Social Philosophy Of Vedanta:

Social Philosophy of Vedānta P. George Victor, 1991 *Social Philosophy of Vivekananda and Indian Nationalism* Sebastian Velassery, 2021-05-01 Among the galaxy of scholars Swami Vivekananda stands out as a majestic tower of light who has given a new tempo to the building up of a new sense of nationalism in modern India The uniqueness of Vivekananda was his endeavour to translate every ounce of Vedanta into a social living and was never a cold theoretician or an abstract metaphysician He was aware that India's life is governed by her sovereign sense of the infinite and inclusiveness which nourished her national life and India has been a spiritual strength for her people implanting the seeds that have continuously sprouted and flowered in her art literature religion philosophy science and politics It is a civilization that should be seen not as a closed system or as a finished product but as a dynamic and unfolding process Whatever the differences India's spiritual heritage should be recognized as the focal point and to be appropriated in the conception of a new resurgent India Regrettably what we had been glorifying as the central value of this culture and civilization is disorientated today due to the brutal exhibition of barbarous instincts which were exhibited through the rivalry between religious groups What is being experienced is the loss of inherited values and our inability in reinventing new values By virtue of its characteristic pluralism and its continuously evolving synthesis India represents a nation which is continuously unfolding its civilizational potentialities In making of such an Indian ethos the foundational ideal which has been the basis of Indian culture and civilization is the concept of Dharma and Vivekananda was able to comprehend and articulate the relation between morality dharma and human affairs which are the concerns of practical Vedanta Philosophical Foundation Of Education Y.k Singh,

Vedantic Social Philosophy Sangam Lal Pandey, 1988

Philosophical and Sociological Principles of Education: R.P. Pathak, 2011 Philosophical and Sociological Principles of Education examines the ideologies of eminent Eastern and Western educators and focuses on the history of various schools of thought the role of education in Indian society and how it

leads to national integration and international understanding **The Brahmvâdin** ,1911 **Teaching in Unequal Societies** John Russon,2021-12-30 This book considers teaching in modern institutional settings among other things as the ethical questioning and reversal of passively accepted prejudices particularly in contexts of diversities and inequalities Its thematic focus is the ethics of teacher learner and learner learner relationships within the democratic setup and the possibilities of critique and transformation emerging out of such a relationship The first theme of the book is diversity and pluralism the second is the question of inequality in such contexts of radical diversity With respect to this question an unavoidable phenomenon of our times is the capitalisation of education and the reductionist view of learners as customers and consumers of knowledge The approach to education that sees students merely as skilled human resources to be readied for the job market militates against critical thinking and do not respond appropriately to the questions of diversity and inequality Thus a significant focus of the book is the impact of inherited inequalities of caste and race on classroom ambience and teachers interventions in the modern institutional context The pertinent question is the increasing unwillingness of teachers to recognise and challenge discriminatory views and play their role in social transformation In this regard the teaching and learning of the humanities is also investigated Teaching and the traditional classroom it is often said may not be required in the future as machines and remotely located teachers explicators might claim their place Hence another question of focus is whether such a future would be hospitable to the critical task of education to cultivate young citizens of democracies **The Calendar** University of Calcutta,1913
