The Social Use of Metaphor J. David Sapir, Jon Christopher Crocker, 1977

Metaphors in the History of Psychology David E. Leary, 1994-07-29 Arguing that psychologists and their predecessors have invariably relied on metaphors in articulation the contributors to this volume offer a new key to understanding a critically important area of human knowledge by specifying the major metaphors

Culture and Rhetoric Ivo Strecker, Stephen Tyler, 2009-07-01 While some scholars have said that there is no such thing as culture and have urged to abandon the concept altogether the contributors to this volume overcome this impasse by understanding cultures and their representations for what they ultimately are rhetorical constructs These senior international scholars explore the complex relationships between culture and rhetoric arguing that just as rhetoric is founded in culture culture is founded in rhetoric This intersection constitutes the central theme of the first part of the book while the second is dedicated to the study of figuration as a common ground of rhetoric and anthropology The book offers a compelling range of theoretical reflections historical vistas and empirical investigations which aim to show how people talk themselves and others into particular modalities of thought and action and how rhetoric and culture in this way are co emergent It thus turns a new page in the history of academic discourse by bringing two disciplines anthropology and rhetoric together in a way that has never been done before

[The Transformative Materiality of Meaning-Making](#) David Parkin, 2021-08-18 This book explores verbal and non verbal communication from a social anthropological viewpoint drawing on ethnographic data from fieldwork in East Africa It gives an overview of developments since the 1960s in the anthropology of language use and how these have influenced the author's thinking The volume makes the argument that language and other forms of communication involve semiotic transactions between interlocutors that such communicative exchanges do more than convey information and that they give identity to the recipients of such transactions who reciprocate by defining speakers The density and situational totality of such semiotic exchange can moreover be regarded as a kind of materiality both in terms of

their impact on social interaction and in how interlocutors interact bodily as well as verbally among themselves

Cognition and Figurative Language Richard P. Honeck, Robert R. Hoffman, 2018-10-31 Originally published in 1980 this is a book about the psychology of figurative language It is however eclectic and therefore should be of interest to professionals and students in education linguistics philosophy sociolinguistics and other concerned with meaning and cognition The editors felt there was a pressing need to bring together the growing empirical efforts of this topic In a sense recognition of the theoretical importance of figurative language symbolized the transition from the psycholinguistics of the 1960s to that of the late 1970s that is from a linguistic semantics to a more comprehensive psychological semantics with a healthy respect for context inference world knowledge and above all creative imagination The organization of the volume reflects the more basic general concerns with cognition from historical and philosophical background through problems of mental representation and semantic theory to developmental trends and to applications in problem solving **Psychology**

constructs is like a character in search of an author to give it form or meaning The book begins by considering the indeterminate nature of the evil eye complex Migliore proposes that this indeterminacy allows people to create myriad alternative meanings and messages to define and make sense of their personal experiences He then examines how the evil eye relates to Sicilian Canadian conceptions of health and illness and discusses treatment and prevention strategies Throughout the study the author blends context setting case studies personal recollection and interpretation to provide readers with an accessible alternative look at the multifaceted nature of this folk tradition His position as both an anthropologist and a community insider affords him a unique perspective on the subject This study will be essential reading for students of medical anthropology religion and ethnic studies

The Legacy of Kenneth Burke Herbert W. Simons, Trevor Melia, 1989 Capturing the lively modernist milieu of Kenneth Burke's early career in Greenwich Village where Burke arrived in 1915 fresh from high school in Pittsburgh this book discovers him as an intellectual apprentice conversing with the moderns Burke found himself in the midst of an avant garde peopled by Malcolm Cowley Marianne Moore Jean Toomer Katherine Anne Porter William Carlos Williams Allen Tate Hart Crane Alfred Stieglitz and a host of other fascinating figures Burke himself who died in 1993 at the age of 96 has been hailed as America's most brilliant and suggestive critic and the most significant theorist of rhetoric since Cicero Many schools of thought have claimed him as their own but Burke has defied classification and indeed has often been considered a solitary eccentric genius immune to intellectual fashions But Burke's formative work of the 1920s when he first defined himself and his work in the context of the modernist conversation has gone relatively unexamined Here we see Burke living and working with the crowd of poets painters and dramatists affiliated with Others magazine Stieglitz's 291 gallery and Eugene O'Neill's Provincetown Players the leftists associated with the magazines The Masses and Seven Arts the Dadaists and the modernist writers working on literary journals like The Dial where Burke in his capacity as an associate editor saw T S Eliot's The Wasteland into print for the first time and provided other editorial services for Thomas Mann e e cummings Ezra Pound and many other writers of note Burke also met the iconoclasts of the older generation represented by Theodore Dreiser and H L Mencken the New Humanists and the literary nationalists who founded Contact and The New Republic Jack Selzer shows how Burke's own early poems fiction and essays emerged from and contributed to the modernist conversation in Greenwich Village He draws on a wonderfully rich array of letters between Burke and his modernist friends and on the memoirs of his associates to create a vibrant portrait of the young Burke's transformation from aesthete to social critic

Narratives in the Making Anselma Gallinat, 2016-11-01 Despite the three decades that have passed since the fall of the Berlin Wall the historical narrative of East Germany is hardly fixed in public memory as German society continues to grapple with the legacies of the Cold War This fascinating ethnography looks at two very different types of local institutions in one eastern German state that take divergent approaches to those legacies while publicly funded organizations reliably cast the GDR as a dictatorship a main regional newspaper offers a more ambivalent perspective colored by the experiences and concerns of its readers As author Anselma Gallinat shows such memory work initially undertaken after fundamental regime change inevitably shapes citizenship and democracy in the present
