The Swedish Council for Social Science Research* Swedish Council for Social Science Research,1973 **Social Science Research on CAD/CAM** Michael Rader,Bernd Wingert,Ulrich Riehm,2012-12-06 Computer Aided Design CAD and Computer Aided Manufacture CAM are but two of the more recent examples of computer applications in domains previously dominated by human labour The use of computers in such areas has increasingly attracted social science research There are several reasons one could suggest for this not least of them being the simple fact that public money is being provided for such research Of course some of the interest may be due to the wish to prove that technology is being used to inhuman ends but undoubtedly there is also some degree of fascination involved Can you really do all the things with computers that people claim you can There is certainly satisfaction to be had from smugly pointing out its shortcomings but many of the few sociologists in our own organisation are also among the most avid users of modern technology Needless to say they also belong to the most critical users of the technology A new strain of motivation for social science research which appears to be gaining significance is the desire to re direct technology or at least and probably more realistically to play a part in shaping future technology The entire range of motives may be recognised in the collection of papers contained in this volume **Data Protection and Social Science Research** Ekkehard Mochmann,Paul J. Müller,1979 **Sweden Investment and Business Guide Volume 1 Strategic and Practical Information** IBP USA,2013-08 Sweden Investment and Business Guide Strategic and Practical Information **The Stockholm School of Economics Revisited** Lars Jonung,1991-03-29 Papers from a conference held Aug 31 Sept 1 1987 outside Stockholm Sweden Includes bibliographical references p 467 471 **The Social Scientific Gaze** Per Wisselgren,2016-02-24 The social sciences have ever since they were first established as academic disciplines played a

foundational role in most spheres of modern society in policy making education the media and public debate and hence also indirectly for our self understanding as social beings The Social Scientific Gaze examines the discursive formation of academic social science in the historical context of the social question that is the protracted and wide ranging discussions on the social problems of modernity that were being debated with increased intensity during the nineteenth century Empirically the study focuses on the Lönner Foundation a combined private funding agency and early research institute which was set up in 1885 to promote the rise of Swedish social science and to investigate the social question Comprising an heuristic case the close analysis of the Foundation makes it possible not only to reconstruct its basic ideas and practices but also to situate its activities in broader historical and sociological context The Social Scientific Gaze argues that the rise of Swedish social science may be seen not only as an answer to the social question but also as one attempt alongside others including contemporary social literature the philanthropic reform movement and the introduction of modern social policy to conceptualize mobilize and regulate the social sphere In this process it is furthermore shown how an ambiguous yet distinct social scientific gaze was discursively articulated
