors compare methods of social control on many levels from police to shaming church to guilds Second they look at these formal and informal institutions as two way processes Unlike many studies of social control in the past the scholars here examine how individuals and groups that are being controlled necessarily participate in and shape the manner in which they are regulated Hardly passive victims of discipline and control these folks instead claimed agency in that process accepting and resisting and thus molding the controls under which they functioned In both volumes an introduction outlines the origins and the continuing value of the concept of social control The introductions are followed by two substantive sections The essays in part one of volume I focus on the interplay of ecclesiastical institutions and the emerging states those in part two of volume I look more explicitly at discipline from a bottom up perspective The essays in part one of volume 2 explore the various means by which communities generally working class communities in nineteenth and twentieth century Europe were subjected to forms of discipline in the workplace by the church and by philanthropic housing organizations It notes also how the communities themselves generated their own forms of internal control Part two of volume 2 focuses on various policing institutions exploring in particular the question of how liberal and totalitarian regimes differed in their styles of control repression and surveillance

**Social Control in Europe: 1800-2000** Herman Roodenburg, 2004      **Policing European Metropolises** Elke Devroe, Adam Edwards, Paul Ponsaers, 2017-02-03 Understanding the politics of security in city regions is increasingly important for the study of contemporary policing This book argues that national and international governing arrangements are being outflanked by various transnational threats including the cross border terrorism of the attacks on Paris in 2015 and Brussels in 2016 trafficking in people narcotics and armaments cybercrime the deregulation of global financial services and environmental crime Metropolises are the focal points of the transnational networks through which policing problems are

exported and imported across national borders as they provide much of the demand for illicit markets and are the principal engines generating other policing challenges including political protest and civil unrest This edited collection examines whether and how governing arrangements rooted in older systems of national sovereignty are adapting to these transnational challenges and considers problems of and for policing in city regions in the European Union and its single market Bringing together experts from across the continent Policing European Metropolises develops a sociology of urban policing in Europe and a unique methodology for comparing the experiences of different metropolises in the same country This book will be of value to police researchers in Europe and abroad as well as postgraduate students with an interest in policing and urban policy

**Policing the City** Andrew Todd Harris, 2004 In Policing the City Harris seeks to explain the transformation of criminal justice particularly the transformation of policing between the 1780s and 1830s in the City of London As utilitarian legal reformers argued that criminal deterrence ought to be based on certain and rational punishment rather than random execution they also had to control the discretionary authority of enforcement This meant in theory and practice the centralization of policing in the 1830s and the end of local policing which was seen as corrupt inefficient and unsuitable for rational criminal justice Revolutionary changes in policing began locally however in the 1780s Such local changes preceded and inspired national reforms and local policing up to the centralizing measures of the 1830s remained dynamic responsive and locally accountable right until its demise Anxiety about policing had as much to do with the social origins of the police as it did about the origins of criminality and control over the discretionary authority of watchmen and constables played a larger role in criminal justice reform than the nature of crime The national metropolitan and City police reforms of the late 1830s were thus the culmination of a contentious argument over the meanings of justice efficiency and order rather than its beginning Harris's evidence reveals how what we've come to think of as modern policing evolved out of local practice and reflects shifts in wider debates about crime justice and discretionary authority

Gender and Petty Violence in London, 1680-1720 Jennine Hurl-Eamon, 2005 Looking at a heretofore overlooked set of archival records of London in the late 17th and early 18th centuries Hurl Eamon reassesses the impact of gender on petty crime and its prosecution during the period This book offers a new approach to the growing body of work on the history of violence in past societies By focusing upon low cost prosecutions in minor courts Hurl Eamon uncovers thousands of assaults on the streets of early modern London Previous histories stressing the masculine nature of past violence are questioned here women perpetrated one third of all assaults In looking at more mundane altercations rather than the homicidal attacks studied in previous histories the book investigates violence as a physical language with some forms that were subject to gender constraints but many of which were available to both men and women Quantitative analyses of various circumstances surrounding the assaults including initial causes weapons used and injuries sustained outline the patterns of violence as a language Hurl Eamon also stresses the importance of focusing on the prosecutorial voice In bringing the court's attention to petty attacks thousands of early modern men and

women should be seen as agents rather than victims This view is especially interesting in the context of domestic violence where hundreds of wives and servants prosecuted patriarchs for assault and in the Mohock Scare of 1712 where London's populace rose up in opposition to aristocratic violence The discussion is informed by a detailed knowledge of assault laws and the rules governing justices of the peace

**Controlling Crime, Controlling Society** Dario Melossi, 2008-12-03 This text offers an overview of anxieties about crime in Europe and the U S and the public and political responses to it It compares a European reliance on the state to the U S system of social control

*Encyclopedia of Historians and Historical Writing* Kelly Boyd, 2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies

**Policing Women** Jo Turner, Helen Johnston, Marion Pluskota, 2023-11-27 Policing Women examines for the first time the changing historical landscape of women's experiences of their contact with the official state police between 1800 and 1950 in the Western world Drawing on and going beyond existing knowledge about policing practices the volume discusses how women encountered the official police how they experienced that contact and the outcomes of that contact in the modern Western world In so doing it is an original and much needed addition to the literature around changes in policing women's experiences of the criminal justice system and women's experiences of control and regulation The chapters uncover such experiences in a range of countries across Europe the USA Canada and Australia Importantly the collection focuses upon a crucial epoch in the history of policing a 150 year period when policing was rapidly changing and being increasingly placed on a formal level Bringing together scholarly work from expert contributors this unique volume draws to the fore women's experiences of policing It will be of great use to both scholars and students on undergraduate and postgraduate criminology and history courses working on the history of crime historical criminology the history of criminal justice and women's history

The Making of the Modern Police, 1780-1914, Part I Vol 3 Paul Lawrence, Francis Dodsworth, Robert M Morris, 2021-12-24 Over six volumes this edited collection of pamphlets government publications printed ephemera and manuscript sources looks at the development of the first modern police force It will be of interest to social and political historians criminologists and those interested in the development of the detective novel in nineteenth century literature This is Part I Volume 3

**The Civilization of Crime** Eric Arthur Johnson, Eric H. Monkkonen, 1996 Along with most of the rest of Western culture has crime itself become more civilized This book exposes as myths the beliefs that society has become

more violent than it has been in the past and that violence is more likely to occur in cities than in rural areas The product of years of study by scholars from North America and Europe The Civilization of Crime shows that however violent some large cities may be now both rural and urban communities in Sweden Holland England and other countries were far more violent during the late Middle Ages than any cities are today Contributors show that the dramatic change is due in part to the fact that violence was often tolerated or even accepted as a form of dispute settlement in village dominated premodern society Interpersonal violence declined in the seventeenth and eighteenth centuries as dispute resolution was taken over by courts and other state institutions and the church became increasingly intolerant of it The book also challenges a number of other historical sociological theories among them that contemporary organized crime is new and addresses continuing debate about the meaning and usefulness of crime statistics CONTRIBUTORS Esther Cohen Herman Diederiks Florike Egmond Eric A Johnson Michele Mancino Eric H Monkkonen Eva sterberg James A Sharpe Pieter Spierenburg Jan Sundin Barbara Weinberger

**Criminological Theories** Suzette Cote, 2002-03-19 This anthology is a superb collection of 36 articles covering all of the major theories past and present that inform criminology today What truly sets this volume apart is the inclusion of many articles discussing novel and often overlooked perspectives in criminological theory In fact many of these articles have never before been included in a reader Each article is framed by an introductory overview discussing the article's importance the context for its development and the author and concludes with discussion questions These articles include a thorough examination of topics such as white collar crime and developmental criminology as well as discussions of integrated theories that consider genetics psychology and environmental approaches As most journal articles are typically written for a professional audience the original articles have been substantially edited and abridged to make them more accessible to students The resulting reader will prove to be an invaluable resource for any undergraduate or graduate course where criminological theory plays a central role

**Cops and Kids** David B. Wolcott, 2005 Juvenile courts were established in the early twentieth century with the ideal of saving young offenders from delinquency Many kids however never made it to juvenile court Their cases were decided by a different agency the police Cops and Kids analyzes how police regulated juvenile behavior in turn of the century America Focusing on Los Angeles Chicago and Detroit it examines how police saw their mission how they dealt with public demands and how they coped daily with kids Whereas most scholarship in the field of delinquency has focused on progressive era reformers who created a separate juvenile justice system David B Wolcott s study looks instead at the complicated sometimes coercive relationship between police officers and young offenders Indeed Wolcott argues police officers used their authority in a variety of ways to influence boys and girls behavior Prior to the creation of juvenile courts police officers often disciplined kids by warning and releasing them keeping them out of courts Establishing separate juvenile courts however encouraged the police to cast a wider net pulling more young offenders into the new system While some departments embraced child friendly approaches to policing others clung to rough and tumble methods By the 1920s and 1930s many police departments developed new strategies that combined progressive initiatives with tougher law enforcement targeted specifically at growing minority populations Cops and Kids illuminates conflicts between reformers and police over the practice of juvenile justice and sheds new light on the origins of lasting tensions between America s police and urban communities *Fundamentals of Criminal Justice* Steven Barkan, George J. Bryjak, 2011-01-28 The criminal justice system is a key social institution pertinent to the lives of citizens everywhere Fundamentals of Criminal Justice A Sociological View Second Edition provides a unique social context to explore and explain the nature impact and significance of the criminal justice system in everyday life This introductory text examines important sociological issues including class race and gender inequality social control and organizational structure and function
