Social Amnesia

Stephen Lubar, David W. Kingery

Social Amnesia:

Social Amnesia Russell Jacoby, 2018-04-27 Russell Jacoby defines social amnesia as society's repression of remembrance society's own past In this book Jacoby excavates the critical and historical concepts that have fallen prey to the dynamic of a society that strips them both of their historical and critical content Social Amnesia is an effort to remember what is perpetually lost under the pressure of society It is simultaneously a critique of present practices and theories in psychology Jacoby's new self evaluation has the same sharp edge as the book itself offering special insights into the evolution of psychological theory during the past two decades In his probing self critical new introduction Jacoby maintains that any serious appraisal of psychology or sociology or any discipline must seek to separate the political from the theoretical He discusses how in the years since Social Amnesia was first published society has oscillated from extreme subjectivism to extreme objectivism which feed off each other and constitute two forms of social amnesia a forgetting of the past and a pseudo historical consciousness Social Amnesia contains a forceful argument for thinking against the grain an endeavor that remains as urgent as ever It is an important work for sociologists psychologists and psychoanalysts *As Leaven in the World* Thomas M. Landy, 2001 Offers illuminating essays by passionate and well recognized American Catholic intellectuals on the interaction between faith and work By envisioning Catholicism as a cultural force that shapes morality the arts creativity cultural conversation social justice spirituality and vocation the authors invite educational leaders and intellectuals to take seriously their holy work of teaching others how to understand and engage the world from a Catholic perspective Stemming from nearly a decade of conferences sponsored by Collegium a consortium of sixty Catholic colleges and universities this book offers new ways of connecting the content and concerns of Catholic faith to intellectual life across academic disciplines This book helps form a community of inquiry around the issues central to Catholic intellectual enterprise **Social Amnesia** Russell Jacoby, 1975 Rhyming text and illustrations follow a mischievous old black fly through the alphabet as he has a very busy bad day landing where he should not be Critical Issues in Anti-racist Research Methodologies George Jerry Sefa Dei, Gurpreet Singh Johal, 2005 Anti racism studies have blossomed over the years with scholarship and political work reinforcing each other to cement anti racist change But how do we understand anti racist research How is anti racist research methodology different from other methods of research investigation What are the principles of anti racism research This edited collection attempts to provide some answers by bringing together works that examine the perils and desires of anti racist research with a particular focus on the notion of difference and a serious consideration of the race gender class and sexuality intersections implications of educational research *Frankfurt School* J. M. Bernstein, 1994 The Frankfurt School refers to the members associated with the Institut fur Sozialforschung Institute for Social Research which was founded in Frankfurt in 1923 The work of this group is generally agreed to have been a landmark in twentieth century social science It is of seminal importance in our understanding of culture progress politics production

consumption and method This set of six volumes provides a full picture of the School by examining the important developments that have occurred since the deaths of the original core of Frankfurt scholars All the major figures Adorno Horkheimer Marcuse Benjamin are represented In particular the important post war work of Jurgen Habermas is fully assessed The collection also covers the work of many of the minor figures associated with the School who have been unfairly neglected in the past resulting in the most complete survey and guide to the oeuvre of the Frankfurt School A Climate of Justice: An Ethical Foundation for Environmentalism Marvin T. Brown, 2022-01-01 This open access book helps readers combine history politics and ethics to address the most pressing problem facing the world today environmental survival In A Climate of Justice Marvin Brown connects the environmental crisis to basic questions of economic social and racial justice Brown shows how our current social climate maintains systemic injustices and he uncovers resources for change through a civic ethics of repair and reciprocity A must read for researchers and educators in the area of environmental ethics and those teaching courses in the fields of public policy and environmental sustainability With the support of more than 30 libraries the LYRASIS United Nations Sustainable Development Goals Fund has enabled this publication related to SDG13 Climate Action to be available fully open access *Varieties of Cultural History* Peter Burke, 2013-07-08 The aim of this book is both to illustrate and to discuss some of the main varieties of cultural history which have emerged since the questioning of what might be called its classic form exemplified in the work of Jacob Burckhardt and Johan Huizinga Among the themes of individual chapters are the history of popular culture the history of Carnival the history of mentalities the history of gestures the history of jokes and even the history of dreams The emphasis of both the introduction and the case studies which follow is on the variety of forms taken by cultural history today The classic model has not been replaced by any new orthodoxy despite the importance of approaches inspired by social and cultural anthropology Variety is to be found in the cultures studied as well as among their historians The case studies included in the volume come not only from Europe and in particular from Italy but also from the New World especially Brazil Particular emphasis is placed on the importance of cultural encounters cultural conflicts and their consequences whether these consequences should be described in terms of mixing syncretism or synthesis Written by one of the leading cultural historians in Europe today this book will be of particular interest to students of early modern Europe of the encounters between European culture and the New World and to students and scholars interested in problems of historiography **Postsocialist Europe** László Kürti, Peter Skalník, 2009 Now that nearly twenty years have passed since the collapse of the Soviet bloc there is a need to understand what has taken place since that historic date and where we are at the moment Bringing together authors with different historical cultural regional and theoretical backgrounds this volume engages in debates that address new questions arising from recent developments such as whether there is a need to reject or uphold the notion of post socialism as both a necessary and valid concept ignoring changes and differences across both time and space The authors firsthand ethnographies from their own countries belie such a simplistic

notion revealing as they do the cultural social and historical diversity of countries of Central and Southeastern Europe

History from Things Stephen Lubar, David W. Kingery, 2013-06-04 History from Things explores the many ways objects defined broadly to range from Chippendale tables and Italian Renaissance pottery to seventeenth century parks and a New England cemetery can reconstruct and help reinterpret the past Eighteen essays describe how to read artifacts how to listen to landscapes and locations and how to apply methods and theories to historical inquiry that have previously belonged solely to archaeologists anthropologists art historians and conservation scientists Spanning vast time periods geographical locations and academic disciplines History from Things leaps the boundaries between fields that use material evidence to understand the past The book expands and redirects the study of material culture an emerging field now building a common base of theory and a shared intellectual agenda

Principles and Methods of Transformative Action Research John A. Bilorusky, 2021-04-21 Principles and Methods of Transformative Action Research delves into both general principles and specific methods for basic steps in the action research process asking questions gathering and analyzing data communicating findings and pursuing action The role of collaboration is emphasized with strategies of value to experts and engaged citizens in doing participatory research and community based knowledge building Detailed attention is given to specific strategies of interviewing participant observation and judging and weighing evidence The book draws on creative and critically minded elements of scientific traditions such as transparency in telling the story of one's inquiry identifying data that are exceptions to the rule and the value of non formulaic improvisational designs Quite distinctively the book addresses how to write in one's own voice how to integrate action and inquiry into one's everyday life issues of ethics and social responsibility and how to consider both immediate practical needs and bigger picture systemic challenges This book can serve as an undergraduate or graduate social sciences text on research methods It is also a guidebook for action oriented research by academics professionals and lay people alike in community agencies schools and grassroots organizations and for socially relevant academic research concerned with social justice multiculturalism and inclusiveness
