A Society for International Development Ann Mattis, Society for International Development, 1983 A collection of studies that examines the current problems of world development in light of the past twenty five years but goes also beyond an examination of that experience to project practical and workable plans for the future Restructuring Development Theories and Policies M. Shamsul Haque, 1999-09-09 In the contemporary global context replete with various forms of development crises there is a growing demand for an alternative perspective Haque explains the nature and forms of these current development crises critiques the inadequacies of existing development theories to address such crises restructures these theories into an alternative theoretical perspective and suggests specific policy guidelines for attaining a genuine mode of development He interprets development not as human conformity with any hegemonic development schemes but as human autonomy from various forms and levels of subjugation The book presents original arguments covers up to date literature adopts a multidisciplinary approach mediates between theories and policies and offers a comprehensive development alternative UN Ideas That Changed the World Richard Jolly, Louis Emmerij, Thomas G. Weiss, 2009-09-01 Ideas and concepts have been a driving force in human progress and they may be the most important legacy of the United Nations UN ideas have set past present and future international agendas in many global economic and social arenas and have also led to initiatives and actions that have improved the quality of human life This capstone volume draws upon findings of the other 14 books in the acclaimed United Nations Intellectual History Project Series The authors not only assess the development and implementation of UN ideas regarding sustainable economic development and human security but also apply lessons learned to suggest ways in which the United Nations can play a fuller role in confronting the challenges of human survival with dignity in the 21st century Development, 1983 **Power and Principle in International Affairs** Gordon Clark Schloming, 1991 *Social Development Issues*, 1985 *Proceedings in Print*, 1984 Land Tenure, Agricultural Economics and Rural Development University of Wisconsin--Madison. Sloss, Michael D. Ramsey, William S. Dodge, 2011-04-25 From its earliest decisions in the 1790s the US Supreme Court has used international law to help resolve major legal controversies This book presents a comprehensive account of the Supreme Court's use of international law from its inception to the present day Addressing treaties the direct application of customary international law and the use of international law as an interpretive tool this book examines all the cases or lines of cases in which international law has played a material role showing how the Court's treatment of international law both changed and remained consistent over the period Although there was substantial continuity in the Supreme Court's international law doctrine through the end of the nineteenth century the past century has been a time of tremendous doctrinal change Few aspects of the Court's international law doctrine remain the same in the twenty first century as they were two hundred years ago *A Strategic*

Understanding of UN Economic Sanctions Golnoosh Hakimdavar, 2013-10-08 Economic Sanctions are increasingly used as a legal non military technique of combating abusers of international peace However it remains unclear how the success or failure of these sanctions is measured This book examines the seldom explored United Nations economic sanctions deliberation process and exposes systematic problems in the measurement of the success or failure of these sanctions Centering on the key concepts of peace and security the author brings the reader s attention to the discrepancies that exist in the process of decision making implementation and evaluation of UN imposed economic sanctions She engages international law and development methods to provide proof for the lack of consensus in measures of success and failure which in turn suggests that sanction implementation on a uniform domestic front are unattainable This thorough analysis concludes with suggestions for improving the sanctions process only to clear the path for negating them as a whole and suggest alternative non coercive measures for mitigating conflict situations and threats to peace and security **Bulletin of the Public Affairs Information Service** Public Affairs Information Service, 1984 Paperbound Books in Print, 1992

Bulletin of the Atomic Scientists, 1984-08 *Institutionalizing State Responsibility* Vincent-Joël Proulx, 2016-05-05 Since the 9 11 attacks international organizations have become actively engaged in devising counterterrorism strategies and frameworks This monograph examines the role UN organs can play in implementing the law of State responsibility in global security contexts using transnational terrorism as its principal case study The institutional mechanisms utilized by the UN in implementing State responsibility are assessed in detail shedding light on how the ICJ the General Assembly and the Security Council contribute to the implementation of State responsibility in the context of global security By acknowledging the Security Council s role as a post 9 11 legislator this book argues that the Council can play an important and sometimes determinant role in implementing a State s legal responsibility for failing to prevent terrorism both inside and outside the Chapter VII framework Featuring a discussion of the more controversial consequences flowing from State responsibility this monograph also explores the prospect of injured States adopting forcible measures against responsible States for their failures to prevent terrorism The book investigates whether self defence and other forcible reactions envisaged both inside and outside the Council can be reconciled with State responsibility principles
