concrete description of how the Afrocentric model can be applied in human services to help people of all races and ethnicities. You will expand and diversify your knowledge base in human services by understanding the cultural values, traditions, and experiences of people of African ancestry. Some of the issues and concepts in the Afrocentric paradigm that you will explore are defining the Afrocentric worldview complete with a discussion of its philosophical assumptions and its shortcomings; understanding traditional helping assumptions and methods of West African societies and how these have influenced the helping strategies of African Americans; exploring the strengths and weaknesses of some early African American human service scholars with special concern placed on their rejection of traditional African methods in favor of Eurocentric ideas; resolving youth violence and helping people with substance abuse problems; examining Afrocentric assumptions about resource distribution, morality, and societal relationships; identifying organizational and conceptual differences in Eurocentric and Afrocentric paradigms; creating organizational empowerment and an enhanced work environment via the Afrocentric paradigm. Human Services and the Afrocentric Paradigm will help you understand, solve, and prevent problems that are confronted by several races, especially individuals of African descent. This timely and relevant worldview is thoroughly explained to assist you in better serving people of color. The Afrocentric paradigm will help human services practitioners, administrators, policy advocates, analysts, educators, and black studies professors and students achieve educational and treatment objectives by showing you the importance of various cultural values and how to integrate them to make a difference.
