Festl,2020-12-29 This book explores the role that American pragmatism played in the development of social philosophy in 20th century Europe The essays in the first part of the book show how the ideas of Peirce James and Dewey influenced the traditions of European philosophy especially existentialism and the Frankfurt School of Critical Theory that emerged in the 20th century The second part of the volume deals with current challenges in social philosophy The essays here demonstrate how discussions of two core issues in social philosophy the conception of social conflict and the public can be enriched with pragmatist resources In featuring both historical and conceptual perspectives these essays provide a full picture of pragmatism s role in the development of Continental social philosophy Pragmatism and Social Philosophy will be of interest to scholars and advanced students working on American philosophy social philosophy and Continental philosophy The Publishers Weekly ,1911 **Criminology Theory** Frank Williams III,Marilyn McShane,2015-03-02 This highly acclaimed criminology text presents an up to date review of rational choice theories including deterrence shaming and routine activities It also incorporates current examples of deterrence research regarding domestic violence drunk driving and capital punishment and features thought provoking discussion of the relativity of crime The authors explore the crime problem its context and causes of crime The organization of the text reflects the fact that the etiology of crime must be at the heart of criminology It examines contemporary efforts to redefine crime by focusing on family violence hate crimes white collar misconduct with violent consequences and other forms of human behavior often neglected by criminologists Extensive discussion of evolving laws is included and while the prevalence of the scientific method in the field of criminology is highlighted the impact of ideology on explanations of crime is the cornerstone of the book Max Weber: Methods and theory Bryan S. Turner,1999 **The English Catalogue of Books Published from January, 1835, to January, 1863** ,1864 *American Sociological Review* ,1945-02 **Science and Civilisation in China: Volume 2, History of Scientific Thought** Joseph Needham,Ling Wang,1956-01-03 The second volume of Dr Joseph

Needham's great work *Science and Civilisation in China* is devoted to the history of scientific thought. Beginning with ancient times it describes the Confucian milieu in which arose the organic naturalism of the great Taoist school, the scientific philosophy of the Mohists and Logicians and the quantitative materialism of the Legalists. Thus we are brought on to the fundamental ideas which dominated scientific thinking in the Chinese middle ages. The author opens his discussion by considering the remote and pictographic origins of words fundamental in scientific discourse and then sets forth the influential doctrines of the Two Forces and the Five Elements. Subsequently he writes of the important sceptical tradition, the effects of Buddhist thought and the Neo Confucian climax of Chinese naturalism. Last comes a discussion of the conception of Laws of Nature in China and the West.

Weber and Toennies Joseph B. Maier, 2017-09-08. This collection of selected essays by Werner J. Cahnman brings together out of scattered dispersion his writings about Max Weber, Ferdinand Toennies and historical sociology. The great theoretical range and depth of his intellect and mastery of sociological thinking is apparent as he discusses the impact of romanticism on modern thought and how Weber and Toennies both analyzed and reacted to modernity. Cahnman places Weber (1864-1920) the dominant figure in twentieth century sociology in the midst of the methodological controversies so characteristic of contemporary social science and he fully discusses the overarching importance of Weberian ideal type theory. Although less well known than Weber, Toennies (1855-1936) was also a sociologist of the first rank. He is best remembered for his

enormously influential twin concepts Gemeinschaft and Gesellschaft which contributed to our understanding of the historical and sociological basis for the change from premodern to modern societies The essays in this volume establish Toennies intellectual connections to Karl Marx Max Weber Emile Durkheim and Herbert Spencer and clarify his influence upon American sociology Cahnman stood against strict separations between history and sociology and his essays are all informed by a wonderful admixture of the theoretical and the concrete They demonstrate how a genuine historical sociology not unlike that of Weber and Toennies can find and explain linkages between seemingly disparate events spanning time and place This volume will be of interest to sociologists political scientists and intellectual historians Lowell L. Bennion Mary Lythgoe Bradford, 1995 Lowell L Bennion is legendary in many circles An LDS institute instructor and professor of sociology at the University of Utah he was never content simply to quantify social ills or to preach against them but actively set out to correct what he could He founded and directed the Teton Valley Boys Ranch served as executive director for the Salt Lake City Community Services Council and organized other charities His heart was with the underprivileged He detested Pharisaism and often quoted biblical passages on the topic adapted to a Mormon ear As your treading is upon the poor I hate I despise your fast days and I will not dwell in your solemn assemblies Take thou away from me the noise of thy songs for I will not hear Woe unto them that are at ease in Zion Bennion passed away in 1996 just after this biography was released leaving an enormous void where he had been a beacon to humanitarian and liberation causes in his community
