Socialist Constitution of the Democratic People's Republic of Korea Chosŏn-Minjujuŭi-Inmin-Konghwaguk,1972
On the Socialist Constitution of the Democratic People's Il-sŏng Kim,1975 **Asian Comparative Constitutional Law, Volume 2** Ngoc Son Bui,Mara Malagodi,2024-08-22 This is the second in a 4 volume set that provides the definitive account of the major issues of comparative constitutional law in Asian jurisdictions Volume 2 looks at constitutional amendments and offers answers to questions about the formal rules for amending the constitution such as Who initiates an amendment proposal How is the amendment proposal adopted How are the amendments codified and the neo institutional questions regarding amendment practices such as Why is the constitution amended Who engages in the amendment process How does the amendment affect the political system and the society Volume 2 covers 17 Asian jurisdictions including Bangladesh Cambodia mainland China Hong Kong India Indonesia Japan Malaysia Mongolia Myanmar North Korea the Philippines Singapore South Korea Sri Lanka Taiwan and Thailand *Socialist Constitution of the Democratic People's Republic of Korea* Korea (North),2010 **On the Socialist Constitution of the Democratic People's Republic of Korea** Severna Koreja,1975 , **Legal Issues of Inter-Korean Economic Cooperation under the Armistice System** Eric Yong-Joong Lee,2002-09-01 This unique work examines the highly topical national and international legal issues of economic cooperation between North and South Korea under the current divided situation In recent years the relationship between the two Koreas has been generating more concern than in earlier times This new interest has been followed by two epoch making developments over the past decade the conclusion of the Basic Agreement of 1991 and the Declaration of the North South Summit of 2000 These events have caused remarkable changes in political as well as economic relations between the

north and the south This book reviews the current legal regime and the setting up of a positive legal framework for inter Korean economic cooperation beginning to be regulated by international law This research provides two ultimate outcomes One is to resolve the legal problems for transnational economic cooperation relating to North and South Korea the other is to develop a juridical model of south north cooperation as a new world economic framework for the 21st century Three interrelated areas are involved in this work The first part describes the external environmental factors regarding inter Korean economic cooperation from an international legal perspective The second part deals with the legal framework of inter Korean economic cooperation examining concrete issues arising from practical economic exchanges and cooperation between the two Koreas The last part discusses the legal foundations for inter Korean economic integration beyond economic cooperation This book clarifies the significance of the legal environment as an indispensable servant for the parts of a divided country to recover their relationship offering both a normative and practical framework Reconstituting the Constitution

Caroline Morris,Jonathan Boston,Petra Butler,2011-09-01 All nation states whether ancient or newly created must examine their constitutional fundamentals to keep their constitutions relevant and dynamic Constitutional change has greater legitimacy when the questions are debated before the people and accepted by them Who are the peoples in this state What role should they have in relation to the government What rights should they have Who should be Head of State What is our constitutional relationship with other nation states What is the influence of international law on our domestic system What process should constitutional change follow In this volume scholars practitioners politicians public officials and young people explore these questions and others in relation to the New Zealand constitution and provide some thought provoking answers This book is recommended for anyone seeking insight into how a former British colony with bicultural foundations is making the transition to a multicultural society in an increasingly complex and globalised world Individual Duty within a Human Rights Discourse

Douglas Hodgson,2017-03-02 Over the past two decades or so legal literature has devoted much attention to various human rights issues at both the national and international levels Yet there has been comparatively little written on the concept and importance of individual duty within the human rights discourse This book attempts to comprehensively and systematically examine the corollary of human right the principle of individual duty from a number of different perspectives including history the law principally international human rights and humanitarian law and national constitutional law philosophy jurisprudence religion and ethics The author attempts to demonstrate that a greater emphasis upon individual duties is consistent with a cultural relativist critique natural law theory the experience of national legal systems and regional human rights systems certain socio political philosophies and conventional sociological postulates and the dictates of good public policy The author urges the assignment of a greater indeed revived role for the principle of individual duty in order to achieve a more salutary balance between rights and duties and in the relationship between individual freedom and the welfare of the general community Towards a Northeast Asian Security Community Bernhard Seliger,Werner

Pascha,2011-06-25 The Northeast Asian security environment is closely linked to Korea's growth perspectives for the future. The spectacular rise of the South Korean economy in the past half century also known as Miracle on the Han River has been duly highlighted as one of the most successful cases of economic development worldwide. However, among the factors curbing South Korea's growth perspectives has been from the very beginning of its rise, the coexistence of the difficult neighbour to the North, Democratic People's Republic of Korea. While in the cold war this coexistence has been taken as inevitable, after the end of the cold war there were hopes to overcome this obstacle to further growth, either through collapse or enhanced cooperation with the North, neither of which became reality. North Korea's unprecedented aggressiveness and development of long range ballistic missiles and nuclear devices made this threat truly an international question with multilateral talks coming into existence as ad hoc measures to cope with the nuclear crisis. It was then that the idea of a Northeast Asian Security Community was born. The contributions in this book discuss how a peaceful solution of the security problems could not only enhance stability of Korea's economy and reduce the defense burden considerably, the so called peace dividend, but would facilitate regional investments, safer and regional solutions for common economic problems. When discussing the possibilities of a security framework or in an institutionalized form, security community in Northeast Asia, the authors in this volume are realistic as to not fall into the trap of wishful thinking which so often has characterized approaches to North Korea, resulting in disappointment. The past two years again saw the rising of tensions in Northeast Asia and the masterful way in which even an impoverished and isolated country can play its cards. While it seems a new ice age between the two Koreas is possible, nevertheless, and maybe even more than ever, the search for a stable security framework for Northeast Asia as a precondition for peaceful economic cooperation and development will go on. The chapters in this volume contribute to the ongoing debate to secure peace and development in Northeast Asia, making this book of interest to both academics and policy makers alike.

The Journal of Korean Studies, Volume 17, Number 1 (Spring 2012) Clark W. Sorensen, Donald Baker,2012-06-21

The University of Washington Korea Studies Program in collaboration with Rowman Littlefield Publishers is proud to publish the Journal of Korean Studies. In 1979 Dr James Palais PhD Harvard 1968 former UW professor of Korean History edited and published the first volume of the Journal of Korean Studies. For thirteen years it was a leading academic forum for innovative in depth research on Korea. In 2004 former editors Gi Wook Shin and John Duncan revived this outstanding publication at Stanford University. In August 2008 editorial responsibility transferred back to the University of Washington. With the editorial guidance of Clark Sorensen and Donald Baker the Journal of Korean Studies JKS continues to be dedicated to publishing outstanding articles from all disciplines on a broad range of historical and contemporary topics concerning Korea. In addition the JKS publishes reviews of the latest Korea related books. The Reign of God Jonathan Cole,2022-07-28 The Reign of God constitutes the first detailed and

systematic critical engagement with Oliver O'Donovan's political theology. It argues that O'Donovan's theological account of political authority is not tenable on the basis of exegetical and methodological problems. The book goes on to demonstrate a way to refine O'Donovan's theology of political authority by incorporating insights from his earlier work in moral theology. This can provide a cogent basis for thinking that the Christ event redeems the natural political authority embedded in the created order and inaugurates its new historical *bene esse* in the form of Christian liberalism. Isolationist States in an Interdependent World Helga Turku, 2016-05-06. States that withdraw from the international system provide insight into an unexplored area of international relations in terms of rationality, self-interest, power, politics, cooperation, and alliances. Indeed, isolationism in an interdependent state system goes against the logic of modern society and state systems. Using historical, comparative, and inductive analysis, Helga Turku explains why states may choose to isolate themselves both domestically and internationally, using comparative historical analysis to flesh out isolationism as a concept and in practice. The book examines extreme forms of self-imposed domestic and international isolation in an interdependent international system, noting the effects on both the immediate interests of a ruling regime and the long-term national interests of the state and the populace.

East and Southeast Asia 2020-2022 James E. Hoare, 2021-09-15. The World Today Series: East/Southeast Asia provides historical background on the evolution of Modern East/Southeast Asia to help readers gain a thorough understanding of contemporary developments in this vital region. Broad introductory regional chapters are followed by sections on each country in the region. The combination of factual accuracy and up-to-date detail make this an outstanding resource for researchers, practitioners in international development, media professionals, government officials, potential investors, and students to understand the immediate background of contemporary developments.
