Socialism and War; a Survey of Chinese Criticism of the Policy of Coexistence. Translated from the Serbo-Croatian by Alec Brown Edvard Kardelj, 1960

Legal Order in a Violent World Richard A. Falk, 2019-03-12 Professor Myres S McDougal of the Yale Law School calls this examination of the relation of law and violence in contemporary international society a profound perceptive and eloquent contribution to the most important problem of our time Professor Falk places great emphasis on two distinctive challenges to world order nuclear weapons and civil strife While developing the implication that even the most powerful states are vulnerable to destruction through nuclear attack he also points out that there is no very firm hope that military power can be managed so as to reduce the predominance of the sovereign state in world politics Richard A Falk is Milbank Professor of International Law and Practice Princeton University Published for the Center of International Studies Princeton University Originally published in 1968 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Battle for International Law Jochen von Bernstorff, Philipp Dann, 2019-10-22 This volume provides the first comprehensive analysis of international legal debates between 1955 and 1975 related to the formal decolonization process It is during this era couched between classic European imperialism and a new form of US led Western hegemony that fundamental legal debates took place over a new international legal order for a decolonised world The book argues that this era presents in essence a battle a battle that was fought out in particular over the premises and principles of international law by diplomats lawyers and scholars In a moment of relative weakness of European powers newly independent states and international lawyers from the South fundamentally challenged traditional Western perceptions of international legal structures engaging in fundamental controversies over a new

international law The legal outcomes of this battle have shaped the world we live in today Contributions from a global set of authors cover contemporary debates on concepts central to the time such as self determination sources and concessions non intervention wars of national liberation multinational corporations and the law of the sea They also discuss influential institutions such as the United Nations International Court of Justice and World Bank The volume also incorporates contemporary regional approaches to international law in the decolonization era and portraits of important scholars from the Global South The Routledge Handbook for Global South Studies on Subjectivities Sebastian Thies,Susanne

Goumegou,Georgina Cebey,2024-05-09 The Routledge Handbook for Global South Studies on Subjectivities provides a series of exemplary studies conjoining perspectives from Asian African and Latin American Studies on subjectivity in the Global South as a central category of social and cultural analysis The contestation of the Northern myth of the autonomous subject the dispositive that contests subject formation in the South by describing it as fragmented incomplete delayed or simply deviant has been a cornerstone of theory production from the South over the years This volume s contributions offer an interdisciplinary and transarea dialogue reframing issues of selfhood and alterity of personhood of the human of the commons and contesting the North s presumption in determining what kind of subjectivities abide by its norms whose voices are heard who is recognised as a subject and by extension whose lives matter In the context of the shifting dynamics of today s manifold crises they raise questions regarding how subjectivities act on or resist such forms of contestation contingency and indeterminacy A major contribution to the growing body of scholarship on the Global South this handbook will be an essential resource for students scholars researchers and instructors in literature media and culture studies sociology anthropology philosophy law politics visual arts and art history Communism and Revolution Cyril E. Black,2015-12-08 In a period marked by growing fluidity between the West and the Communist nations the role of revolution as an instrument of political and social change takes on an intense possibly dangerous importance Owing to the unacceptable risks of international war revolutions in the less developed countries are increasingly taking the place of war as the main arena of great power conflict Thus the attitudes and policies of the Communist countries toward revolution are of vital concern In this book thirteen specialists on Communist affairs consider how the Communists have used revolutions in the past what they have deduced from their experience and what prospects they hold for revolution in light of their ideological commitments Originally published in 1964 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Yugoslavia, Nonalignment and Cold War**

Globalism Zvonimir Stopić,Robert Niebuhr,David Pickus,2024-10-28 This book explores the emergence of Yugoslav

globalism and how it was influenced by the early Cold War the changes once Yugoslavia established itself as a nonaligned leader and what the decline of Yugoslav globalism reveals about the waning Cold War and the history of internationalist diplomacy Although Yugoslavia was correctly defined as a regional power it is not true that Tito's influence was confined to the Balkans alone Even before the 1948 split with Stalin political elites and intellectuals imagined socialist Yugoslavia as a model for international comity and development Subsequently due to dramatic changes in the climate of international diplomacy Yugoslav globalist outreach found an audience and altered the course of early and fateful superpower stand offs In turn such globalism was a significant part of Tito's stewardship of nonalignment This is a story that has never been fully told Yugoslavia Nonalignment and Cold War Globalism fills this gap in discussions of the emergence of globalist discourse in the post 1989 era This volume is aimed at scholars and students of the Cold War and Tito's era in Yugoslavia as well as general readers of history interested in leadership and the role of regional powers in world politics

Socialist Yugoslavia and the Non-Aligned Movement Paul Stubbs, 2023-01-15 After a summit in Belgrade in September 1961 socialist Yugoslavia led by President Josip Broz Tito until his death in 1980 initiated a movement with states in the Global South The Non Aligned Movement not only offered an alternative to the Cold War polarization between NATO and the Warsaw Pact but also expressed the hopes of a world emerging from colonial domination Socialist Yugoslavia and the Non Aligned Movement investigates the Non Aligned Movement both as a top down interstate initiative and as a site for transnational exchange in science art and culture architecture education and industry Re invigorating older debates by consulting newly available sources the volume challenges studies that marginalize the role of socialist Yugoslavia in the Non Aligned Movement Contributors address topics such as women's involvement antifascism and anti imperialism cultural and educational exchange tensions in Yugoslav diplomacy competing understandings of economic development the role of the Yugoslav construction company Energoprojekt Yugoslav relations with Latin America and Africa and contemporary support for refugees and asylum seekers as a kind of practical and affective afterlife of Yugoslavia's non aligned commitments Socialist Yugoslavia and the Non Aligned Movement offers an innovative approach to one of the twentieth century's most important international movements and confronts issues of economic social and cultural rights that remain relevant today

The Darker Nations Vijay Prashad, 2022-08-30 The landmark alternative history of the Cold War from the perspective of the Global South reissued in paperback with a new introduction by the author In this award winning investigation into the overlooked history of the Third World with a new preface by the author for its fifteenth anniversary internationally renowned historian Vijay Prashad conjures what Publishers Weekly calls a vital assertion of an alternative future The Darker Nations praised by critics as a welcome antidote to apologists for empire has defined for a generation of scholars activists and dreamers what it is to imagine a more just international order and continues to offer lessons for the radical political projects of today With the disastrous U S withdrawal from Afghanistan and the rise of India and China on the global scene this paradigm shifting book of groundbreaking scholarship helps us envision the future of the Global South by restoring to memory the vibrant though flawed idea of the Third World whose demise Prashad ultimately argues has produced an impoverished and asymmetrical international political arena No other book on the Third World as a utopian idea and a global movement can speak so effectively and engagingly to our troubled times
