Evans, 2011-05-09 Two persistent dilemmas haunt school reform curriculum politics and classroom constancy Both undermined the 1960s new social studies a dynamic reform movement centered on inquiry issues and social activism Dramatic academic freedom controversies ended reform and led to a conservative restoration On one side were teachers and curriculum developers on the other conservative activists determined to undo the revolutions of the 1960s The episode brought a return to traditional history a turn away from questioning and the re imposition of authority Engagingly written and thoroughly researched The Tragedy of American School Reform offers a provocative perspective on current trends

The Soviet Agrarian Debate Susan Gross Solomon, 2019-07-16 The first decade of Soviet cultural life was marked by a pluralism unmatched in the subsequent history of the USSR In many fields of art and science Party and non Party proletarian and bourgeois intellectuals worked side by side vigorously debating questions of substance and method In this first major study of a Soviet field of social science in the post Revolution period Dr Solomon examines the controversy that divided social scientists studying the economy and society of the Soviet peasant during the 1920s The intellectual disagreements in post Revolution Soviet rural

studies were exacerbated by social political and professional differences among the contending scholars The infighting between the groups was bitter Yet in contrast to recent studies of other Soviet professions in the 1920s the author finds that in rural studies Marxists and non Marxists had much in common Her findings suggest that the coexistence of the old and the new in Soviet rural studies might have lasted for some time had not external political forces intervened in late 1928 acting as a pressure on the field and eventually causing its demise
