philosophy and religion Alan Day, Marilyn Mullan, Priscilla Schlicke, Joan M. Harvey, 1993 *Representing Avarice in Late Renaissance France* Jonathan Patterson, 2015-01-22 Why did people talk so much about avarice in late Renaissance France nearly a century before Molière's famous comedy *L'Avare* As wars and economic crises ravaged France on the threshold of modernity avarice was said to be flourishing as never before Yet by the late sixteenth century a number of French writers would argue that in some contexts avaricious behaviour was not straightforwardly sinful or harmful Considerations of social rank gender object pursued time and circumstance led some to question age old beliefs Traditionally reviled groups rapacious usurers greedy lawyers miserly fathers covetous women might still exhibit unmistakable signs of avarice but perhaps not invariably in an age of shifting social economic and intellectual values Across a large diverse corpus of French texts Jonathan Patterson shows how a range of flexible genres nourished by humanism tended to offset traditional condemnation of avarice and avarices with innovative mitigating perspectives arising from subjective experience In such writings an avaricious disposition could be re-described as something less vicious excusable or even expedient In this word history of avarice close readings of well known authors Marguerite de Navarre Ronsard Montaigne and of their lesser known contemporaries are connected to broader socio economic developments of the late French Renaissance c 1540 1615 The final chapter situates key themes in relation to Molière's *L'Avare* As such *Representing Avarice in Late Renaissance France* newly illuminates debates about avarice within broader cultural preoccupations surrounding gender enrichment and status in early modern France [A London Bibliography of the Social Sciences](#) ,1931 Vols 1 4 include material to June 1 1929

Walford's Guide to Reference Material Marilyn Mullan, 1989 **History**, 1931 **WealthWatch** Michael S. Moore, 2011-05-12 The purpose of this book is to help postmodern Westerners understand what the Bible has to say about wealth and possessions its acquisition and protection deprivation and slavery corruption and hedonism and even relations between management and labor Focusing on Torah the Pentateuch it interprets this great text against other great texts in its literary historical environment including some epic poems from Mesopotamia some Jewish texts from Syro Palestine and some Nazarene parables from the Greek New Testament **Walford's Guide to Reference Material: Social and historical sciences, philosophy and religion** Albert John Walford, Marilyn Mullan, Priscilla Schlicke, Library

Association, 1999 A revised and updated guide to reference material It contains selective and evaluative entries to guide the enquirer to the best source of reference in each subject area be it journal article CD ROM on line database bibliography encyclopaedia monograph or directory It features full critical annotations and reviewers comments and comprehensive author title and subject indexes The contents include philosophy and psychology religion social sciences sociology statistics politics economics labour and employment land and property business organizations finance and banking and economic surveys economic policies and controls trade and commerce business and management and law public administration social services and welfare education customs and traditions geography biography and history *Subject Guide to Books in Print*, 1996 Class and Other Identities Lex Heerma van Voss, Marcel van der Linden, 2002 With the onset of a more conservative political climate in the 1980s social and especially labour history saw a decline in the popularity that they had enjoyed throughout the 1960s and 1970s This led to much debate on its future and function within the historical discipline as a whole Some critics declared it dead altogether Others have proposed a change of direction and a more or less exclusive focus on images and texts The most constructive proposals have suggested that labour history in the past concentrated too much on class and that other identities of working people should be taken into account to a larger extent than they had been previously such as gender religion and ethnicity Although class as a social category is still as valid as it has been before the questions now to be asked are to what extent non class identities shape working people's lives and mentalities and how these are linked with the class system In this volume some of the leading European historians of labour and the working classes address these questions Two non European scholars comment on their findings from an Indian resp American point of view The volume is rounded off by a most useful bibliography of recent studies in European labour history class gender religion and ethnicity *Richelieu* Robert Jean Knecht, 2000 This concise and up to date assessment of Richelieu's career provides an enthralling introduction to the character and exercise of his power Richelieu governed France for 18 years until his death and until the mid 20th century was viewed by Anglo Saxon historians as cold clever and ruthless Recent interpretations have been more favorable and in this incisive study R J Knecht uses recent research to reassess Richelieu's career and achievements And as the other titles in the Profiles in Power series this is not a full blown biography though inevitably it contains much biographical material it instead analyzes the major features achievements and failures of Richelieu's career The Eighteenth Century, 1996
