and specific models of adaptation to loss. It is assumed that loss and change are normal processes which occur within a social and cultural context and the reader is introduced to historical and cultural perspectives which illustrate the diversity of approaches to loss. Major theoretical perspectives are explored to enable students to understand their origins and influence. The authors go on to review the development of common models used to conceptualise individual reactions to loss and provide a critique of these models highlighting the assumptions that underpin them. Finally they discuss how these conceptual models have actually been used in clinical and community interventions. This is a comprehensive text describing the variety of approaches available to understand the process of loss and bereavement.

Boundaries of Self and Other in Ghanaian Popular Culture Joseph K. Adjaye, 2004-03-31. Rituals are among the most enduring aspects of the African cultural landscape. They appear to exist outside of time eternal and unchanging. Joseph Adjaye argues that while rituals may seem to be static in reality they are dynamic and changing. Through intense analysis of child naming ceremonies libations puberty initiation rights funerals and two major Ghanaian festivals Adjaye explores the interplay between ritual and audience interaction and participation. By so doing he shows the many ways rituals have provided Ghanaians with a means to conceptualize and change their present and shape their future. In other words rituals help individuals escape the boundaries of self by promoting a sense of collective purpose and agency. This book will appeal to not only Africanists but to readers interested in the roles rituals play in their own lives and the ways that rituals encourage socially transforming initiatives.

Death and Mourning Processes in the Times of the Coronavirus Pandemic (COVID-19) Lydia Gimenez-Llort, Marie-José H. E. Gijssberts, Efosa Kenneth Oghagbon, Heloisa Viscaino Fernandes Souza Pereira, Sara Invitto, Virginia Torres-Lista, 2022-05-05.

Welcome Home, Boys! Sebastian Jobs, 2012-10. This book takes on the subject of military victory parades in New York City during the first half of the 20th century and looks on these performances as political street theater. The study shows how abstract concepts like the nation state or Americanism were represented and embodied in these events. With its focus on the three main groups of actors involved in the parades: organizers, soldiers, spectators, the book demonstrates how these marches can only be understood as a collaboration of these actors, each group interpreting the event in their very distinct ways. The book deepens our understanding of how political performances functioned in the U.S. and how they made an impact on society. Page 4 of cover.
