Olesen, 2015-04-09 Global Injustice Symbols and Social Movements examines our collective moral and political maps dotted with symbols shaped by political dynamics beyond their local or national origin and offers the first systematic sociological treatment of this important phenomenon Practicing Ethnography in a Globalizing World June C. Nash, 2007 In this book distinguished anthropologist June Nash demonstrates how ethnography can illuminate a wide array of global problems She describes encounters with an urban U S community undergoing de industrialization with Mandalay rice cultivators accommodating to post World War II independence through animistic practices with Mayans mobilizing for autonomy and with Andean peasants and miners confronting the International Monetary Fund Having worked in a great variety of cultural settings around the world Nash challenges us to expand our anthropological horizons and to think about local problems in a global manner **Climate Action in a Globalizing World** Carl Cassegard, Linda Soneryd, Hakan Thorn, Asa Wettergren, 2017-05-18 The existence and urgency of global climate change is a matter of scientific consensus Yet the global politics of climate change have been anything but consensual In this context a wave of global climate activism has emerged in the last decade in response to the perceived failure of the political negotiations This book provides a unique comparative study of environmental movements in USA Japan Denmark and

Sweden analyzing their interaction with the international climate institutions of the United Nations with national governments and with currents in the global climate movement It documents how and why the movement evolved between the Copenhagen Summit of 2009 and the Paris Summit of 2015 altering its strategies and tactics while attracting new actors to the issue area Further it demonstrates how the development of global environmental networks has increased contact between environmental movements in the Global North and those from the Global South resulting in the establishment of climate justice as a political cause and unifying frame for global climate activism

Social Movements in a Global Context Rod Bantjes, 2007 Social Movements in a Global Context focuses on interpreting the resurgence in popular protest for a growing audience of university students Most of this new activity is either in response to or makes use of emerging global regimes hence the book s emphasis on the global context as well as on strategies for trans local mobilization Equally important is the fact that the book adopts a Canadian perspective and highlights where possible Canadian case studies The chapters are organized around an explanatory framework such as class analysis or a core analytical question Some of the chapters deal with historical content but all make links to the immediate present and attempt to engage students in ongoing debates and struggles The author makes connections between movements and the state focusing on the dynamic of co optation coercion The author also pays attention to the spacial dimensions of movement formation and tactics which are particularly relevant in the present era of globalization
